OBSERVER DISCUSSES BURGLARIES AND OUR CITY POLICE FORCE

Also Replies To Dorothy Mix Re the Y. M. C. A.

Another burglary has taken place in the city to add to the long list that already exists. It would be bad enough to have such a long crime sheet in a city of this size if the offenders were caught, but they seldom are. It is obvious, of course, that if a few offenders were caught now and then, there would not be so many crimes. It needs the example of a little successful detective work to put the fear of God into some of the bums we have hanging about this town. It is quite possible that I may be doing the aforesaid bums an injustice, since many of the unsolved crimes of recent date bear all the earmarks of inside jobs. It is not likely that the perpetrators in such cases would be recognized by the public as bums. On the other hand they may have some bum friends. These jobs may probably not be inside jobs but some of them look it.

Admit that our police are inefficient, and it seems that they must be,

the remedy is still at hand. In the first place no body of men as small in numbers as our present city police force, can possibly patrol this city effectively, even if they were efficient, which they are not. The first thing to be done, then, is to hire more men. The second thing is to get as good men as possible for the money, that is, men who know something about police work. If this cannot be done, why then train them after they are obtained. Third, there should be, attached to the city force, one or two good detectives. But above all more men are needed. There should be a police force large enough to patrol the city fully, so that each police officer would have a regular beat, and not only on the front street. This would at least tend to prevent some crimes from occurring, even if the police could not catch anyone who did to anything.

The present City Council went into office pledged to support the Police Commission, but expressed themselves as in favor of some changes from the present method. It is high time, then, that they got busy. There is no more urgent need in the city at the present time than that of an efficient police system.

Poor Observer got it in the neck from some correspondent signing herself "Dorothy Mix." Dorothy says that Observer has a cynical disregard for women's rights, and that women should not be confined to housework all the time. She also says that married women have just as good a right to preserve their girlish figures as their younger sisters. She says that she has approved of some of my articles in the past. Well, I suppose I am bound to tramp on somebody's toes sooner or later. I was not trying to be cynical, but I still do not think that the Y.M.C.A. was designed to conduct such classes as those under discussion. I make no suggestion that the ladies attending did not pay their way, for I know that they did. My contention is simply that it is not the organization's duty to make available its facilities for such work. Possibly the directors themselves may not agree with me, and it makes no difference to me whether they do or not. They are soliciting public support for work which is supposed to be primarily in the interests of the young people of the community. To that policy they should adhere.

The department of agriculture will also continue the survey and study the production of cranberries, strawberries, apples and other fruits. matter would not have been considered with the same speed. He also pointed out that the city would not be obligated by the act.

Ald. Dr. H. S. Wright stated that he could not see where the matter was any affair of the city. The hospital board was sponsoring the bill and not forcing anything on the city. The Deputy Mayor moved that the city of Fredericton take no action on the legislation. The motion was seconded by Ald. Dr. Wright.

Ald. Crewdon, quoting Bylaw 3, Section 11, suggested that Ald. Dr. Wright, as member of the hospital staff should not vote on the question. He added that his suggestion was made without any animosity to Ald. Wright. He felt that it was for Ald. Wright's own good that he did not vote. Mayor Forbes stated that he did not feel that Ald. Wright would consider himself as one of the board ahead of the city.

The Deputy Mayor again arose to the question to explain his stand in the matter. "I had no interest in the matter," he said, "and hadn't thought much about it before I came here. The action of the Hospital Board does not place us under obligation. I have no cards up my sleeve," he said. Ald. McKnight arose to explain that his opposition to the bill had been as a citizen and not as an alderman. He intimated that he would still oppose the bill as a private citizen even though the council decided to take no action.

Five aldermen stood in favor of the motion. Aldermen Olts, Good, Mundle, McCaughey and Colwell.

An Interesting Old Document Turns Up

The Daily Mail has been handed an interesting old document. The document is a lease of pew number 34 in the old St. Paul's Church in this city. The lease which is dated the second day of July 1832 and was made between the trustees of St. Paul's Church in what was then the Parish of Fredericton and James Allen. The lease which was signed by William Taylor, Chairman and James Taylor, Jr. Secretary on behalf of the Trustees, leased the pew to James Allan for a yearly rental one pound five shillings. An endorsement on the back of the lease shows that in June 1834 James Allan transferred the pew to Richard Staples, grocer of this city, and by a further endorsement made in May 1841 Richard Staples transferred the pew to William McBeath. By a still further endorsement made on the thirtieth of September 1865 William McBeath transferred the pew to the late James Hodge, father of George W. Hodge of this city. This pew remained in the Hodge family until the early eighties when the Auld Kirk was replaced by the present St. Paul's Church. The old wooden Kirk which served for several generations of the Presbyterian congregation in this city was later removed to Charlotte Street, a short distance below the corner of York Street and now does duty as an apartment house. It is now known as "The Kirk Apartments."

