'IS GOOD BREAD'

## IMPORTANCE OF MODERN EDUCATIONAL SYSTEM AS INSURANCE AGAINST FUTURE UNEMPLOYMENT STRESSED IN ADDRESS

**Dr. Fletcher Peacock, Speaking Before Wilmot Brotherhood Yesterday Declared Education in Past Leaned Too Greatly To Professions And Specialized Lines; Government's Schemes For Placing Unemployed, Proof of Failure of Old System**

Dr. Fletcher Peacock, Director of Educational Services for New Brunswick, stressed the importance of a modern educational system to prevent future unemployment, in an address delivered before the Wilmot Brotherhood yesterday afternoon at Castle Hall. He pointed out that education along broader lines than hitherto used would not only increase our cultural standing but would prepare students for any changes in the industrial system. The Dominion and Provincial governments, he stated, have launched a scheme for training and placing unemployed. The necessity for such a scheme is an indication of a shortage in past educational systems.

The speaker said that on looking back to pre-depression days, two factors were to be noted: first, the people were industrialized and went to the cities in large numbers to earn money in specialized lines when a special industrial undertaking went under the employees lost their jobs. Second, the educational system at that time prepared for professions, and did not take into consideration preparing the rank and file for competency. He declared that a province

like New Brunswick with its good natural resources, would advance rapidly if it had right planning, guiding, training, and placing services.

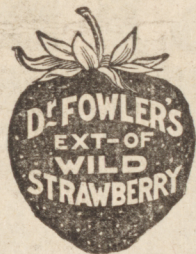

Dr. Peacock gave an outline of the proposed new system from the primary grades upward. He stated that there is not a need of building new agencies but of using the old institutions and agencies for new methods. The need of the co-operation of churches, lodges, schools, and employers in education was also shown. He contrasted the democratic and dictatorial systems, and pointed out that while a dictator could likely order jobs for the unemployed, we do not believe in dictators and would have to accomplish the retraining of our unemployed by democratic means.

## CHOLERA INFANTUM THE FATAL DISEASE OF CHILDREN

Is a valuable preparation that has been on the market for the past 88 years.

It effectively off-sets the vomiting, purging and diarrhoea of cholera infantum.

Price, 50c. a bottle at all druggists or dealers; put up only by The T. Milburn Co., Limited, Toronto, Ont.

## TOBACCO is naturally GOOD!

Good tobacco is mellow and fragrant by Nature, but some tobaccos are naturally better than others.

None but the choicest of tobaccos are used in the manufacture of Winchester Cigarettes, and these are blended right, through a knowledge of cigarette manufacture which has come after many years of experience.

There is something in knowing how to make cigarettes.

## Friends of Louis Hemon to Perpetuate His Memory by Transformation of Bedard and Bouchard Homes at Peribonka Into Literary Museums

### SOCIAL HAPPENINGS

**New Book to be issued in Near Future**  
Friends will be interested to hear that a book recently written by Miss Muriel Miller is now in the hands of the printers and will be issued in the near future. It is understood that the first issue is to a large extent already sold. The title of the book is "The Life of Homer Watson." This is Miss Miller's second book, her first publication being on Bliss Carman.

#### Drawing-room Tea

Mrs. C. W. Argue entertained a few of the students of the University yesterday afternoon at a drawing-room tea at her home on Lansdowne Street.

#### Closed Residence for

**Remainder of Winter**  
Mrs. Charles Cremin has closed her residence for a few weeks and with her youngest daughter Miss Eleanor Cremin is at present in Montreal. Miss Esther Cremin is a guest at Rosary Hall.

#### Visiting Boston

Mrs. J. Brown Maxwell is amongst the people visiting in Boston this week.

#### Returned from Montreal

Mr. and Mrs. J. Fred Ryan arrived home on Saturday from Montreal where they spent several days.

Mr. and Mrs. F. Kent Fowler of Brown's Flat are the guests of Misses Ann and Gertrude Pinder at their home in Fredericton.

Mrs. Thomas A. Belmore entertained at her home recently in honor of her aunt, Miss Clara MacAllister, who makes her home with Mrs. Belmore, and was celebrating her birthday. Several friends and relatives were present and extended birthday greetings to Miss MacAllister. The tea table was centred with a birthday cake.

