

News Briefs

GOVERNMENT MEETS

The provincial cabinet met this afternoon in the council chambers. It is understood that routine matters only were considered.

BAND CONCERT

The band of "A" Company, Carleton and York Regiment, will play at the bandstand in Wilmot Park this evening at 8:15.

RETURNED HOME

Hon. J. B. McNair, J. B. Dickson, Deputy Attorney-General, and P. J. Hughes, K.C., have returned home from a meeting of the Canadian Bar Association which was held last week in Toronto.

COMMITTEE MET

A meeting of the Municipal Home Committee of the City Council was held last night in the City Hall, with Alderman B. R. Ross in the chair. Routine business was conducted and several minor matters discussed. Discussion was largely taken up with matters which are given no publicity.

LEAVES HOSPITAL

Ronald Manning of Doaktown, who has been a patient of Victoria Public Hospital for the past few weeks has returned to his home. He was severely burned while employed on a paving project near his home, when the carburetor of a gasoline mixer at which he was working became flooded and burst into flames.

THE SICK

Douglas Skinner, who suffered a fracture of the ankle bone a few days ago, is reported as resting fairly comfortably today. Friends in Devon and elsewhere will be glad to hear of the improvement in the condition of Alexander Yerxa. He spent a more comfortable night. Mrs. W. S. Williams who was confined to the hospital last week with a broken leg, shows considerable improvement today. Theodore Duffie of Oromocto who recently underwent an operation for appendicitis, is showing steady improvement.

Well Known Marysville Man Passes Away

J. W. Cameron Daley, aged 65, passed away at 6:45 this morning at his home at Marysville, after a lingering illness. The deceased who has been a barber in Marysville for the past thirty years, was a well known and highly respected member of his community.

Born at New River Beach, Charlotte County, the deceased has made his home at Marysville for the past 40 years. Mrs. Daley preceded him in death, having passed away Jan. 8, 1936.

The deceased is survived by three sons, Loring and Cecil of Marysville and Milton of this city; four daughters, Mrs. Gordon Lowe, Randolph, N. J., Mrs. William Gordon, Philadelphia, Mrs. Jack Arnold, Marysville and Mrs. Alvan Farrar, Randolph, N. H.; two brothers, Frank and Roy of New River Beach; and one sister, Mrs. Henry Taylor, Lapioux, N. B.

The funeral will be held Thursday afternoon at 2:30 at the late home, with services by the Rev. Steadman Smith. Interment will be made at the Baptist cemetery at Marysville.

Mrs. Catherine C. Mahoney Passes Away At Mauderville.

Mrs. Catherine C. Mahoney, 74, widow of the late John Mahoney, passed away last night at the home of her sister-in-law, Mrs. Alexander Burnett, Mauderville. Surviving are several nieces and nephews in New York.

The funeral service will be held Thursday morning at ten o'clock at the St. Vincent de Paul Church, Oromocto, with the Rev. Father Charles Boyd celebrating the mass. Interment will take place in the churchyard. The funeral will leave the Burnett home at 9:45 a. m. and mass will start at ten o'clock.

Mrs. Mahoney was an old time resident of Mauderville, who had a large number of friends throughout the river parishes who will learn with regret of her passing.

Rueben Hoben Dies, Injured Friday By Fall From Hayload

Ruben Ebbett Hoben, 42, Swan Creek, died at his home about midnight last night as a result of a broken back and internal hemorrhage caused by a fall from a load of hay on Ox Island, near Upper Gagetown, last Friday.

The deceased is survived by his mother, Mrs. Rueben Hoben, Swan Creek, and one sister, Miss Lilly L. Hoben, at home.

FREDERICTON TO TAKE PART IN FARMERS' MEETS

A Series of Dominion Illustration Station Meetings Underway In Province.

Robert Parent in Charge

R. P. Gorham, C. F. Bailey and L. C. Young Leave For Grand Falls; Away All Week.

R. P. Gorham, Dominion entomologist, left this city yesterday for Grand Falls, and C. F. Bailey and L. C. Young, superintendent and assistant superintendent respectively of the local Dominion Experimental Station left today, to take part in the series of Dominion illustration station meetings which are being held at the various stations throughout the province under the direction of Robert Parent, Fredericton, who succeeded Thomas G. Hetherington a year ago as supervisor of illustration stations for New Brunswick.

The purpose of the meetings, explained Mr. Bailey before he left, is to show the farmers in the sections in which the stations are located the nature of the work being done at the stations, and the results which have been secured by the station officials through the use of various treatments, such as soil and fertilized treatments. The farmers are then urged to adopt methods which have proven satisfactory in the station experiments.

Last week meetings were held at Sussex, Buctouche, St. Charles, St. Isidore and St. Quentin. J. B. Belzile, Ottawa, assistant director of illustration stations for Canada, was the chief speaker. As last week's meetings were in districts mainly populated by French speaking families, officials of the New Brunswick department of agriculture who speak that tongue co-operated in staging the meets.

Yesterday a meeting was held at the Baker Brook station. Today's meeting is at Grand Falls, with one scheduled at Jacques River tomorrow, Ryerdam Thursday and Derby Junction on Friday. Next week the Petersville station will entertain on Monday and the Currieville station on Tuesday.

Next Saturday, after the Derby Junction meeting, Mr. Parent and Mr. Bailey will inspect the Dominion illustration station at Bay du Vin before returning to Fredericton. It is at the Bay du Vin station that the Dominion government has established an experimental cranberry bog.

