

News Briefs

RETURN HOME

Mrs. Clifford Tapley and Mrs. Chapelle returned to their homes last evening following a visit to Moncton.

CONVALESCING

Mrs. L. Jennings is convalescing at her home on Brunswick Street following a slight relapse.

FAVORABLE IMPROVEMENT

Friends of Mr. and Mrs. E. Barber will be pleased to learn that their son Edward, who was recently hit by an automobile, is making favorable improvement at their home on Brunswick St.

FAVORABLE PROGRESS

Mrs. Albert Gunter, who is undergoing treatment at the Victoria Public Hospital, is making favorable progress. Mrs. Gunter was recently moved to the hospital from her home which was threatened by fire.

TO DISCUSS PLANS

Further plans regarding the observance of the Coronation in Fredericton will be discussed at a meeting of the committees in charge which will be held this evening. Ald. F. S. Mundle, general chairman, will preside.

CARTOONISTS HERE

Herb Roth and H. T. Webster, noted newspaper cartoonists, passed through Fredericton recently enroute to Guide Jack Russell's fishing lodge at Ludlow. Mr. Webster is creator of "Life's Darkest Moment," "How to Torture Your Wife," and "The Boy Who Made Good."

ROTARY MEETING

Stanley Brent, Toronto, associate secretary of the national council of the Y.M.C.A., was the special speaker at a combined luncheon meeting of the Rotary Club and the Y's Men's Club in the Nu-Palms today at noon. The speaker dealt with the work of the world-wide organization and its contribution to the social and religious progress of civilization. His remarks were heard with keen attention by the large number present. John MacKay was chairman.

METEOR SEEN

A meteor flashed across the heavens over this section of New Brunswick early last night and was seen by thousands of people in the surrounding counties. The fiery ball streaked across the sky from east to west, rushing earthward with a long trail of showery sparks. It was visible in this district for about 25 seconds. Officials in the meteorological observatory in Saint John stated last night that if the meteor could be traced to where it fell into the ground, it would prove of great scientific value if it could be located.

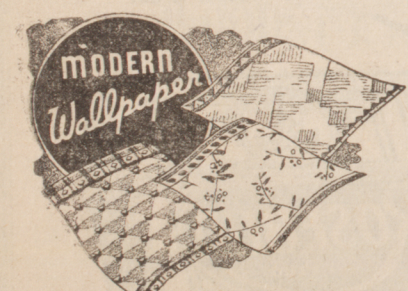

Marysville Woman Passes Away Today

The death of Mrs. Mary Maud Harrison, wife of Hugh Harrison, highly esteemed resident of Marysville passed away at the family home today. The deceased, who was 65 years of age, had been in ill-health for one month. Although her condition was critical during the past few days and there was little hope held for her recovery, nevertheless, death came as a severe shock to her relatives and friends.

Mrs. Harrison was born in Marysville and resided there during her entire lifetime. She possessed sterling qualities of heart and mind and was beloved by all who knew her. Actively interested in the welfare of the community in which she lived, the deceased woman was prominently associated in social and religious work.

Surviving are her husband, and three sons, Lee, of Fredericton, and Percy and Elbridge, both at home. Two brothers, Samuel and Elwood, both of California, are also left to mourn.

A funeral service will be held in the residence at 2:30 o'clock Thursday afternoon. Interment will be made in the Baptist Cemetery, Marysville.

There is perhaps one room in your house that is not just right. Most likely it is the wallpaper.

Try what a new background will do for it.

REQUIRE PERMITS FOR TRAVEL IN N. B. WOOD AREAS

Regulations to Come Into Effect on May 1

Bulletin Issued

Failure to Comply With Regulations is Punishable

As a means to protect against forest fires, the New Brunswick Government will require persons entering the wooded areas of the Province during the summer months to secure forest travel permits. This regulation will become effective on May 1st and will continue in force until November 1st, according to a bulletin made public today by Hon. F. W. Pirie, Minister of Lands and Mines.

Today's bulletin sets forth persons exempted under the Forest Fire Law from the necessity of securing permits—namely—licensees, owners or occupiers of the forest lands travelled on, or their employees, or any fire wardens, fire fighters, land surveyors or their employees, licensed guides, or persons accompanied by licensed guides, or holders of hunting, fishing or mining licenses.

It is also provided that all persons "travelling to forest lands on a regular route—where forest travel registering stations are established and marked—will be expected to register at such stations both when entering and leaving the forest lands." Permits are to be produced by the bearer when requested by any fire warden or other authorized person and information must be given regarding the route, purpose and destination of the trip.