#### Gowns Worn by Some of

**Guests at Drawing-room**  
Some of the guests at the Drawing-Room given last week by Lord and Lady Tweedsmuir included the following:

Mrs. W. E. Foster of Rothesay, N. B., wife of the Speaker of the Senate who wore a lovely gown of grey chiffon made on long full lines with a grey velvet court train lined with jade green, wearing pearl ornaments.

Miss Margaret MacLaren, daughter of the Hon. Murray MacLaren, Lieut. Governor of New Brunswick, who with her father is a guest at Government House, was in a lovely gown which she wore at the Coronation of Their Majesties in England, a white mousseline de soie with insets of Chantilly lace, the court train of the mousseline de soie embroidered with diamante and lined with silver tissue, and she carried a small brilliant bag.

The Hon. Senator Iva Fallis of Peterborough, lovely dress of white and silver lame with a court train of the material and pearly necklace and ornaments.

The Countess Robert de Dampierre, wife of the Minister for France in Canada, Mainbocher model of white satin with a court train of silver lame. She wore a diamond tiara and an emerald set of ancient square cut emeralds encircled with small diamonds.

Mrs. Pierre Casgrain, of Montreal, wife of the Speaker of the House of Commons, handsomely gowned in white satin, embroidered with brilliant and court train of silver lame.

Miss Helene Casgrain, debutante daughter of the Speaker of the House of Commons and Mrs. Casgrain attractive dress of white tulle made very full in the skirt and the bodice all tiny frills, fashioned with a court train of white silver cloth. She carried white gardenias.

Hon. Senator Cairine Wilson, beautiful gown of white satin with alternating stripes of silver, made in classical style, the skirt very full, the court train lined with gold lame.

### NO DIAL SYSTEM

(Continued from Page Eight)  
the purpose of adoption to a dial circuit by simple changes; and the purchase by the telephone company during the last year of a property at the rear of the present telephone office from Hon. Dr. R. B. Hanson, K.C.

In view of the fact that it is understood that new and larger quarters would be necessary for a dial system office, this was taken as a good indication of the intentions of the company.

Mr. Turner would not discuss this phase of the reports, stating that he has no information or authority on the matter.

Present circumstances seem to indicate that the system will not be in force however, for a few years at least. The system has not yet been completely installed in Saint John while Moncton with a larger population and exchange would seem to merit the system ahead of Fredericton.

The dial telephone system is being used in Saint John at the present time and it is expected that it will be installed in Moncton in the near future.

#### RIVER LEVEL RISING

Reports from the Fredericton pumping station show a raise of two feet, nine inches in the water level of the Saint John River due to the rain of Tuesday last, and a recession since. The rain today has checked this drop and will likely increase the water level again. Indications point to clear weather now, the wind being in the northwest. One-tenth of an inch of rain was reported to have fallen up until 8 o'clock this morning.

### HEAVY LOADS

(Continued from Page Eight)  
caused many embarrassing accidents and impeded pedestrian travel.

Ice in the Saint John River at this point is still about two feet thick and although ice-cutting operations have been forcibly suspended for the time and a considerable amount of water covers the ice surface, no fears are held for the securing of a good ice harvest later on.

#### A CHANCE TO SAVE MONEY

E. Daisy Smith exclusive ladies store is offering outstanding bargains in afternoon frocks, evening gowns and knitted suits.

**KELLOGG'S  
ASTHMA  
RELIEF**

A physician's formula that has benefited sufferers for over 60 years. Try it. You'll be more than pleased with the quickness with which it relieves Asthma and Hay Fever, preventing needless suffering. You simply inhale the fumes.

### Old and Happy French Canadian Custom

"No wonder these French-Canadian skiers are so good," was the comment of an American onlooker at a recent ski race at Lac Beauport, Quebec City's and the Chateau Frontenac's new winter playground, when he saw C. Delisle greeted in this fashion after placing third. Excellent ski-ing conditions have made Lac Beauport a popular holiday ground with both American and Canadian winter sport enthusiasts.

