FREED ON CHARGES
OF MANSLAUGHTER

PHILADELPHIA, May 2 — Former Prison Superintendent William B. Mills was acquitted last week of an involuntary manslaughter charge in the deaths of four convicts last August in superheated punishment cells. A jury of eight men and four women deliberated nearly 11 hours after Judge Louis E. Levinthal ruled there was no evidence to warrant conviction on murder and voluntary manslaughter charges.

Former Deputy Warden Frank Craven, the first to be tried, was convicted on an involuntary charge, and former Guard Captain James was acquitted.

Four of 25 men confined to the punishment cell block after a hunger strike died from three days exposure to intense heat from a battery of radiators. Witnesses said Craven gave orders for the heat to be turned on. Mills testified he "had no reason to believe there was anything going on to hurt the men" in the punishment cells.

NEW YORK MAYOR
CALLS HERR HITLER
A "TINHORN"

NEW YORK, May 2.—Mayor LaGuardia, commenting on Chancellor Hitler's Reichstag speech, told a group of members of the French Chamber of Deputies, "I don't think he fooled anybody this morning—not even his own people."

"Where I was raised, in Arizona," he said in a colloquy with Edouard Jones, head of the delegation, "some people put a gun on the table when they played cards. Of course, they were tin horns; they were not gentlemen."

The Frenchman smiled.

HONEST SCOT
PAYS HIS BILL

OTTAWA, May 2 — The conscience of a man who has been filling his fountain pen from post office inkwells for 20 years has finally caught up with him.

Postmaster-General McCarty received the following letter forwarded by the Postmaster at Winnipeg:

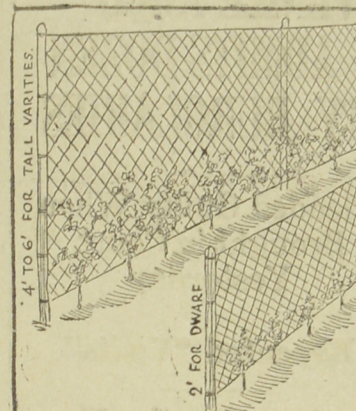

"Enclosed please find 10 cents. My conscience is bothering me as I have been filling my fountain pen for 20 years from the inkwells in your post office. I think the 10 cents should about cover the cost as the ink is not of a very good quality anyway."

All Peas Yield Better
When They Can Climb

For many years the dwarf peas, grown without any support, have practically driven the tall or brush peas out of the home garden. Now that the development of gardening has shown conclusively that even the dwarf varieties are much better and give larger crops if given support, the medium and tall peas are coming in to their own for it is very little more trouble to put up a three-foot wire fencing for them to climb than it is to put up an 18-inch strip.

While the dwarf peas are indispensable for the earliest crop, for the mid-season and late crops the brush types are most satisfactory. Their chief advantage is a much heavier yield with as fine quality as the dwarf varieties furnish, bigger pods, and a much longer bearing season.

The support should be given when the peas are planted so that they may start their upward career at once. They should be given rich soil and should be liberally fertilized. Some expert pea growers say that the vines should be three inches apart for their fullest and best development and that thick sowing is a waste of seed and

an injury to the bearing ability of the vines.

The tall and medium peas are self-protecting in one respect. The pea demands a cool root run for its best success. The foliage of the tall sorts shades the soil and helps to protect the roots from the sun.

MAN KILLED IN
CAR EXPLOSION

SOUTH PORCUPINE, Ont., May 2.—Elmo Palo of Timmins was blown to pieces by a mysterious explosion that virtually demolished his automobile soon after he had parked his car by the side of the road leading from South Porcupine to the New York-Porcupine Road.

"It looks as if the car had been wired to explode some dynamite," Coroner Dr. Frank Evans said. "Police have no theories. We are still investigating."

Dr. Evans said a group of workmen told him they saw Palo park his car by the side of the road. He parked a short distance from where they were working and asked if he would be in the way.

Soon after they heard a blast, but being in a mining area, they paid no attention to it. Later they noticed the car still there and on investigation found Palo's shattered body.

Dr. Evans said there was "nearly a full box of .22 rifle shells" lying near the car, but there was no sign of a weapon.

BORDER ITALIANS
TO JOIN FRENCH

BESANCON, France, May 2 — Pro-French manifestations among foreigners in the southeast frontier region of France are multiplying.

At Sochaux, an important industrial centre, 100 Italians marched to a French recruiting station and asked to be enrolled for a call in event of war. There are similar enrolments daily, it was said.

At Port Sur Saone, Italian residents voted a resolution asserting that in event of war they would fight beside their "French brethren" to defend liberty.

At Belfort, Spanish residents gave the prefect 25,000 francs (\$560) for national defence.

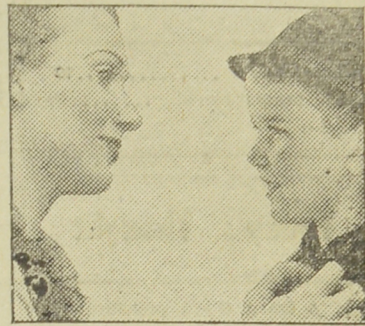

Letters Signed By
"I. R. A." Threaten To
Destroy Cathedral

LINCOLN, Eng., May 2.—Letters signed "I.R.A." threatening damage to Lincoln Cathedral were received by Lincoln's city constables and the sub-dean of the Cathedral, Rev. H. Larken. Special precautions were taken, with police posted inside and outside the Cathedral.

The initials are those of the illegal Irish Republican Army, which police have blamed for recent bombings.

If You Have
a Child

ASK YOUR DOCTOR THIS

Ask Him Before Giving Your
Child an Unknown Remedy

Practically any doctor you ask will warn: "Don't give your child unknown remedies without asking your doctor first."

When it comes to the widely used children's remedy—"milk of magnesia," the standard of the world is established. For over half a century many doctors have said "PHILLIPS' Milk of Magnesia." Safe for children. No other is "quite like it."

Keep this in mind, and say "PHILLIPS' MILK OF MAGNESIA" when you buy. Now also in tablet form. Get the form you prefer. But see that what you get is labeled "Genuine Phillips' Milk of Magnesia."

ALSO IN TABLET FORM:
Each tiny tablet is the equivalent of a teaspoonful of genuine Phillips' Milk of Magnesia.
