Early Morning

The open window lets the summer in
The garden sends its sweetness on
the air
To lure me from my work. The
spiders spin
Their little webs upon the lawn
and eaves
The drops of morning dew within
their nets.
The hollyhocks are almost window
high
Upon their leafy cloaks they wear
roses
Of crimson dipped in sun. I wonder
why
His feathered impudence upon the
bough
Is scolding me and scolding every
one.
I must not listen to the summer now
For night will come before my
work is done.
The summertime breeds vagabonds
—no doubt
It would be wise to lock the summer
out.

GRANT GIVEN TO
IMPROVE HOUSING
INDIAN RESERVETwo Thousand Dollars
To Be Expended
In Programme

A grant of \$2,000 has been made to the local Indian Office for home improvement among the Indians of the Woodstock Reserve stated R. Lee MacCutcheon today. The grant has been made due to the unsatisfactory housing conditions on this reservation, and will be expended on repairs renovations and several completely new buildings.

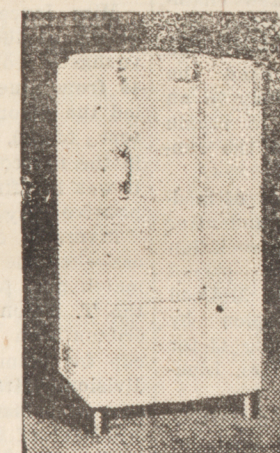

Housing conditions for the past some time have been considerably worse on the Woodstock Reserve than on others, and Mr. MacCutcheon has long felt the necessity of improvements in this regard.

"We are constantly trying to improve living conditions among the Indians," stated Mr. MacCutcheon, adding that it must be realized that to receive proper results, the proper living environment must be created. This is not possible unless comfortable homes are established, and it is to this end that this improvement plan is striving.

It is expected that other reserves will receive grants in the near future, in the order of their necessity. At present the Kingsclear and Devon reserves are enjoying much finer conditions, great satisfaction being expressed by the inhabitants in reference to their conditions.

Here's Simple Way
to Curb a ColdTwo "ASPIRIN" Tablets—A
Full Glass of Water—That's All

The modern way to curb a cold is this: Two "Aspirin" tablets the moment you feel a cold coming on. Then repeat, if necessary, according to instructions in the box.

At the same time, if you have a sore throat, crush and dissolve three "Aspirin" tablets in one-third glass of water. And gargle with this mixture twice. The "Aspirin" you take internally will act to combat fever, cold pains and the cold itself. The gargle will act as a medicinal gargle to provide almost instant relief from rawness and pain. It is really marvelous; for it acts like a local anesthetic on the irritated membrane of your throat. Try this way. Your doctor,

we know, will endorse it. For it is quick, effective and ends the taking of strong medicines for a cold.

"Aspirin" tablets are made in Canada. "Aspirin" is the registered trade-mark of the Bayer Company, Limited, of Windsor, Ontario. Look for the name Bayer in the form of a cross on every tablet.

SOCIAL CREDIT
UP TO DOUGLAS

CALGARY, July 8—Final decision on the introduction of a Social Credit policy in Alberta will have to be made in London, declared C. F. Powell, now working with the Alberta government as Major C. H. Douglas' representative, here today.

"The point of our attack on the enemies of Social Credit," he said in an interview, "will almost inevitably be where the people show the greatest solidarity."

"We have yet to decide whether Alberta is the most vulnerable point. It all depends on whether we can find sufficient unity among people to warrant the introduction of our policy. Such a decision, of course, will have to be made in London."

Mr. Powell said the Social Credit headquarters in London had in mind several places "where an attack might be launched, notably New Zealand."

With L. D. Byrne, another Social Credit technician, Mr. Powell has started a survey of the provinces. "We shall report the results of our survey to Major Douglas and leave it to him to decide whether there is sufficient unity and determination among the people of Alberta to warrant throwing the spearhead of our attack here."
