"SALADA" TEA

"WE MUST REVISE OUR MARRIAGE LAWS TO COMBAT TUBERCULOSIS," STATED DR. B. H. ROBERTSON AT WARDEN'S DINNER

New Warden of County and Dr. Wm. Warwick, Dealt at Length With Increase in T.B. Cases — Hon. A. C. Taylor, Mayor G. Willard Kitchen, Rev. Dr. W. C. Kierstead Other Leading Speakers — "Hope to be Able to Discontinue Bonuses On Hogs In Spring"—Taylor

ADDRESSES by Dr. B. W. Robertson, warden of the County of York and Dr. William Warwick, chief medical health officer, dealing mainly with the tuberculosis situation in the province of New Brunswick and the address by Hon. A. C. Taylor, minister of agriculture, were the highlights of the annual Warden's Dinner which Dr. Robertson tendered members of the County Council and friends last evening in the Waverley Hotel. Both Dr. Robertson and Dr. Warwick dealt with the situation clearly as it stands at the present time and furnished much enlightening information on the subject. A review in brief of the great advances made in agriculture in the past few years was given by Hon. A. C. Taylor. The reply of Mayor G. Willard Kitchen to the toast to the city, and that of Rev. Dr. W. C. Kierstead to the toast to the Dominion were other leading features of the evening. The splendid dinner was enjoyed by about 125.

"I know that many may feel that something is wrong when they see the tax rate rising so," Dr. Robertson stated. "I wonder though, if people have taken the figures of years and examined them."

In citing the figures he stated that in 1929 the upkeep of tuberculosis patients was nil, while last year the cost amounted to \$17,000. Also, he stated, the Provincial Hospital cost the county \$2,700 in 1929 and this year the cost was \$5,000. In advancing the figures for keeping indigent patients in Victoria Public Hospital he stated that the figures have jumped from \$1,200 to \$8,000 since 1929, so that in 1929 the total of the three was around \$3,900, while this year the cost has been \$31,000.

The speaker showed that since the total Municipal receipts for the year amounted to \$95,000, it is taking one-third of the revenue for the upkeep of patients in these three institutions. "This is a great expense," the speaker said. "Are we getting results? I, personally, do not believe that we are."

Dr. Robertson stated that patients are sent to the sanatorium and are sent back home supposedly cured, but are still infected. He returns, and infects four or five others, thus being responsible for the great yearly increase.

It has been suggested that the pro-

vince take care of this expense. "If we do that," he declared, "we are only postponing the evil day."

Must Reform Marriage Laws
"We must go back farther than taxation," he stated. "We must go back to the marriage laws. I believe that everyone should be required to present a certificate of a clean bill of health before they are allowed to be married. The marriage laws must be revised."

"Think of this," he asked, "talk to your neighbors about it, it is a thought for you to take home with you."

Rev. Dr. W. C. Kierstead
The toast to Canada, proposed by Councillor Dobie, was replied to by Rev. Dr. Kierstead.

"In this world of strife and turmoil," he stated, "Canada is the safest and best place in the world in which to live."

Speaking of the necessity of keeping the country safe, he referred to the conditions in parts of Canada which he inferred could disrupt the Dominion. He referred to the conditions in Alberta, the attitude of the premier of Ontario to the hardship of the Dominion, and the recent Fascist legislation in Quebec.

"Under this act, however," he declared, "there is a loyalty to the Dom-

FURTHER DISCUSS PROPOSAL MOVING OF POLICE COURT

Councillor B. O. Waugh Added to Committee On Matter; Ex-Councillor Spoke

The proposal for moving the City Police Court and station from the City Hall to the vacant space in the front of the County Court House building on Court House Square was a leading feature of the afternoon session of the County Council yesterday afternoon.

Warden B. W. Robertson, M.D., discussed the matter to the council, saying that the change would give much better accommodations to the market and benefit the farmers greatly. It was also remarked that if the city had its own police cells the county jail would not be so overcrowded.

On motion, Coun. B. O. Waugh was added to the special committee appointed to confer with the city on the matter for the improvement of the facilities for the market. The committee was given power to act and report back to the Council in the July session.

Ex-Councillor Spoke

Ex-Councillor Newton Dunphy of Douglas was present at the session and asked to the platform. He greeted many old friends in the council and expressed the pleasure at seeing many new faces. Speaking of the meeting of the New Brunswick Union of Municipalities in Campbellton last summer, he commended that body very highly and spoke well of its great value. He was of the opinion however that the Union considered too many subjects at one time with the result that some of the most important may not get the attention they deserve.

"If the counties are not aided in their expenditures by the assuming of tuberculosis costs in the province by the Provincial Government, it may lead the counties into bankruptcy," he declared.

He strongly endorsed the stand of the council on the matter.

It was moved by Coun. Morrison, seconded by Coun. Whitehead that the session adjourn until ten o'clock this morning. Following the adjournment the meeting of the Municipal Home Committee took place.

union; it is this loyalty which must be put to use to keep Canada safe."

Hon. A. C. Taylor

One of the highlights of the whole evening was the address of Hon. A. C. Taylor, minister of agriculture, in reply to the toast to New Brunswick proposed by Councillor Harry Morrison.

Hon. Mr. Taylor first spoke of the importance of the agricultural industry to the country, stating that it was one of the four on which the economic system rests.

The necessity of training boys and girls to carry on the industry was one of the leading points. He spoke of the work the Department is doing in the advancement of the industry, and cited the aids which have been given the farmers.

To Discontinue Bonuses
Referring to the practice of bonusing, he stated that he was not in favor of it.

