(Continued from Page Eight)  
bringing about peace to these countries. When Italy and Ethiopia were crossing bayonets, the League once again could accomplish absolutely nothing.

There have been several groups in the world which have formed an alliance, for instance, the Balkan Entente; Baltic Foreign States, also the Panama-American Union. If the League was able to organize all these forces on peaceful terms, it would have a chance to succeed in its true purpose.

In continuing his address, Dr. Simon stated that if the League was to use peaceful methods in place of force, it would be able to work without endangering the world.

When the Italo-Ethiopian disturbance was on, the League did not make up its minds whether or not to use political policy or military force; thus the struggle continued with the League being useless.

Many people say, "Why not change the articles of the League?" But why change them, the articles are loose enough now. In closing his address, Dr. Simon stated that the future of the League of Nations is entrusted entirely upon the opinion of the people. It needs the help and opinion of the people in general; to give it the additional weight to hold it.

After concluding his address, Brig-Gen. F. W. Hill thanked Dr. Simon for the wonderful address, noting that it would seem as though peace were not to be secured by force, but as the lecturer had said, by the help of public opinion, and a very interesting evening came to a close with the singing of "God Save the King."

All regret that she is unable to take up her duties in the school room for some time yet. Miss Fanny Fox of this place reopened the school on Wednesday. She is substituting for Miss Goodline who we all hope will be able to take her school back again in a few weeks.