COMMITTEE

(Continued from Page Eight)
John S. McKinnon, legislative representative of the New Brunswick Federation of Labor speaking on behalf of the Moncton Trades and Labor Council and Machinists Union, raised an objection to the clause extending the term of the Mayor and Aldermen, and to the plebiscite in connection with this measure. He pointed out that the majority were against the two year term. He suggested that a plebiscite be taken only in connection with the annual or biennial election, and not between elections. Considerable discussion arose over this point.

Suggests Plebiscite

Attorney General Hon. J. B. McNair suggested that a plebiscite on the matter be taken at the next civic election and if carried, the biennial term of office be effective at once.

Mayor W. E. McMonagle contended that a one day plebiscite was not sufficiently representative, his plan being for a week's plebiscite prior to date of election. With regard to the question of who would be eligible to vote, Mayor McMonagle stated that he was in favor of allowing all those who were on the previous assessment list to vote in the plebiscite. No opposition to this suggestion was raised, and the proposal was adopted. The contentious clauses of the bill were finally referred to private session.

WE OWE YOU MONEY

Payable in CASH—ON DEMAND

★ ★

If yours is one of the 4,740,000 accounts in which people have dollars on deposit in Canada's chartered banks, your bank owes you money.

That money does not belong to The People, the government, the nation, or to your neighbour. It is YOURS.

If you are a savings depositor, the bank, in addition to providing safety, pays you interest on YOUR MONEY just as a borrower pays interest to the bank, for

WHAT IS A BANK?—It is an institution organized to receive deposits and to make loans; that is the mechanical description. But it is a much more human place than that; it means much more to YOU.

Your bank is a place where you can deposit money for yourself and your family, with every assurance; that you can get it back whenever you call for it—in full and with interest.

The bank's books show your deposit as a sum of money it owes to you—must pay to you when you ask for it—a liability of the bank.

Your bank is, too, a place where persons worthy of credit may borrow for business or other legitimate purposes.

The borrower must be worthy. By worthy, we mean that because of his record for honesty and integrity, his business ability, and the things he owns, he may be counted on to be willing and able to repay. We MUST know that he is a "good risk", for we MUST keep YOUR deposit and those of all other depositors SAFE, against the day you call for what WE OWE YOU.

As a depositor, you are our creditor; we have to be prepared to pay you in full. Therefore we must do our utmost to collect in full as much as we loan, plus our costs of operation.

We pay interest for deposits and charge interest on loans. You will be surprised when we tell you the range of our costs, the smallness of our margin of profit.

Bank deposits are the money of certain people—not "The People". There is the substance of Canadian banking as plain as a pikestaff. You have known it for a long time; you can let others know just *whose* money it is they speak of, when they talk about the community's claim to bank deposits.

More than 4,700,000 people in Canada—equal to more than 42 per cent. of Canada's population—have "money in the bank"—deposits lodged with Canada's chartered banks. Of these no fewer than 4,034,000 are savings

depositors receiving interest on their money.

Canada's chartered banks have paid over \$397,000,000 in interest on deposits in the last ten fiscal years.

Savings of the Canadian people, deposited in the chartered banks, now total nearly \$1,584,000,000—the average savings deposit being \$387.

There are about 660,000 current accounts of individuals and corporations totalling \$679,000,000 in Canada's chartered banks.

It takes the equivalent of nearly three average savings accounts to make one loan of \$1,000.

And it takes the net profits, over and above the costs of doing business, on scores of loans of \$1,000 each for a year, to make up the loss of one single loan of \$1,000.

This shows what care the banks must take in lending, if the depositors' funds are to be safeguarded, for the net profits of banks are less than one-half of one per cent. on their total assets.

Without deposits a bank could not long continue in business. YOUR MONEY remains on deposit in the bank ONLY AT YOUR WILL; and if you think the bank is lending recklessly, you will draw it out.

The bank must always keep itself in a position to pay you your deposit, in full, in cash, whenever you choose to call for it.

Canada's chartered banks realize that the establishing of your home, the happiness of your family, the education of your sons and daughters, their start in life, their progress in business, your provisions for a rainy day, your peace of mind in the twilight of life, may depend largely upon this money—money you have deposited in a bank—money YOUR BANK OWES TO YOU.

THE CHARTERED BANKS OF CANADA

Your local branch bank manager will be glad to talk banking with you. He will be glad to answer your questions, from the standpoint of his own experience. The next article in this series will appear in this newspaper. Watch for it.

One of the most ingenious methods of pilot training in the history of aviation has been installed by the Trans Canada Air Lines, Winnipeg, for the training of their pilot personnel. It is the "Link Trainer" and resembles a miniature plane, but contains all the dials and gadgets necessary to get the pilot's fullest reaction to instrument and beam flying. Every pilot in the service will undergo periodical and regular sessions in the Link Trainer. Picture No. 1 shows the Link Trainer and the hood which folds down over the pilot's head. No. 2 shows the pilot seated at the controls with his head phone ready to catch the radio beam signals. No. 3 shows the operator watching the mechanical "crab" which faithfully records on a chart every movement the pilot makes in his "trip" over any specified territory. Through the telephone the instructor can check quickly with the pilot. In the centre is the Trans Canada Air Lines "Flying Maple Leaf" which appears on the nose of all company machines.