Closed Area

An area in Restigouche County has been named as a closed area. This is described as "bounded by the Inter-provincial Boundary between Quebec and New Brunswick, the Patapedia, Restigouche, Upsalquitch and North-west Upsalquitch Rivers and the line between Restigouche County and the Counties of Victoria and Madawaska. Only licensees, lessees, and land surveyors and owners and their employees may legally enter this area. An exception is granted in the case of settlers' lots in the Parishes of Eldon, Grimmer and St. Quentin.

Failure to comply with the law regarding travel on forest lands is punishable with fines not less than \$10 and not more than \$100; or imprisonment not less than ten and not more than 30 days' duration.

HIGHWAYS ARE IMPROVED IN ALL DISTRICTS

Roads to Saint John Ready For Traffic Soon

Highway conditions throughout the province have greatly improved during the last few days, according to provincial highway officials. The roads are recovering from frost action and the department of public works has already commenced maintenance work in different sections. It is expected that the Broad Road to Saint John will be ready for vehicular traffic within the next few days, but it is not expected that the River Road to the Loyalist City will be in fit condition for traffic until the first of the week.

The use of cars on the Broad and River roads has not been prohibited, although there has been a usual ban on heavy traffic, such as trucks above a certain limit. Motorists, however, for the last few weeks have been advised by the provincial officials not to use the roads if it can be avoided, due to the heavy damage resulting from frost action this season. With improvement taking place in frost conditions, the highways branch will be able to carry out patrol operations in the central section, and these roads will be in general use shortly.

VIENNA, April 27—Former Prince Nicholas of Rumania, who was stripped of his royal titles by his brother, King Carol, arrived by airplane at 4:30 p.m. today with his wife, Nicholas was greeted by his sister, Elena, now the wife of a former Archduke of Austria. Nicholas has said he hopes to go to the United States, which he visited with his mother, Dowager Queen Marie.

POPULAR DEVON MAN MEETS TRAGIC DEATH ON C. N. R. RAILWAY TRACK NEAR SAINT JOHN YESTERDAY EVENING

Donald M. Jammer, Brilliant Graduate of U. N. B., Killed While Riding on Motorcycle.

A Newspaper Man

Promising Career Was Cut Short Yesterday Afternoon

The people of Fredericton and surrounding districts who knew Donald M. Jammer will regret to learn of his tragic death at Saint John at 4:15 p.m., yesterday afternoon when a motor cycle which he was riding struck the Fredericton-bound Valley motor train at the railway crossing at Pamdenec. Mr. Jammer who was on his way to the city to take up his newspaper duties was coming from a cottage which he had recently taken for the summer months. After being struck by the train he only lived ten minutes, passing from unconsciousness into death before medical aid could be given. An ambulance from Saint John hospital arrived but the driver found on examination that the young reporter was dead.

Constable Charles Sinnott of the Saint John detachment of the R. C. M. P., who investigated the accident and examined the few available witnesses on the scene notified Dr. Du Verney, Jack of Glenwood. Dr. Jack will hold an inquest Thursday in the schoolhouse at Grand Bay.

Mr. Jammer's body will be brought to Fredericton by this afternoon's train and will be taken to the home of his father George A. Jammer, Sr., at North Devon.

He was 26 years of age and was a graduate of the University of New Brunswick. While attending the University of New Brunswick he studied and worked at archaeology for several summers under Dr. W. J. Winterberg, Dominion Archaeologist. He had recently been recommended as one of two Canadians for the British Civil Service in British East Africa. When he graduated from the University at the ecenial exercises last year he received his B.Sc. in Arts with high honors and was prominent in the social and athletic life of the University. He was editor-in-chief of the Brunswickian in his sophomore year and editor in his junior year. He was also a valued member of the Students Representative Council, the Debating Society, the Arts Society, the Scientific Society, the Dramatic Society, the C.O.T.O., and the Rifle Association. He also took part in athletics and was the star forward of the football squad for four years. He was manager of the hockey team and a member of the executive of the Athletic Society.

Mr. Jammer was one of 500 graduates selected from the University in 1931 to take the provincial pilot officers' course at the R.C.A.F. base at Camp Borden. He was a brilliant student pilot but was obliged to give up on account of an automobile accident which laid him up in a Toronto hospital for several months.

Particulars received regarding the accident show that Don gave evidence of a kindly heart up to the last.

Ten minutes before jumping on his motorcycle he had stopped to play with two little neighbors, Maria Kerrigan and Emily Joan Pogson. He went into a store, bought each of the children a sucker, hopped on his motorcycle and waved them a cheery goodbye.