### First Definite Move Made Quarter Century After Tragic Death at Chapeau of Famous Author

**Belated Tribute To Man Whose Masterpiece Portrayed Romance of French - Canadian Life in Pioneer Areas**

The generous gesture of a few Canadians to perpetuate another page of Canadian literary history has resulted at Peribonka in the Lake St. John district, in the transformation of Sam Bedard's house into a museum located a short distance from the home of Eva Bouchard, the French Canadian girl who inspired Louise Hemon to write his world famous novel, *Maria Chapdelaine*.

The group responsible for the realization of the project cherished by many for a number of years, is known as La Societe des Amis de Maria Chapdelaine. The Society of the Friends of Maria Chapdelaine, and is intent upon popularizing the work of Hemon, who faithfully portrayed French Canadian life in newly settled districts and bringing due credit to an outstanding French author of the Province of Quebec.

#### Louis Hemon, Linguist and Scholar

Louis Hemon was born on October 12, 1880, at Brest, France, and was educated at Paris, where he took a degree in modern Oriental languages. In 1904 and in 1906 he won prizes for a story and an article respectively, and thereafter contributed stories and articles to various French papers. He spent some time in England in order to learn the English language, and in 1912 came to Canada, where he spent a year and a half, principally in the neighborhood of Lake St. John, working on farms and studying the life and customs of the people. He died at Chapeau, Ont., on July 8, 1913, as a result of a railway accident. His works include the novels "Lizzie Blakeston" and "Maria Chapdelaine." The latter book has been admirably translated into English by W. H. Blake, and also by Sir Andrew Macphail.

### Sunlight or Moonlight Now Come Into Living Room At Flick of Switch

By Jean Pringle

A fresh note of modernism is injected into this Chinese Chippendale living room through the installation of a concealed lighting unit recessed behind the curtains. The effect produced is that of warm sunlight streaming through the window.

THERE seems to be simply no limit to the ingenuity of these lighting people nowadays. A press of a button, and they give you day light, sunlight, or moonlight at any hour of the day or evening—right in your own living room. And it's almost laughably simple!

Lighting panels built into hidden places produce the effect. They are often used over the latest kitchen sinks, although in such cases, ordinary colorless bulbs are employed. Recently this type of lighting has become quite popular in living rooms, particularly where there is a bay window.

#### Easily Installed

The lighting unit itself consists of a metal box, approximately thirty inches long, six inches wide, and seven inches high. It contains three 40- or 60-watt bulbs, depending upon whether you have light or dark shades. The amount and color of light desired also determines the number of bulbs. Flashed opal glass is used at the bottom of the unit to diffuse and soften the light.

There are two ways of installing

such a unit, which is a regulation fixture, obtainable at many electrical stores. When built into a new house, it is recessed into the ceiling, adjacent to the window. In a house that has been already built, two polished metal reflectors containing 60-watt lamps can be mounted between the over-drapes and the glass curtains. These reflectors are also standard equipment, easily installed by your electrical contractor.

#### Choice of Colors

Where there is no space between the draperies and curtains, a row of small 10-watt bulbs or several luminaire lamps may be mounted behind the valance or curtain cornice. The wiring can be so arranged that a choice of colored light is simply a matter of which switch is pressed.

In these modern times, there's no need to permit the original architectural limitations of a room to stand in the way of modernity. And you'll find that the modest investment yields ample dividends in the added enjoyment you derive from your home.

### 2 WAY RELIEF FOR THE MISERY OF

## COLDS

#### 1.

Take 2 "ASPIRIN" tablets and drink a full glass of water. Repeat treatment in 2 hours.

#### 2.

If throat is sore from the cold, crush and stir 3 "ASPIRIN" tablets in 1/2 glass of water. Gargle twice. This eases throat rawness and soreness almost instantly.

No family need neglect even minor head colds.

Here is what to do: Take two "Aspirin" tablets when you feel a cold coming on—with a full glass of water. Then repeat, if necessary, according to directions in each package. Relief comes very quickly.

The "Aspirin" method of relieving colds is the way many doctors approve. You

take "Aspirin" for relief—then if you are not improved promptly, you call the family doctor.

• "Aspirin" tablets are made in Canada by the Bayer Company, Limited, of Windsor, Ontario.

DEMAND AND GET—
