

Probate Court, County of York, Province of New Brunswick.

IN THE MATTER of the Estate of ELLA B. CARTER, late of the City of Fredericton in the County of York, Widow deceased.

To the Devises, Legatees and Creditors of Ella B. Carter, late of the City of Fredericton in the County of York, Widow, deceased, and to all others whom it may concern:

The Executrix of the last Will of the above named deceased having filed her accounts in this court and asked to have the same passed and allowed and order for distribution made. You are hereby cited to attend, if you so desire, at the passing of same, at a Court of Probate to be held in and for the County of York at my office, Number 404 Queen St., in the City of Fredericton in the County of York on Thursday, the twenty-fifth day of May, A.D. 1939, at hour of 2.30 o'clock in the afternoon, when the said accounts will be passed upon and order for distribution made.

GIVEN under my hand this twenty-fifth day of April, A.D. 1939.

(Sgd) CHARLES R. BARRY
Judge of Probate
(Sgd) WHITMAN A. HAINES,
Registrar of Probate.

STEEL OPERATIONS (U.S.)

For the week beginning May 1st, operations are scheduled at 47.8% of capacity vs 48.6% a week ago, a decrease of 0.8 of a point or 1.6%, according to the American Iron & Steel Institute. A month ago the indicated rate was 54.7% and a year ago 30.7% of ingot capacity.

WINNIPEG ELECTRIC

Gross earnings in March were shown at \$618,849 as compared with \$570,595 a year ago, an increase of \$48,254. Operating expenses and taxes at \$347,542 left net earnings of \$271,307, an increase of \$29,864 over those for the same month last year. Gross for the three months ended March 31st at \$1,961,044 showed an increase of \$110,901. With operating expenses and taxes at \$1,026,128, net earnings for the quarter were \$934,916, an increase of \$79,864 over the corresponding month of 1938.

B. C. PULP & PAPER

Holders of the 6% 1st mortgage sinking fund bonds approved at a special meeting amendments in the trust deed providing for postponement of interest and cancellation of sinking fund payments. The plan provides for postponement of semi-annual interest payments due from May 1st, 1939 to November 1st, 1940 inclusive, with interest at 6% to November 1st, 1942, and for cancellation of sinking fund payments falling due in the year 1939 to 1942 inclusive.

INT. BRONZE POWDERS

The Company's first quarterly business showed an increase of 35% over the same period last year, it is understood, and plants of the Company's various subsidiaries are operating at capacity. Productive capacity of the Valleyfield plant will be increased 75% by additions to cost approximately \$100,000 on which work will be started during the present week, and plant of the United States subsidiary at Closter, N. J., will be increased by an addition costing in the neighborhood of \$200,000. Construction of the plant additions will be financed by the recent sale of \$500,000 4% serial debentures, which mature over a period of five years. It is expected that the new Valleyfield addition will be in operation in about four months' time. The Company's dividend policy will be determined as earnings become available, it was stated.

COMMERCIAL ALCOHOLS

The Company's net earnings for the fiscal year ended March 31st, 1939 are reliably understood to exceed those of the previous year by a good margin, which would constitute a new record in Company history. It is estimated that the forthcoming report should show net earnings of approximately \$75,000 after depreciation, income taxes, etc. This would be equal to 30c per common share on each of the 180,000 no par value stock, after allowing for preferred dividend requirements, and would compare with earnings of \$48,930 or 16c per share for the previous fiscal period.

HOLLINGER CONSOLIDATED

Declared a dividend of 1% payable May 20th to shareholders of record May 6th.

SPY MYSTERY STILL UNSOLVED

NEW YORK, May 5 — Conviction of three men on charges of conspiracy to forge passports left still unsolved an international spy mystery.

A Federal court jury took less than three hours this week to convict Edward Blatt, lawyer; Ossip Garber, photographer; and Aaron Sharf, former clerk in the Egyptian consulate. Federal agents accused the three of being members of a ring that supplied faked passports to foreign espionage agents. They are liable to two-year prison terms and \$10,000 fines each.

Testimony failed to disclose the fate of Adolph Arnold Rubens, alias "Donald L. Robinson," and his American wife, Ruth Marie, who entered Russia on November 6, 1937, on forged passports supplied by the ring. Since then neither the woman nor her husband has been heard from. Their passports, aliases, testimony disclosed, were taken from the grave-stones of New Yorkers long dead.

