

Wait, Mother—Ask Your Doctor First

Never Give Your Children Unknown "Bargain" Remedies To Take—Unless You Ask Your Doctor. Unknowingly You May Be Risking Their Health—Just To Save A Few Pennies

A MOTHER may save a few pennies giving her children unknown, untried preparations. But the life of a child is precious beyond pennies. So—ask your doctor before you give any remedy you don't know all about.

When giving the common children's remedy, Milk of Magnesia, never ask for "Milk of Magnesia" alone—but always ask for "Phillips'".

Because for three generations Phillips' has been favored by many physicians as a standard, reliable and proved preparation—marvelously gentle for youngsters.

Many children like Phillips' in the newer form—tiny peppermint-flavored tablets that chew like candy. Each tablet contains the equivalent of one teaspoonful of the liquid Phillips', and a big box costs but 25¢ at your drug store.

A bottle of Phillips' liquid Milk of Magnesia costs but 25¢. So—it is a fact that anyone can afford the genuine. Careful mothers ask for it by its full name "Phillips' Milk of Magnesia."

'PHILLIPS' Milk of Magnesia

WHO SAYS ROMANCE IS DEAD

WINDSOR, N. S., January 25.—Who says romance is dead? At least two youths who live in this vicinity do not think so. While engaged in cutting Christmas trees for the American market, they each placed a note in a tree, telling they "would like to correspond with the young lady who gets this tree" and stating they were tall, dark, age 24, etc.

One got a reply with an invitation to correspond with a young lady of 21 years along with the gift of a silk shirt. The other received a note that the writer had passed the days of romance but was sending gift and her Christmas was made all the happier by knowing that the tree came from Nova Scotia, her native province. Considerable quantities of Christmas trees from Nova Scotia and also her sister province New Brunswick are exported each season to the United States, according to Canadian National Railway officials.

"It is becoming increasingly clear that peace by fear has no higher or more enduring quality than peace by the sword."—Franklin D. Roosevelt.

Japan Buys Needs In Larger Quantities

Products Classified as Needs Enjoy a Better Than Normal Business

TOKYO, Japan, January 25.—While many products which Canada formerly shipped to Japan cannot now be marketed due to exchange control regulations, other products classified as necessities are enjoying a better than normal business. In reporting this to the Department of Trade and Commerce, A. K. Doull, Assistant Trade Commissioner at Tokyo, states that while total imports of foreign products into Japan decreased by 25.3 per cent. for the nine months from January to September, 1938 as against the similar period of 1937, imports from Canada declined by only 15.7 per cent.

Mr. Doull's report, as published in the Commercial Intelligence Journal shows that Japan's total trade with Canada during the first nine months of 1938 was \$76,083,792 yen (one yen equals approximately 29 cents) as against \$2,576,278 yen for the similar period in 1937. Exports to Canada were valued at 10,539,792 yen as against 14,908,208 yen; and imports at 65,544,000 yen as against 77,768,070 yen. Japan had thus an unfavourable balance of trade with Canada during the period under review," states Mr. Doull, "amounting to 55,004,208 yen as against an excess of imports amounting to 62,959,862 yen in the 1937 similar period, a decrease of 7,955,654 yen.

"When indirect exports from Japan to Canada and vice versa are taken into consideration, the total trade between the two countries would undoubtedly be much larger. While it is known that Canada purchases annually large quantities of Japanese raw silk directly from New York, information concerning indirect exports to Japan from Canada is not available. Nickel, copper, asbestos, hides and skins, and furs from the Dominion have in the past reached Japan via other countries. It is probable, however, that Japan's indirect shipments of raw silk to Canada would be greater than Canada's indirect exports to Japan and would thus reduce to some extent the apparent unfavourable balance of trade which Japan has with Canada."

\$50,000 MODEL OF ST. PETER'S TO BE AT FAIR

SAN FRANCISCO, Jan. 24.—An elaborate scale reproduction of the Cathedral of St. Peter's in Rome will be on exhibition at the California World's Fair on Treasure Island. It was revealed as part of the model arrived in San Francisco.

The beautiful structure, shown to millions 45 years ago at the World's Columbian Exposition at Chicago, will make its second bow in the United States on February 18 and 19 at the Western World's Fair Premiere.