At the summit of the hill, a few

DINNER MEETING INAUGURATES 'Y' CAMPAIGN FUND

Stirring Addresses Are Features of the Program

Stirring addresses featured the dinner-meeting held at the Y.M.C.A. last evening to inaugurate the opening of the annual "Y" drive for funds to carry on the work of the organization in this city. Stanley Brent, Toronto, associate secretary of the national council of the Y.M.C.A., was the special speaker. He dealt with the various phases of "Y" work, referring to the important part it plays in the life of the community.

Other speakers heard included W. G. Clark, M.P., and W. K. Tibert, director of vocational education in the province. They urged that the members make every effort to promote the success of the campaign so that the splendid work of the local organization be carried on unhampered by the lack of necessary funds.

The various teams taking part in the drive were present and following the dinner programme, a campaign meeting was held. The opening day of the drive was reported to be an outstanding success and there is every indication that the objective of \$3,000 will be reached before the campaign closes at the end of the week.

During the evening a sing-song was enjoyed. The director was Frank Cooper and Robin Bailey played the piano accompaniment. Hedley Forbes was chairman. Dinner was served by the "Y" ladies under the convener-ship of Mrs. George Brown.

minutes later, he lay unconscious, dying beside his demolished machine.

The two children had followed in the wake of the dust but were not aware of what happened. They were eye witnesses, but not fully conscious of the tragedy.

Aubrey C. Kerrigan, 29-year-old carpenter, saw the reporter go up the incline towards the railway crossing, dust trailing behind. He saw him reach the summit, suddenly drop both feet to the ground and attempt to stop the progress of the machine.

Moving quickly to the crossing, the Valley motor train struck the motorcycle just as it reached the track. The cowcatcher propelled it a distance of 16 feet through the air. The motorcycle careened almost against the Pamdenec station house, about 45 feet from the crossing. The victim dropped off the machine in its flight over the ground.

Kerrigan was about 400 feet down the road.

His brother, Howard, heard the crash, and John A. Campbell, who operates a poultry farm at Pamdenec, also heard the sound of the impact.

An ambulance from the Saint John General Hospital arrived in a short time, but the driver found, upon examination, that the young reporter was already dead. He lived only about ten minutes, and was unconscious throughout that time.

The story of Aubrey C. Kerrigan, which was partially substantiated by his brother, was that the young man

SEVEN ALDERMEN SWORN TO OFFICE HERE YESTERDAY

R. T. Forbes Reappointed Deputy-Mayor --- Other Business

The seven re-elected members of the Fredericton city council assumed office yesterday afternoon. The aldermen were sworn-in by His Worship Mayor G. Willard Kitchen after the official declaration by City Clerk Fred I. Haviland. Following the "swearing-in" ceremony, the various committees were appointed and Alderman Ray T. Forbes was re-elected deputy-mayor. The personnel of the committees are the same as that which existed before the resignations of the seven aldermen.

During the meeting, the first which was held since the aldermen resigned early in April, Ald. F. S. Mundle reported on the work in connection with the arrangements being made to observe the Coronation here. He announced that a meeting of the various committees in charge of the celebration will be held this evening.

Last evening the roads and streets committee under the chairmanship of Ald. McCaughey held a brief session. Routine business was transacted and measures are being taken to improve the condition of the road on Graham Avenue. A meeting of the committee will be held within the next ten days to consider plans regarding the road construction to be carried out in the city during the coming summer.

Resumes Watch Over Duke at St. Wolfgang

(Special to The Daily Mail)
ST. WOLFGANG, Austria, April 27—Detective Inspector David Storer, of Scotland Yard, has arrived from London to resume his watch over the Duke of Windsor, it was learned today. Storer had been expected because of news that the Duke was receiving many threatening letters, principally from Great Britain.

EXPERIMENTING NEW VARIETY OF GARDEN PEAS

Seed Developed in British Columbia Farm

Experimental work on the new variety of garden pea, known as "director" which was developed at the Experimental Farm in British Columbia, is being continued here, C. F. Bailey, superintendent of the Dominion Experimental Station, Fredericton, announced today. The seed was first developed in the Pacific coast province two years ago and has proven very successful. Last season a quantity of seeds were supplied to growers in the Margerville district and were reported to have produced superior quality peas.

Mr. Bailey pointed out that the yield from the seeds is unusually large while the product itself is of splendid quality. Hardy and possessing a delicious flavor, the "director" variety of pea will probably be extensively grown in the Maritimes within the next few years.

A quantity of the seed will be shipped to farmers in Pictou county, Nova Scotia, where large garden products canning concerns are in operation. The new variety it is believed, will prove highly satisfactory for canning purposes.

The "director" variety possesses a flavor all of its own and seems to be harder than the usual variety. Farmers in this district are particularly enthusiastic and it is expected that a large quantity of the seeds will be planted.
