Japan Oversteps Once Too Of

the bad habit of being.

GROWING complications in the Chinese war have come tolow Regent shooting of Sir Hughe Montgomery Knatchbull-Hugessen, sador to China. It is an incident without precedent in Britis only does the attack involve Japan in a grave diplomatic seriously complicates Britain's position in the Chinese situal ing the Government of the services of its "key agent" at a c developments. On that account the wholly inexcusable attaciner be accepted as deliberate

The British Cabinet's calm and considered handling of the assurance that no hasty step will be taken which could aggrava strained relations with Japan. At the same time nothing can serious view it has taken or the positive character of the satisfier asked. Official concern is not placing greater stress on the Ambassador than it would on that of any civilian so attacked are diplomatic conditions which increase the enormity of the

Sir Hughe is his Majesty's representative to China. That po antees him full immunity under any circumstances and assures lute freedom in carrying out the duties of his office in war The attacks amount to a denial of that immunity, and mere regr

The excuse that the flag flying from the Ambassador's or was not "distinguishable" to the Japanese airmen is without point. The car was apples travelling a highway miles removed from the actual conflict. The attack, therefore, serves better to illustrate the indiscriminate savagery with which Japan is conducting an undeclared war in what is actually neutral territory. It is an insufferable situation, not only for Britain, but for the other nations, and it is about time it was brought to an end.

In this one respect the shooting of Sir Hughe may serve a very useful purpose. Japan has misplayed her hand in China from the beginning. It offers the opportunity to dilute her enthusiasm for aggression and to reduce her impudence to tolerable doses. In the face of her proposals to run the gamut in the Shanghai blockade, it should not be wasted, and there is every reason to believe, it will not,

His Excellency's Birthday

IT would be interesting to know whether his Excellency thought of himself as Lord Tweedsmuir, Governor-General, or John Buchan, writer, when he cut a huge birthday cake in the little Norwegian settlement on British Columbia's rugged shore. The romantic incident must have stirred his liverary spirit to its depths. First a service in the Lutheran church in memory of those who fell in the Great War. Then the birthday party in a community hall with sixty-two candles and a joint greeting from British and Norwegians In their separate languages. A visit to the Bella Coola Indian Reserve to witness the most sacred of Indian rituals, the Thunderbirds' dance, and receive the highest honor the red man could bestow, involving an undesired river crossing to respect the Indian superstition that removal of the paraphernalia from the island would bring ill luck.

We imagine that both John Buchan and Lord Tweedsmuir got something of a thrill out of this combination of events in such a setting. It must have seemed a climax to all the other unusual and surprising incidents in a long and remarkable journey. It was a birthday celebration to be remembered, and it was a vivid portrayal of the complex make-up of His Majesty's domain even in one small, out-of-the-way corner.

Solomon was wrong! There is something new under the sun. An English fighter that refused to do the horizontal act, who even refused to take a bad licking, but dished out a little on the

If Farr has done nothing else, he has shown that Merrie Old England can turn out fighters that are above the Phil Scott class, and we are a little proud of

We were wrong when we saM that we expected Farr to stay for no more than four rounds, and it is once that we have no regrets for the fact that we, along with 99.99% of the fight fans did make a bum guess. We have no love for Louis because he is dodging Schmeling. We had no love for Farr because we figured that Maxie deserved the crack at the crown rather than the Welshman.

Things have changed a litle now. Louis hasn't changed in our opinion, we still think that Schemeling should be wearing the crown, but when we lok at the game Welshman, we have to see him in a new light. Despite that fact that he fought Louis with no record behind him to justify the match, his exhibition last night puts him on the same standard with the best, and he has earned the right to swap leather with any man who uses a roped square

From the broadcast of the scrap we have made a few deductions. Farr is a game lad, a smooth boxfrand can soak up leather wrapparlynamite like a sponge takes
