### DECREASE IN NUMBER OF NOTIFIABLE DISEASES IN YORK CO. NOTED IN 1937, — DISTRICT MEDICAL HEALTH OFFICER

**Dr. J. M. Cameron Addresses County Council Yesterday Afternoon; Parish Of McAdam Moves to Place \$100 Tax on Representatives of Outside Concerns Selling Retail in McAdam**

A promising report on the number of notifiable diseases in the County of York during the past year was given by Dr. J. M. Cameron, district medical health officer, at the afternoon session of the York County Council yesterday. According to the report in nearly all types of notifiable diseases the number of cases was less in 1937 than in the preceding year, and the total number of all type cases was 119 against the 155 in 1936. Making the report even more satisfactory is the fact that 38 of the cases were due to the small chickenpox epidemic at Marysville during the summer.

Another leading feature of the session was a motion by Coun. Gaynor seconded by Coun. Stannix that a tax of \$100 be imposed on business establishments outside McAdam who sent representatives in to retail manufactured goods. The motion was not passed but was referred to the Committee on by-laws, composed of Councillors Liston, Nason, Whitehead, Gaynor, McLaughlin and Gilman.

The resolution, which was proposed by the merchants of McAdam, is aimed at outside merchants who send representatives into the parish selling radios and other articles to the detriment of the business of merchants established in the town.

At the invitation of the Council, Dr. Cameron gave an informative report on the activities of the Board of Health during the year.

Only two cases of diphtheria were reported which, he stated, is an excellent example of the value of toxoid inoculations. At the present time 1313 children have been inoculated in eight parishes of the county, clinics having been held in the parishes of Stanley, St. Marys and McAdam just this year. In the cases of diphtheria, both of which were in adults, the disease did not spread to children, he said.

In 1936, there were 7 cases of diphtheria, and no outbreak was experienced following these.

There were 22 cases of scarlet fever, nearly all of which were a mild type.

Typhoid fever showed a decrease from 1936, two cases having been reported in 1937 against nine in the year before.

29 T. B. Cases  
The two cases of infantile paralysis in the county were taken care of

so that no aftereffects remained in one case, while in the other, complications had set in before the disease was reported. The speaker revealed that 29 cases of tuberculosis were reported.

Dr. Cameron stated that a water filtration plant had been installed at Marysville and also that a chlorination plant is being installed.

He was of the opinion that this was a great improvement over the use of the water from the mill stream as was done in the past.

A number of Councillors questioned Dr. Cameron on different matters in connection with health. On question, he stated that the period between 6 months and one year of age is the best time for diphtheria toxoid inoculation in that the child is made immune for life. In connection with the analyzing of suspected water, he stated that in many cases bottles of water are sent in for examination. In these cases, he said, an analysis would be useless because they would be "testing the bottle and not the water." In cases where water is suspected, the department will make analysis and inspection upon request, he concluded.

On motion, the question of accepting the report of the Administration of Justice Committee was tabled and was to be brought up at this morning's session.

#### Bear Bounty Question

The resolution concerning the bounty on bears and porcupine was submitted and its adoption moved by Coun. Elwood Allen and seconded by Coun. Nason.

The resolution submits that in many sections of New Brunswick, bears are steadily becoming a serious

### C. N. R. BUYS MORE MATERIAL, ASSISTS CAN. INDUSTRY

MONTREAL, Jan. 7.—Purchases made by the Canadian National Railways during 1937 amounting to over \$62,000,000 from approximately 10,000 Canadian firms assisted very materially in bringing various branches of Canadian industry back to normal conditions. R. C. Vaughan, vice president in charge of purchases, stores and steamships, stated in an interview here today in which he reviewed the year's activities of the department.

"We expend considerably more for the purchase of material and supplies in 1937 than in 1936," said Mr. Vaughan. "That was necessitated by the increased business handled which required the running of more passenger and freight trains to meet the needs of increased traffic. Consequently, more fuel was burned and a larger quantity of train and other supplies were used."

In our shops were also operated to greater capacity during the year, which was necessary to meet the equipment requirements of the railway, and, therefore, more material was required for that purpose."

"Our total purchases of material in Canada in 1937 approximated \$62,506,000. Of that amount approximately \$15,140,000 went for new equipment, and \$11,216,000 for Canadian fuel used on our locomotives and in our boiler houses, stations, coach, etc. Approximately \$15,700,000 feet of forest products were bought in Canada by the Canadian National Railways in 1937, which consisted of materials for construction and repairs to equipment, buildings, etc. Of that quantity 225,700,000 feet are represented by track ties." During the year following new equipment was delivered to the National system by car builders in Canada, Mr. Vaughan announced, 50 first class coaches, ten mail and express cars, 2,665 box cars, 49 flat cars, 15 ballast cars, 30 sand cars, 300 gondola cars, and 175 freight refrigerators, in addition 125 freight refrigerators were built in C. N. R. shops.

"During the year we had a heavy air conditioning program in connection with our passenger cars, and 12 cars were air conditioned," added Mr. Vaughan.

"In 1937 there was a substantial increase in the price of some lines of material, but we are hopeful that there will be recessions in price during the year."

"The expenditure by the Canadian National Railways of such large sums of money in Canada has meant many million man hours of work for our Canadian citizens and has done much to assist various branches of Canadian industry back to normal conditions."

menace not only to sheep and orchards but also to such important game as moose and deer, and as porcupine are becoming a nuisance and are destroying lumber and crops, it asked that a bounty of \$5 be placed on bears and 50 cents on porcupines. The resolution was signed by Councillors Elwood Allen, Warren B. Ebbett and A. Howard Cameron.

