

FUTURE STAR FOR WHITE SOX IN SOMERVILLE LAD

BOSTON, Jan. 19.—How would you like to be a young fellow just starting out in this business of professional baseball with a super-star like Jimmie Foxx and a brilliant performer like Babe Dahlgren as obstacles in the path you've elected to pursue towards fame and riches.

You wouldn't like it a bit, would you?

But Arthur Mahan, the Red Sox promising young recruit, thinks it's just fine.

Brilliant Record

We sat him, a former Somerville High School boy ace and Villanova captain, down before a typewriter to tell you all about it—but when he arose the paper was still blank.

It appears that Art is too modest to sing his own praises—and anyhow he didn't know how to type.

So we've elected to pen-type—this open letter to Joe Cronin, the Red Sox manager, in his stead, knowing that it will be well received since Cronin is already familiar with Mahan's brilliant schoolboy and college record.

Manager Red Sox,
Fenway Park:

I want to warn you not to overlook a young fellow in your roster, Artie Mahan. He's a first baseman. I know you have Foxx and Dahlgren and they are insurance enough for this year and next. But after that comes another year and by then you may have more reasons to remember him.

He was just one of Billy Evans' 125 minor leaguers last season—and he may be for another year or two. It's not that he hasn't ambition, mind you. But he has his mind set on becoming a major leaguer and he's willing to make the grade the "hard way."

He learned a lot at Rocky Mount last summer under Specs Torporcer. Don't pay any attention to that .251 batting average. He's a lot better than that. It was his first taste of professional baseball, the first time he had played steadily, day in and day out. And he was smart enough to know that averages shouldn't count—that he was down there to learn.

Batted .350

During the first month he batted at a .350 pace, slicing his left-handed shots into left field. Then Specs started teaching him how to "pull" the ball into right field, so that he might become more dangerous at the plate—not a "one spot" hitter.

It was a hard lesson—and natural. It tore the bottom right out of his average. But he thinks he's learned it and is ready for more instructions.

Don't think too much of that .251 batting average—but don't overlook that .990 fielding average. He's fast and clever around the bag. Remember you, yourself, said that he reminded one of Bill Terry—the same nonchalant, stoopshouldered stance, and loose, slipping glove.

Of course, he's not so big as Terry. Never will be. But he's still growing and now weighs close to 180, which is heavy enough. Lou Blue and Joe Judge never weighed more than that—and you remember them.

What's more Mahan is a member of a great baseball family—Somerville High's family—and there are a lot of folks in Somerville rooting for him. Some of the others were Danny

DATE IS SET FOR SPEED SKATING MEET

The Maritime indoor speed skating championships to be held under the auspices of Saint John Police Amateur Athletic Association will be staged at The Forum here on Monday, February 22.

Definite announcement was made last night by Detective H. J. Kilpatrick, general chairman of the meet.

Detective Kilpatrick stated last night that the sanctions to hold the meet had been obtained from the New Brunswick Skating Association and the date definitely decided.

Entries will close on Saturday, Feb. 20 at 4 p.m., he announced, and that no post entries would be accepted.

It is expected that the call for Maritime skaters will go out on or before Feb. 1.

In all likelihood all classes from 12 years and under to the senior will be listed. Other classes besides those mentioned are 14 years and under, 16 years and under and 18 years and under. Classes for girls will be the same, it is believed.

Races for the seniors this year will be the 440-yard dash, the 880-yard dash, one mile and two miles. The 220-yard dash has been dispensed with for seniors.

To Arrange Workouts

Detective Kilpatrick stated that after entries had been accepted and amateur cards secured he would arrange practice sessions for the skaters at The Forum. Admittance to the practices will be given only to those entries who have a card signed by Detective Kilpatrick. He can be contacted at police headquarters here.

It is expected that many outside entries will be here to compete with the best in the senior and other classes from Saint John.

Although nothing definite has been announced about an attraction in connection with the meet to date the police are now in communication with booking houses for one that will meet approval from the speed skating fans—and friends of the Cops.

Leonard Favors Pastor Over Louis

NEW YORK, Jan. 19.—Benny Leonard, former world lightweight champion, picked himself a limb today and crawled out on it in behalf of Bob Pastor, New York heavyweight, who meets Joe Louis at Madison Square Garden on Jan. 29.

Having watched Pastor in many of his 23 professional fights and in his current training, Leonard said: "I expect Pastor to win the decision. All he has to do, in my opinion, is box the colored man. Louis is strictly a counter-fighter and Pastor must make the negro come to him and box all the way."

Lindstrom May Return to Game

Freddy Lindstrom once a star of the major leagues, may make a comeback during the next campaign. While Lindy is on the voluntarily retired list, he may ask for reinstatement.

