

DR. JUDD SAYS THAT COMMUNISM IS MORE ACTIVE IN CANADA THAN PEOPLE REALIZE

The German Ambassador and Staff will not Attend LaGuardia Lecture

Have Declined Invitation as Result of Statements Made by the Mayor of New York City

WASHINGTON, March 9.—The Washington Post said yesterday the German Ambassador to the United States and his staff have declined an invitation to attend a memorial lecture last night by Mayor Fiorello H. LaGuardia of New York.

Will Not Attend

"Oh yes, I remember the invitation," the Post quoted Herr Herbert Blankenhorn, German embassy attaché, "but of course we will not attend. That was decided when we saw Mayor LaGuardia's name on the programme."

The invitation was issued before LaGuardia suggested last week that a statue of Adolf Hitler be included in a "chamber of horrors" at the 1939 New York World's Fair.

The German Government protested, and the American State Department expressed regret.

Cranberry Growing Commercially For the Province

Robert Parent has arrived from Charlottetown and has taken over charge of Dominion Illustration Stations in the province.

An announcement of the establishment of a cranberry illustration station for New Brunswick at Bay du Vin, Northumberland County, was made here today by C. F. Bailey, superintendent of the Dominion Experimental Station.

Designed to develop so-called waste lands, it will be used in an experimental endeavor to instruct the farmers of the province how to utilize large tracts of lands that well might be producing profitable crops, such as cranberries.

Directed by the experimental station in this city, it will be operated by Goymar Williston, under supervision of Robert Parent, newly appointed supervisor of Dominion illustration stations in the province. The station will be used in an experimental way, and emphasis will be placed on records of costs of developing the bogs for the berries and the maintenance costs once they are established. The work will be in the manner of sanding and the selection of the variety of cranberries best suited for this province. The question of disease also will be given careful attention.

A virus disease known as "false blossom" has been found at Cape Cod one of the large producing sections of the United States and in some sections of Canada. This particular type produces blossoms, but no fruit forms and is spread by biting insects, Mr. Bailey said in his announcement.

Once established in a bog it gradually spreads unless the insect is controlled carefully, so that at the new station studies will be made for the economical controlling of such a disease by dusting with poison.

STANLEY BALDWIN MAY TAKE SEAT IN HOUSE OF LORDS

(Special to The Daily Mail)
LONDON, March 9.—British newspapers report today that Premier Stanley Baldwin may retire from the Premiership of the British Government after the Coronation. It is expected that he would be given a seat

POOL SEEKING WIDER POWER IN SASK.

REGINA, Sask., March 9.—What has been described as a menace to trade in Saskatchewan and nothing of the kind by officials of the Wheat Pool is now before the Saskatchewan Legislature.

It is a bill designed to amend the Wheat Pool's act of incorporation to allow it to promote or engage in any co-operative or fraternal business or enterprise, which, in the opinion of the company, can be carried on to the advantage of its membership or to the advantage of Saskatchewan agriculture generally.

It is a "private" measure sponsored by Herman Danielson, Liberal, Arm River. At present it is before the Private Bills Committee to allow argument by parties interested.

Its genesis occurred two annual meetings ago, when delegates of the Saskatchewan Pool asked the directors to check possibilities of forming a personal insurance organization within pool confines. Directors studied the matter and came to the conclusion that first it would be necessary to amend the act of incorporation before making further moves. The last general meeting of delegates (Continued on Page Four)

WILL BE RECOMPENSED FOR SELLING GOLD

(Special to The Daily Mail)
PARIS, March 9.—The estimate for the Defence loan is to be issued on Thursday morning. The amount is expected to be 13,000,000,000 francs. The rate of interest will probably be 4 or 4½ per cent.

In regard to the people who sold their gold to the Government these will be recompensed. They were forced to sell their gold at a low price and they are now to be recompensed.

Broadcast of Estimates Mentioned First Time

(Special to The Daily Mail)
LONDON, March 9.—The estimates for the Board of Education have been introduced as Educational and Broadcast estimates. This is the first time that the broadcast has been named in the estimates. BBC will receive two million three hundred and seventy pounds. The costs of the board of education this year will be higher than any year since 1921.