ICE AGE BONES ARE UNCOVERED

CINCINNATI, Ohio, May 5.—The April floods uncovered the bones of several hundred Ice-Age animals in the noted fossil bed of Big Bone Lick, Ky., University of Cincinnati anthropologists, announced today.

Bones were found of such extinct animals as giant bison, wild horses, mastodons, a species of wild pigs and possibly ground sloths.

These animals roamed the Ohio valley at least 50,000 years ago. The skeletons were those of animals trapped in mud and quicksand.

RANCHER SET BROKEN BONES IN HIS OWN LEG

COVELO, Cal., May — Rancher Enoch Thompson believes that first aid, like charity, begins at home. When he fell from his horse in a lone canyon where he was herding cattle and broke his leg, he set both bones of the injured leg, held them in place for more than an hour before help arrived, directed temporary splints with the result that when he arrived at a hospital all the physicians had to do was to apply professional splints and wrappings.

FLOWERS BLOOM ON ICY PEAKS

WASHINGTON, May 5 — Within a few weeks flowers of the ice gardens of snow-capped Alaskan peaks and nearby coastal glaciers will burst forth in a riot of color under the Arctic sun.

These plants that grow in the ice and snow are called cryovegetation and little was known about them until Dr. Ersebet Kol, director of the botanical laboratory at the University of Szeged, Hungary, went to Mount McKinley National Park, Alaska, to direct an expedition for the Smithsonian Institution of Washing-

TO PRESENT KEY OF WASHINGTON TO KING GEORGE

WASHINGTON, May 5.—City Commissioner Melvin Hazen, breaking a long standing precedent, has decided that King George and Queen Elizabeth will be presented a key to Washington when they visit the capital.

"For years," said Hazen, "we have not presented keys to the capital, but I might say that it has saved embarrassment. One trouble has been that there are so many distinguished visitors to Washington. We would have been turning out keys like locksmiths."

"Congressman So-and-So would like a key given to Mr. So-and-So of his home town. Senator So-and-So wants a key given to Miss So-and-So of his state."

The new plan calls for the State Department's division of protocol having some say in deciding who gets the keys.

The Charleston, S. C., Azalea Queen Miss Caroline Palm, came into the capital early this week, and her Congressman sought a key for her. Hazen improvised one of pasteboard.

The keys the King and Queen will get, incidentally, will not be gold, but something that looks like it.

TO START ACROSS CANADA MONDAY

KAMLOOPS, B. C., May 5.—Miss Mary Bosanquet, daughter of an English squire who plans a horseback jaunt across Canada, returned here from a Douglas Lake cattle ranch this week and said she had purchased the horse she will ride across the continent.

Miss Bosanquet motored to Vancouver yesterday. She will start her long ride from New Westminster, May 8. She said that if the Hope-Princeton trail is passable, she will follow that route into the Okanagan district of British Columbia and thence on into Alberta.

Delay in purchasing her horse wrought cancellation of her original plan to start the ride from the show ring of a gymkhana at Vancouver, today.

Bar-Breaking Pleases Sing-Sing Convicts

OSSINING, N. Y., May 5 — A man who broke an iron bar with his bare hands at Sing Sing Prison brought more than 2,000 gleeful convict spectators to their feet, stamping and cheering but none escaped—or tried to. The bar-breaking was merely a demonstration by Charles Atlas, who teaches physical culture by mail. Prison officials did not say whether any convict had asked to enroll.

There Dr. Kol saw and studied the amazing sight of rich brown-purple flower beds atop glistening glaciers, greenish fields spreading from the terminal moraines up mountain sides of ice and the spectacular red snow. In the mountains above Juneau she found snow fleas, so thick that they lay like a gray-violet blanket over the snow fields to a depth of half an inch.

"Send It By Mail"

BROOKLINE, Mass., May 5—"I received a tag for parking overtime," a woman's voice reported over the telephone to Patrolman Stephen Tonra, "Am I supposed to bring it to the station in person?"

"Yes, ma'am, you must. Those tags can't be mailed."

"Well," said the lady, "I'd like to bring it back—only I have scarlet fever."

"Mail it, madam, mail it!"