The reproduction, one-sixteenth the size of St. Peter's Cathedral, was begun in the sixteenth century, completed in the eighteenth century, and is valued at a half million dollars. It is exact in every detail and was built under direction of several popes.

The entire reproduction, carved of wood, is regarded as one of the most remarkable bits of artistry of the period of its construction. The model will be housed in the Holy Land concession on Treasure Island.

B. Y. P. U. Meets

FREDERICTON, JUNCTION, Jan. 24.—The B. Y. P. U. last evening had an attendance of 19. Group A, after devotional exercises, presented following programme: Readings from Jeremiah—Ivy Tracy, Reta Burnett; papers on Jeremiah—Roselind Redstone, Margaret Seeley, Mary F. A. Alexander; readings—Katherine Alexander, Margaret Seeley; paper on John Wycliffe—Reta Burnett; paper on John Wesley—Margaret Seeley; paper on Martin Luther—Ivy Tracy; chorus—Misses M. Alexander, I. Tracy and Audrey Phillips.

A question and discussion period followed, the subjects being the authorship of certain books of the Bible. Card and dancing were also enjoyed.

BIG MONTANA RANCH EXHIBIT AT S. F. FAIR

SAN FRANCISCO, California, Jan. 25.—A great Montana ranch has been "moved in" on Treasure Island in San Francisco Bay. With it came the romantic history of the days of the Pony Express.

This ranch will be the official exhibit of Montana at the Golden Gate International Exposition, Robert H. Fletcher, traffic planning engineer for the Montana State Highway Department, revealed.

The theme of the vast display which will be housed in the Hall of Western States will be a ranch house which will occupy 2,000 square feet of floor space.

Rustic, and made of rough hewn logs, the house will depict the life on Montana's vast acres. One complete end of the building will be devoted to a diorama which will tell the romantic history of the Rocky Mountain state, and windows, instead of looking out onto other Treasure Island scenes, will be dioramas telling other features of Montana, including the part this state played in the building of the West, in Pony Express days.

Outstanding Montana painters, artists and sculptors have completed the gigantic diorama for the end of the ranchhouse. They have shown historic trails, mines, ranches, settlements, stage coach scenes, and described with their art the lure of the broad fertile areas and high mountain reaches of Montana.

Canada's Largest Park At Its Best For Royal Visit

MONTREAL, Quebec, Jan. 25.—"Jasper will be at its very best when Their Majesties, the King and Queen reach there on June 1 to remain for a rest period during their return journey Eastwards," said R. S. Somerville, Manager of Jasper Park Lodge, who is now in Montreal on a business trip.

"Ski conditions are excellent this season within Jasper National Park," continued Mr. Somerville. "There are fine trails from Jasper Town on the main line of the Canadian National Railways, and in this the enthusiastic members of the club have given their time and labor to clear and mark the neighboring runs."

During the season of 1938, Mr. Somerville said, the patronage of the lodge increased by ten per cent. He further stated as evidence of the appeal of this beauty spot in the heart of the Canadian Rockies, reservations for the season of 1939, have already assumed large proportions, particularly for August.

Blueprints for Blue Bloods

By Frances Lee Barton

A hot savory oyster dish is a great comfort to the inner man—and woman—on a raw, cold day. And if you want the assembled family to sit up and take notice you'll walk into the dining room some dinner-time bearing a Blueprint Pie!

In order to match the delicious filling, the crust must be simply perfect. For perfect pie crust, you can depend on that wonder worker, double-acting baking powder.

Blueprint Pie

2 cups sifted flour; 2 teaspoons double-acting baking powder; ¼ teaspoon salt; 6 tablespoons butter or other shortening; ¼ cup milk (about); 2 cups drained oysters; ¼ teaspoon salt; dash of cayenne; 6 tablespoons melted butter. Sift flour once, measure, add baking powder and salt, and sift again. Cut in shortening. Add milk gradually, stirring until soft dough is formed. Turn out on slightly floured board and knead 30 seconds, or enough to shape. Roll ½ of dough ¼ inch thick; line a 9-inch pie plate, allowing dough to extend ½ inch beyond edges of plate. Fold inward even with rim of plate. Fill with oysters; sprinkle with salt, cayenne, and butter. Roll other half of dough ¼ inch thick; with sharp knife make slits to permit escape of steam. Fit over oysters, pressing edges together with floured fork. Bake in hot oven (450° F.) 30 minutes. Serves 6.