Rev. Mr. Bartlett and Police Conditions

THE remarks of Rev. J. W. Bartlett at Wilmot Church on Sunday evening in regard to our police conditions and to the evils which exist in this city contain much food for thought. The Rev. gentleman who is one of the leading clergymen of the city, stated that gambling dens are being openly conducted in this city, that Sunday bootlegging of liquor has been carried on, and that unnecessary Sunday selling is being winked at. He said what most people are aware of when he said that children of both sexes and of tender years were allowed to roam the streets at all hours of the night, and that no effort seemingly is being made to control these youthful prowlers. Rev. Mr. Bartlett could not see why the Chief of Police of the city could not take some of the policemen and raid these alleged gambling dens and close them up. Speaking of burglaries, Rev. Mr. Bartlett contended that it took men with special training to handle these crimes and to bring the guilty parties to justice. He said that the members of our police force may be doing their best in regard to this matter. He did not believe, however, that they had the necessary qualifications to handle these cases. He claimed that the Chief of Police should be a man with special training for the work. In England, in order for a man to be Chief of Police he should have a first class education and in many cases a university course is required for this office. Unless a man is educated, qualified and equipped he cannot expect to make a success of this line of work, and he cannot very well be blamed if he does not do so.

Everyone who is at all familiar with conditions in this city will be forced to admit that the evils mentioned by Rev. Mr. Bartlett are all present to a more or less extent. No one will deny that there is gambling going on, nor that there is illicit rum dealing on Sunday, nor will they deny that there is unnecessary selling of wares on Sunday by certain concerns.

There is something wrong when during the past year burglary after burglary has taken place within the business section of this city and the police have entirely failed to apprehend the guilty party or parties.

What would you think if someone informed you, as they did The Daily Mail, that during the past summer night after night boys and girls, some of them not more than twelve years old, made a habit of visiting the shore not a block from Queen Street and there drank the dregs of whisky bottles left by men who had frequented the same place during the day. In regard to these children running the streets at night, boys and girls of tender years are allowed to frequent not only the city streets, but the alleys, the parks, and the railroad tracks at the back of town, at all hours and no one, not even the police, ask any questions. When parents go to pictures at night and lock the children out on the street to run as they see fit until eleven o'clock, these parents need not be so shocked or surprised when the boy gets arrested, or the girl gets into trouble in other ways. It would seem, however, that there should be a police regulation to control these children in the start and to check them up from running at large at unseemly hours.

What would you think if you received a telephone message recently, as did The Daily Mail, that a mother's heart had been broken because her boy, a mere youth, refused to give up the gambling den where he spent his days and nights, and then another home had been broken up for the same reason.

WHEN THESE THINGS ARE GOING ON IN A SMALL PLACE LIKE FREDERICTON THERE IS SOMETHING WRONG SOMEWHERE. MEN LIKE REV. MR. BARTLETT DO A SERVICE TO THE COMMUNITY IN BRINGING THESE MATTERS UP IN THE PULPIT. IT IS UP TO THE SOCIAL SERVICE WORKERS AND TO ALL GOOD CITIZENS WHO HAVE THE INTERESTS OF THE CITY AT HEART, TO BACK UP MEN LIKE REV. MR. BARTLETT, AND TO SEE THAT A PROPER SUPERVISION IS ARRANGED FOR SO THAT THESE CONDITIONS ARE ELIMINATED.

Sailors on the Normandie on Strike For Better Wages

PARIS, March 9.—The sailors on board the Normandie have gone on strike. They want a forty-hour week and much larger pay. They have refused to move from the boat for seventy-two hours and the boat is due to sail tomorrow. No agreement has yet been reached.

LONDON, March 9.—The workers in the aircraft factory of Middlesex will return to work tomorrow. The trade unions would not recognize their strike and the men were forced to return to work.

Non-Intervention Law in Effect Next Saturday

LONDON, March 9.—The non-intervention law for control of lands and seas in connection with the Spanish Civil War is to be put in effect next Saturday. Portugal still refuses to allow Russian ships to enter her ports.

Miss Ada Kelly, Keswick Ridge, is a guest for a few days of her grandparents Mr. and Mrs. Gifford Dunphy, Mouth Keswick. Miss Kelly recently returned from the hospital where she had received an operation for appendicitis.

Spanish Govt. Freighter Mar Cantabrico Sunk by Rebel Cruiser in Bay of Biscay

CO-OPERATIVE TRADING MAJOR PRAIRIE FORCE

Aim to Secure Profits Middle Man to Producer

WINNIPEG, March 9.—No economic and political survey of Western Canada can be complete without analysis of the great and potentially greater and still more powerful co-operative trading movement.