"It is a valuable aid in starting and putting an industry on its feet, but from there I do not believe in it. Any industry should be able to stand on its own feet."

Through the 50c. bonuses on top grade hogs he stated that the percentage of select and bacon grade hogs has been increased from 12.3 per cent to 67.7 per cent, bringing in a revenue to the province of \$12,000.

"We hope by the end of the year to see the industry safely re-established so that it can carry on without aid of the department," he said.

Referring to potatoes, 360,000 barrels have been shipped to the Argentine, a market never before touched. In butter production also, he compared the 324,227 pounds produced in 1935 to the 622,000 pounds this year. Much of this butter came from York County.

Speaking of York County the speaker mentioned the fine agricultural country, referring especially to Stanley and Harvey as two of the finest agricultural districts in Canada.

Mayor Kitchen

His Worship Mayor G. Willard Kitchen spoke briefly in reply to the toast to Fredericton. He promised closest co-operation with the county in anything which would better the conditions of the City and County in general.

"When the people of Fredericton have affirmed their belief in our civic administration on Monday night, we will get back down to the natural course of work again," he said, "and will work hand in hand with the county for the mutual good."

In reply to the toast to the professions, Dr. C. C. Jones, Dr. M. L. Jewett, E. C. Atkinson and Dr. William Warwick, chief medical health officer spoke.

Dr. Warwick
Dr. Warwick dealt with the tuber-

culosis situation to considerable length.

In the last decade the cost of treating patients has been \$300,000 per year, \$142,000 of which has been paid by the province and \$160,000 from municipal funds. In the past 11 years the cost to the province has been trebled and the cost to the county doubled, and over the same period of time there have been over 4,000 deaths.

Since 1936 there have been 568 new cases reported and 361 sent to the sanatoriums; 268 or about 75 per cent of which were municipal charges.

"Much has been done, however," the speaker declared. "In the past ten years 770 fewer people have died than would have if the 1926 death rate continued. Speaking of the valuation of life, which can be fixed, the deaths in the 11 years since 1926 caused a loss of about \$13,600,000."

The great difficulty in curing the disease, it was stated, is that with the present machinery the disease is not caught in many cases in the early stages when permanent cures can be effected. The speaker advocated a greater expenditure of \$50,000 or \$75,000 more per year to supply more hospital beds and other necessities, and provide means whereby the disease can be discovered in its early stages.

Dr. Jewett in his response spoke highly of the profession of education. He commended Hon. Mr. Taylor very highly for his interest in agricultural education, and also mentioned the necessity for a consolidated school at Millville.

Each address, including the closing remarks of Major John S. Scott, who acted as toastmaster, congratulated Dr. Robertson for being honoured with the Wardenship and commended his value very highly paying marked tribute to him as a medical man and as a leader of the county council.

Little Christmas Day Legal Holiday Quebec

MONTREAL, Jan. 6—Little Christmas (Les Rois) known in English countries as Epiphany Day was celebrated in Montreal and generally in the province of Quebec. No French paper was printed yesterday in Quebec province and many business houses were closed for the day.

\$50,000,000

Canadian National Railway Company Bonds

Guaranteed unconditionally by the

Government of the Dominion of Canada

as to both Principal and Interest

The Bank of Canada is authorized by the Minister of Finance to receive, on behalf of the Canadian National Railway Company, subscriptions for the following bonds:

Four-Year 2% Bonds, due January 15, 1942

Issue Price: 99.25% and accrued interest, yielding approximately 2.20% to maturity

AND

Thirteen-Year 3% Bonds, due December 15, 1950

(Callable on or after December 15, 1945)

Issue Price: 97.00% and accrued interest, yielding approximately 3.29% to maturity

The 2% Bonds will be dated January 15, 1938. The 3% Bonds will be dated December 15, 1937. Principal and interest will be payable in lawful money of Canada. Interest on the 2% Bonds will be payable without charge, semi-annually, at any branch in Canada of any chartered bank. Interest on the 3% Bonds will be payable without charge, semi-annually, at any branch of the Canadian Bank of Commerce in Canada (Yukon Territory excepted).

These Bonds will be a direct obligation of the Canadian National Railway Company, the capital stock of which is owned by the Dominion of Canada. Payment of principal and interest on these bonds will, under authority of the Parliament of Canada, be guaranteed unconditionally by the Government of the Dominion of Canada. A copy of the guarantee will be endorsed on each bond.

Proceeds of this issue will be used exclusively for the repayment of temporary loans obtained by the Company from the Government for the redemption of funded debt which has matured and for capital expenditures.

Payment is to be made in full with accrued interest against delivery of interim certificates on or about January 18, 1938.

Denominations: 2% Bonds \$1,000
3% Bonds \$500 and \$1,000

Subscriptions may be made to the Head Office of the Bank of Canada, Ottawa, through any branch in Canada of any chartered bank or through any recognized dealer, from whom copies of the official prospectus containing complete details of the issue may be obtained. The Minister of Finance reserves the right to allot subscriptions in full or in part.

The subscription lists will open on January 10, 1938, and will close as to either maturity or both, with or without notice, at the discretion of the Minister of Finance.

OTTAWA, January 7, 1938.

TOBACCO is naturally GOOD!

Good tobacco is mellow and fragrant by Nature, but some tobaccos are naturally better than others.

None but the choicest of tobaccos are used in the manufacture of Winchester Cigarettes, and these are blended right, through a knowledge of cigarette manufacture which has come after many years of experience.

There is something in knowing how to make cigarettes.