CANADIAN POTATO CROP

The following is the third estimate of 1938 potato production, together with values, as released by the Dominion Bureau of Statistics on January 20:

	Area	Yield	Total	Average	Total
	Acres	cwt. (000)	cwt. \$ per cwt.	(000)	
Prince Edward Island	24,300	112.0	3.842	0.68	2,613
Nova Scotia	21,300	72.0	1.526	1.00	1,536
New Brunswick	50,900	80.0	4.072	0.90	3,565
Quebec	139,900	71.2	9.957	0.83	5,363
Ontario	146,200	51.0	7.456	0.78	5,216
Manitoba	31,900	60.0	1.914	0.50	957
Saskatchewan	50,600	65.0	2.289	0.44	1,447
Alberta	28,200	74.0	2.087	0.37	772
British Columbia	13,700	96.0	1.795	1.10	1,975
Canada	521,900	69.0	35.938	0.75	27,079

OLDEST TWINS ON CONTINENT LIVE AT TRURO

TRURO, N. S., January 25.—Probably the oldest twins on the continent, if not in the world, are Mrs. Melitable Brenton of this town and Mrs. Rhoda Dartt of Pleasant Valley, who are 97 years of age. They were recently invited to appear on Ripley's "Believe it or not" programme but the twins felt they could not make the trip to New York. If they had, it would have been the first time they had been out of their province of Nova Scotia during their long lives. The climate of this portion of Canada is conducive to long life as shown by the number of people who reach 80 and 90 years and even top the century mark.

The golden Phoenix, which tops the 400-foot Tower of the Sun on Treasure Island at the 1939 California World's Fair, weighs 5,000 pounds.

CLEARs STUFFY HEAD

Helps Prevent the Development of Colds, too

NOW, it's easy to relieve head cold discomfort. Just put a few drops of Vicks Va-tro-nol up each nostril and feel the tingling as Va-tro-nol's stimulating medication reduces the swollen membranes, clears away the clogging mucus, helps to keep the sinuses from being blocked by the cold—lets you breathe again.

NEXT TIME, don't wait until your head is all stuffed up. At the first warning sneeze or sniffle, use

Va-tro-nol at once—it helps to prevent many colds from developing. Va-tro-nol is specialized medication—expressly designed for the nose and upper throat where most colds start. Used in time, it stimulates Nature's own defenses to fight off many a cold, or to throw off head colds in their early stages.

MR. PICOBAC'S CRONIES

PRESENTING LES SHARPLES, PROPRIETOR OF THE ONLY AND ORIGINAL TWO-CHAIR BARBER SHOP IN ESSEX CENTRE.

"Listen, Mr. Picobac."

said Les

Razor in hand, Les Sharples, proud proprietor of the original two-chair barber shop of Essex Centre, paused and declared, "Nobody trusts a mugwump. You never know which side of the fence he is on."

"I'm not talking about mugwumps," replied Mr. Picobac brushing the blue smoke aside. "I'm talking about keeping an open mind. An M.P. should vote and smoke as his conscience guides."

"You always smoke the same kind of tobacco, I notice," continued Les.

"You bet I do," rejoined the Burley philosopher. "I smoke Picobac, the pick of Canada's Burley Crop, grown in Sunny Southern Ontario. I like a mild . . . cool . . . sweet smoke. The more I smoke it, the better I like it. But I'm open-minded. You show me anything better and I'll try it; but you can't do it."

Have you tried Picobac Sliced Plug - vest pocket tin 15c

Have YOU Smoked a Turret Lately?

If you haven't smoked a Turret lately, why not consider trying a package today? By accepting that simple suggestion, many, many smokers have gained an entirely new idea of how good and how satisfying a cigarette can be. Your experience may be the same, because you'll find Turret an unusual cigarette—a cigarette that is milder and cooler, with an original and unique blend of Virginia tobaccos which makes Turret just that much better, just that much different. Even the Turret package is better—it has a handy calendar on the back to keep you up-to-date!