MacFayden, Frank Hogan, Pie Traynor, Haskell Billings and Horace Ford, Mahan just stared at their pictures and dreamed of their success, when I asked him to write this. That is why I had to do it.

What Fans Should Know About the Hockey Rules

Below is another of a daily summary of the rules of ice hockey, as drawn up by the Canadian Amateur Hockey Association, and which apply to all amateur hockey in the Maritimes, including intercollegiate and high school hockey. The Daily Mail is presenting these rules in order that the ordinary fan may be well informed on plays as they happen and the regulations now in practice. The rules follow:

(Continued)

NOTICE TO SCORERS

A "goal" shall be credited in the scoring records to a player who shall have propelled the puck into the opponents' goal.

When a player scores a goal an "assist" shall be credited to any player taking part in the play leading up to the scoring of the goal, provided that no player of the opposing side shall have touched the puck during the course of such play. An assist cannot be credited to any player when a goal is scored from a rebound off a goalkeeper. Not more than two assists can be given on any one play.

Minimum ice area, 165 x 65; Suggested ice area, 175 x 75; Ideal ice area, 185 x 85.

On all ice surfaces 200 feet or over in length a line is to be drawn 60 feet from the goal line; on all small ice surfaces the ice is to be divided into three equal sections between the goal lines. The goals shall be so set that the goal-line is ten feet out from the end of the rink. All ice surfaces must be marked with white lines.

Goals must instal regulation goal posts. The official goal net has a covered top extending 11 inches from the goal post to the back bar on a line, and extending at the base along the ice 22 inches from the goal posts. Goal nets must be set out 10 feet from end of rink, that is, to the goal posts. Goal width 6 feet, height 4 feet.

The goal crease is to be an oblong box 5 feet wide and 5 feet in depth, created by extending the goal-line out on either side of the goal posts and extending five feet out from the goal-line, the lines to be two inches wide and painted blue.

Referees are instructed to see that the ice is properly marked, and no game is to be played unless the ice is so marked.

POINTS TO REMEMBER

The referee is the official representative of the C.A.H.A., or the Branch of the C.A.H.A., in which the game is being played. He is in full control of players on and off the ice, goal umpires, timekeepers and the officials connected with the competing clubs, and will be backed to the limit in all legitimate circumstances.

The timekeeper's whistle or bell starts and stops play—not the referee's. But if there is any dispute it shall be decided by the referee, and his decision shall be final.

The referee has the power to overrule the decision of a goal umpire.

All games 60 minutes (three 20-minute periods), with 10 minutes overtime, except in group or league play-offs, when overtime up to 30 minutes may be played if necessary. All games scored on the point system, two points for a win and one point for a draw.

A player losing or breaking his stick is automatically out of the play until same is recovered or legitimately replaced.

Goal Awarded For Throwing Stick
Under the 1937 C.A.H.A. rules the penalty for deliberately throwing a stick in the defensive zone by any player of the defending side, including goalkeeper, is an award of a goal to the attacking side.

Throwing a stick in any other zone shall incur a major penalty.

No Ragging the Puck

There must be no ragging the puck. The puck must at all times be kept in motion.

The team in possession in the defending zone may carry the puck behind the goal-line once, but after that shall always advance the puck unless prevented by opposing players. In the centre zone they may pass the puck back and forth, but must not pass or carry it back into the defending zone.

The penalty is a face-off 10 feet in front of the goal of the offending team.

(To Be Continued)

Cowley Still Leading Maritime Scorers

FORMER STAR OF HALIFAX HAS TOTAL OF 19 POINTS

No Great Changes in Race

MONTREAL, Jan. 19.—The past week was a quiet one among the ranks of former Maritimers in the National Hockey League and only five scoring points were accumulated by the 19 players. As a result the records showed few changes tonight.

Bill Cowley, former Halifax Wolverine and at present leading scorer for the Boston Bruins, held his place at the top of the heap by increasing his total by one point to 19.

Three points back of Cowley was his team-mate, Ray Gettiffe, who played his best amateur hockey in the days of the Maritime Big Four League for Charlottetown and who was later with Saint John Beavers.

Eddie Wiseman, who hails from Newcastle, N.B., is in a tie with Gettiffe with 16 points and he heads the former Maritimers in the Canadian Section of the N.H.L.

Canadiens' Joffre Desilets, once of Saint John and Charlottetown, claimed next ranking with 14 points, but right on his heels with 12 was Gordie Drillon, husky Moncton boy, who this year has been one of Toronto Maple

Leafs' prize rookies.

Reds' Line Going Great

The big front line of Providence Reds International-American League hockey team kept firing its salvo of shots at opposing teams' nets last week.

Records today show the trio of Jackie Keating, "Doggie" Kuhn and Sammy McManus with 62 scoring points to its credit with slightly more than half the season gone.