HEAT WAVE IS OVER, SAYS LOCAL WEATHER - MAN

Lowest Temperature Of Summer Recorded Last Night—44 Degrees.

"The wave of extreme heat is all over for this summer in New Brunswick," was the prediction made this morning by Chief Engineer John J. Malloy of the Fredericton Pumping Station. "After the full moon of August (Aug. 21) the heat is all done. Although there may be days yet when the sun will be pretty warm, it will be cool at night," he continued.

The temperature at the Pumping Station last night was 44 degrees, the lowest recording in this vicinity this summer, it was stated. At 10:30 this morning it was 67 degrees. This is a far cry from the temperature two weeks ago last Sunday, when the mercury climbed to its peak of the season, 94 degrees.

Serious Accident Near Millville, Auto Badly Smashed

A serious car accident with serious results took place this morning near Millville.

Mr. and Mrs. George H. Clark and Mr. and Mrs. Frank Vanwart of this city were on their way to Montreal when their car collided with one coming to Fredericton. The car enroute to Fredericton was driven George Hill and had as passengers Henry Currie, Misses Edna and Annie Currie, Frank Hill and Clarence Green, reporter of The Daily Mail of this city.

Mrs. Clark was cut about the head and face and Miss Edna Currie was cut about the leg. The Clark car received slight injuries and the Hill car was badly damaged. Parties coming to this city brought the ladies from the Hill car into town. Mr. Clark who stated that he was responsible for the accident, left orders to have all repairs made at his expense and his party continued on their way to Montreal.

Premier Praises Dairy Men For Not Striking

Speaks At Noon Today At Annual Convention Of N. B. Herd Improvement Council — "The Government Depends On Agriculture" --- McNair.

Hon. A. C. Taylor Also Speaks—Business Meeting Held This Afternoon, Featured By Technical Addresses and Discussion.

"If in other industries we had the degree of stability that is present in agriculture, and especially in the dairy industry, it would be better for the Province as a whole," stated Hon. A. A. Dysart, K.C., Premier and Minister of Public Works, speaking this afternoon to what he termed the leaders of one of the outstanding branches of the agricultural industry, the delegates present at the annual convention of the New Brunswick Herd Improvement Council.

After welcoming the delegates to the Capital City, the Premier stated that "in agriculture, and especially in the dairy branch of that industry, we are almost 100 per cent free from strikes."

"The natural advantages, and especially the scenery, place New Brunswick in the fore among the provinces of the Confederation," stated Hon. J. B. McNair, attorney-general for the province. After lauding the work being done by the Herd Improvement Associations, the speaker mentioned that the government counts on agriculture to build up conditions in this province.

We must continue our road paving program, stated Hon. Mr. McNair, because it means a great influx of tourist money into the province. He congratulated the provincial department of agriculture on the work that it is doing, and stated that meetings such as the one he addressed, did much to bring together in a co-operative spirit the farmers of the province for the benefit of agriculture as a whole.

"Agriculture is the fundamental and principal industry in this province, and always will be," stated Hon. A. C. Taylor, Minister of Agriculture for New Brunswick.

"Farmers are beginning to realize their importance during the past few years and the leaders of the nation are beginning to realize the importance of the industry," he said.

He mentioned the fact that in the provincial government there are men who understand agricultural problems, and who will lend a sympathetic ear to the troubles of the farmers. After commenting on the progress that has been made in agriculture during the past few years, he stated that much of it has been brought about by such meetings as the present one, and expressed the hope that they would be continued.

We, (the government) are trying to put agriculture in this province on a sound, solid and safe basis. Yet we cannot do this by ourselves. It cannot be done by subsidizing the farmers, for that means subsidizing inefficiency, it might be done while the farmers are standing on their own feet, he said.

The speaker noted the harmony which exists between the federal and provincial department of agriculture and outlined the work being done by the latter for the benefit of the farmers.

In concluding, he begged the delegates for their whole-hearted co-operation. (Continued on Page Five)

N.B., N.S. FORESTERS UNITE TO FORM MARITIME BODY

N. B. Section Canadian Society of Forest Engineers Meets Here Yesterday and Today.

Appoint Committees

Visit Acadian Forest, Experimental Sta., and U.N.B. Forest—Thirty-five Present.

A union between the members of the Canadian Society of Foresters living in New Brunswick and Nova Scotia, and the formation of a Maritime section in place of the newly organized New Brunswick section was decided upon at the first meeting of the N. B. section of the association since its formation early this spring, which opened yesterday at the Acadian Forest Experimental Station here. G. W. I. Creighton, the chief forester of the Province of Nova Scotia, was elected vice-president in order to represent the non-New Brunswick members on the executive.

The foresters, of whom about 35 were present, representing N. B., N. S. and the Upper Canadian provinces spent the morning in visiting thinning experiments being carried on at the station, being conducted about the establishment by the superintendent, E. G. Saunders. Last night's meeting was concerned with the discussion of forestry work and the organization of committees to study the following subjects: forest fires, forest insects and diseases, methods of studying and determining growth and yield, methods of treatment of young softwood stands which have originated after the budworm epidemic or similar conditions, methods of cutting to secure satisfactory reproduction in various forest types, basis of land classification and the economic use of the various classes, treatment of farmers' woodlots, units of measurement and converting factors, surveying problems, and transportation problems.