From a small beginning in 1901, precipitated over a grain growers' dispute with the railways and elevator companies, the movement has now grown to where its dollar volume of trading is ninety millions annually, and from original homely needs in its sales and purchasing activities it has latterly branched out into gasoline and fuel oil co-operatives—surely a threatening force in its relation to orthodox business old-line system of government, or in whatever direction such a mass movement cares to turn its attention.

Saskatchewan Spearhead
Saskatchewan, where, fathered by Hon. W. A. Motherwell, the first co-operative efforts was launched 35 years ago, is the spearhead of the movement. There are 125,000 co-operative unit members in Saskatchewan and only 135,000 farms. Of course, there is some duplication of membership in various units, but the figures indicate the practical blanket. (Continued on Page Four)

SEVERE WEATHER IN ENGLAND AND SCOTLAND

(Special to The Daily Mail)
LONDON, March 9.—England is having a spell of real winter weather. Severe blizzards are taking place in Kent, there being snowdrifts several feet deep. Traffic conditions in the northern counties of Scotland are also difficult.

Twice as Many Left Legs as Right Made For 'Amps' at Christie Street Factory

DIVER STAGES 'SIT-DOWN' STRIKE AT LAKE BOTTOM

PORT ARTHUR, March 9.—A "sit-down" strike at the bottom of Lake Superior, carried out by a lone diver, was chalked up tonight as successful. Tony Dimo, a diver, was engaged yesterday to examine the mouth of the intake pipe connected with the Port Arthur waterworks system 30 feet below the surface. It was the first time it had been examined in 23 years.

Dimo donned his diving outfit and sank down through a hole chopped in the ice. When he got down, he refused to come up until his wage demands had been agreed to by the

COMMUNISM CAN BE DEFEATED BY KEEN ARGUMENT

Is Deeper Rooted in Canada Than People Know Of

HALIFAX, March 9.—The subtle workings of the Red element backed by the Soviet of Russia has taken deeper roots in Canadian life than most people dream of. "Communism is deeper run into Canadian life than most people are aware," Rev. Dr. W. W. Judd, general secretary of the Social Service Council of the Church of England told a Halifax service club today.

"I have seen how they are getting control of the best groups of society by means of their missionary zeal," he said. "Their propaganda can be defeated, not by restricting their meetings, but by keener argument."

EMPLOYEES ON BUSES STRIKE IN SCOTLAND

(Special to The Daily Mail)
EDINBURGH, March 9.—Over 5,000 drivers and conductors on buses are on strike mainly for salary reasons. The trouble is said to have been caused by Communists.

LONDON, March 9.—Within a few miles of her goal the Spanish government freighter Mar Cantabrico was bombarded and sunk yesterday, and her crew taken prisoners.

Mar Cantabrico had raced out of New York Jan. 6 just ahead of United States congressional action to prevent her munitions cargo from reaching the Spanish civil war.

In the Bay of Biscay she encountered the Spanish insurgent cruiser Canarias, unit of the blockade attempting to prevent her from delivering her load of American-made planes and other war supplies to the Socialist government.

Under bombardment of the cruiser's guns the Mar Cantabrico went down in flames in the Bay of Biscay about 90 miles off the Spanish coast.

A brief, matter-of-fact report from the British destroyer Echo reached the Admiralty last night to solve a mystery which had Europe holding its breath for more than six hours. First reports indicated the vessel that had gone down was a British liner homeward from Africa.

The Echo's skipper reported: "I have been in communication with the Spanish cruiser Canarias, which states that the Spanish ship Mar Cantabrico was sunk. Her crew was aboard the Canarias."

The message was taken to mean all the crew had been saved but their fate aboard the enemy cruiser was unpredictable.

When the ship left New York, it carried a crew of 40 men under Captain Joe Santa Maria, when she sailed from New York Jan. 6 for Vera Cruz, Mexico. Her cargo at that time was estimated to be worth \$2-

BARBED-WIRE FENCE SERVES TO TRANSMIT CALLS

DONALDA, Alta., March 9.—Harold Chapman of this village has a unique telephone system. He communicates with a neighbor by using two sets of radio-headphones. The ground serves as one medium of transmission and the top wire of a barbed-wire fence the other. The phone works with much success, it was reported.

Miss Gertrude Haines of Bear Island is spending a few days at the home of Mr. and Mrs. Grant Hawkins, Mouth Keswick. Miss Haines is recovering from a recent appendix operation.