Keating, playmaker of the all-Maritime line and once a Saint John Beaver, is tops among all former Maritimers in the league with 27 points, seven better than Kuhn, who comes from Truro.

McManus, a former Moncton Hawk, holds third position with 15 points, just one more than "Nig" Brenneman, now with Cleveland but formerly of Charlottetown and Saint John.

Ron Hudson of Pittsburgh, who played amateur hockey with Halifax Wolverines, has 12 points, while another old-time Moncton Hawk, Bert Connolly, is two more points back.

Vines Defeats Perry in Tennis

BOSTON, Jan. 18.—Ellsworth Vines squared his professional exhibition tennis accounts with Fred Perry tonight by defeating the British star 6-4, 2-6, 6-3, 5-7, 7-5, before 9,753 persons at the Boston Garden. It was the American's third straight victory in his six pro starts against the Briton.

Perry was much the steadier throughout the five sets, making 97 errors against Vines' total of 110 but the lanky Californian, who appeared in perfect health, piled up the impressive total of 59 earned points, against 39, most of them with booming backhanders that went for placements.

His terrific delivery which he had under control in all but four of his service games, provided him with 13 aces during the five set match, which he gained by the scant margin of 153 points to 149.

Baseball Head Passes Away

ROCK ISLAND, Ill., Jan. 19.—Michael H. Sexton, honorary president of the National Association of Professional Leagues, died today in an apartment hotel. Death was caused by a heart attack while he was recovering from influenza. Widely known in baseball circles, Sexton was instrumental in the formation of the National Association of Minor Leagues. He was born in Rock Island in 1863.

COLD LIGHT MACHINE BUILT BY ENGLISH

A machine that makes the long-sought cold light, but unfortunately not cheaply, is described in a letter to the London scientific periodical, Nature, by H. Warren of the research laboratories of the British Thomson-Houston company. It works on the principle of phosphorescence, the property which some substances have of shining after they have been illuminated.

Such substances may be said to store up light and give it off afterward. The light given off is cold, not mixed with heat rays as is the light from ordinary kinds of lamps. In Mr. Warren's machine, a rotating cylinder is mounted so that the one side of it receives invisible ultraviolet rays.

These rays strike again a special chemical on the outside of the cylinder. This coating immediately begins to shine with cold light, and is still shining when the cylinder has rotated far enough to carry it to the spinning cylinder toward the source of ultraviolet rays—stores energy. An instant later this is emitted as cold light from the other side.

NOTES ON MAT GAME -- AND RING

BOSTON, Jan. 19.—Before the flu hit him and flattened him, Paul Bowser clinched the match between Dazzler Clark of Scotland and Nick Lutze, the sun-kissed son of California, and it bids fair to be the most scientific that has been seen in this city in several years.

Clark is a master workman, for he has more wrestling stuff than any man has shown since the days of Earl Caddock. Lutze is a mat marvel. Nick not only possesses speed, but plenty of skill.

He is alert, agile and tricky, and Clark will find in him a wrestler who can get in and out of trying situations better than any man he has ever gripped.

The match looks like a classic. Another bout that will sparkle is that between Steve Casey, the Irish giant and strong man, and John Katan. Katan has been winning steadily and is considered one of the most consistent wrestlers now in the East.

This double header is set for Friday evening, January 22.

Leo Bradley, is enthusiastic about Tiger Warrington, who is matched to meet Ralph Chong, the Chinese boxer at the Egleston Square A. C. next Thursday night.

"If Warrington can beat Chong," said Leo to me yesterday, "I intend to send him on the trail of Al Ettore. If he can whip the Philadelphia Warrington will be in line for a crack at one of the topnotchers."

Warrington is a vastly improved boxer, having acquired some style since his initial appearance here. He also has filled out well and is today a stronger and better boxer.

Walter Wazel, one of the hardest hitters of the new crop of fighters, is set for battle with the best available opponent at the Egleston Square A. C. next Thursday night.

That hard-hitting Maine middleweight, Don Labbe, who made a big hit at the Egleston Square A. C. on his initial appearance, will be back next Thursday night if Eddie Mack can find a hard-hitting boxer who will trade with him.

Don't Neglect That Persistent, Hacking Cough

Get a bottle of Dr. Wood's Norway Pine Syrup from your druggist or dealer. It strikes at the foundation of the trouble. A few doses will convince you it is just the remedy you require.

It helps to stimulate the weakened bronchial organs, allays irritation, subdues inflammation, soothes and heals the irritated parts, loosens the phlegm and mucus, and aids nature to dislodge the morbid accumulations.

When this is done the persistent, hacking cough will disappear, no lying awake nights, no inflammation of the bronchial tubes.