Motions that the list of parish officers in the parishes of New Maryland, Canterbury, St. Marys, McAdam, Dumfries and North Lake be accepted were put before the council and passed.

The resolution that the towns of Devon and Marysville be assessed for their share of the assessment, was passed.

Councillors E. Allen, Dobie and Gilman were appointed a committee to watch legislation.

The Public Accounts Committee presented its report which was accepted.

Coun. Clarence Grant moved that the Secretary Treasurer be asked to publish itemized accounts, stating names of recipients of relief, in the report of accounts.

A motion that the Secretary Treasurer be brought before the Council and instructed to issue the account sheet in this manner was voted down with only one councillor standing for the motion.

Warden B. W. Robertson stated that he was sure that Major Scott would comply if asked to itemize the relief expenditures. It was stated that the accounts were printed in the way they are submitted by the poor commissioners, and that where the account is itemized it appears that way. The session adjourned until ten o'clock this morning.

### Prison Term For Not Listing All Foreign Business

(Special to The Daily Mail)  
HAMBURG, Germany, Jan. 7.—Arnold Bernstein, Jewish President of the Arnold Bernstein Steamship Co. has been sentenced to 30 months imprisonment for not listing his Canadian exports. He has been accused of treason and also of doing business of over \$100,000 in the United States. One of the ports at which his ships called was Halifax, N. S.

### MANY CANADIANS EXPECTED ATTEND AUSTRALIA EVENT

(Special to The Daily Mail)

MONTREAL, Jan. 7.—Australia's 150th anniversary celebrations next year with their many especially arranged events are expected to draw thousands of visitors from all corners of the globe, many of them from Canada.

The latest features announced by the government as part of the four-month birthday party from January to April, are to be the opening of the Australian Broadcasting Commission concert season and the Australian powerboat championships, both on April 2 and the inauguration of the Sydney Royal Agricultural Show on April 9. This latter will conclude on April 23.

Many Canadians are expected to visit "down under" for these events, the sailing of Canadian Australian Liner Aorangi from Vancouver on February 16 reaching Australia in time for the first of these events while the sailing of the Niagara March 16 reaches there in time for the latter.

### MAUGERVILLE

The regular monthly meeting of the Maugerville Women's Institute met at the home of Mrs. Albert McCluskey, with an attendance of nine members, one new member joining, and one visitor. The president, Mrs. Hillis Dykeman, occupied the chair. Mrs. Elliott, the secretary treasurer, called the roll which was answered with "your favorite flower." Report of Christmas treats were received and bills ordered paid. Correspondence was read by the secretary. A Christmas card was received from Mrs. Harold Nevers of East Millinocket, a former member. A contest was conducted by the president and won by Mrs. H. B. Dykeman. Refreshments were served by Mrs. McCluskey assisted by Mrs. John Wood and Mrs. Donald Bridges.

### Canadian National Railway Company Bonds

Guaranteed unconditionally by the

### Government of the Dominion of Canada

as to both Principal and Interest

The Bank of Canada is authorized by the Minister of Finance to receive, on behalf of the Canadian National Railway Company, subscriptions for the following bonds:

#### Four-Year 2% Bonds, due January 15, 1942

Issue Price: 99.25% and accrued interest, yielding approximately 2.20% to maturity

AND

#### Thirteen-Year 3% Bonds, due December 15, 1950

(Callable on or after December 15, 1945)

Issue Price: 97.00% and accrued interest, yielding approximately 3.29% to maturity

The 2% Bonds will be dated January 15, 1938. The 3% Bonds will be dated December 15, 1937. Principal and interest will be payable in lawful money of Canada. Interest on the 2% Bonds will be payable without charge, semi-annually, at any branch in Canada of any chartered bank. Interest on the 3% Bonds will be payable without charge, semi-annually, at any branch of the Canadian Bank of Commerce in Canada (Yukon Territory excepted).

These Bonds will be a direct obligation of the Canadian National Railway Company, the capital stock of which is owned by the Dominion of Canada. Payment of principal and interest on these bonds will, under authority of the Parliament of Canada, be guaranteed unconditionally by the Government of the Dominion of Canada. A copy of the guarantee will be endorsed on each bond.

Proceeds of this issue will be used exclusively for the repayment of temporary loans obtained by the Company from the Government for the redemption of funded debt which has matured and for capital expenditures.

Payment is to be made in full with accrued interest against delivery of interim certificates on or about January 18, 1938.

Denominations: 2% Bonds \$1,000  
3% Bonds \$500 and \$1,000

Subscriptions may be made to the Head Office of the Bank of Canada, Ottawa, through any branch in Canada of any chartered bank or through any recognized dealer, from whom copies of the official prospectus containing complete details of the issue may be obtained. The Minister of Finance reserves the right to allot subscriptions in full or in part.

The subscription lists will open on January 10, 1938, and will close as to either maturity or both, with or without notice, at the discretion of the Minister of Finance.

OTTAWA, January 7, 1938.

## TOBACCO is naturally GOOD!

Good tobacco is mellow and fragrant by Nature, but some tobaccos are naturally better than others.

None but the choicest of tobaccos are used in the manufacture of Winchester Cigarettes, and these are blended right, through a knowledge of cigarette manufacture which has come after many years of experience.

There is something in knowing how to make cigarettes.
