

BISHOP MAKES FIRST VISIT TO WOODSTOCK

WOODSTOCK, April 27.—His Lordship W. H. Moorhead, of Fredericton, paid his first official visit to Woodstock last week when he administered the rite of confirmation at St. Luke's Church. Bishop Moorhead preached a confirmation sermon from the text: "Blessed Are the Pure in Heart, For They Shall See God."

After service a reception was held in the Parish Hall at which Bishop and Mrs. Moorhead were welcomed to the church by the rector, Rev. J. T. Ibbott, to Christchurch Parish by the senior churchwarden, A. E. Raymond, and to the town by Mayor A. R. Turner.

A beautiful bouquet was presented Mrs. Moorhead by Miss Marjorie Spear on behalf of the ladies of the congregation.

Members of the confirmation class were: Miss N. A. Fox, Mrs. B. C. Tisdale, John Robert Carr, Mary Helen Winslow, Dorothy Marley Jones, Mary Alice McLean, Mary Lillian Stanbridge, Lois Holland Smith, Mary Elizabeth Dibblee, Dorothy Patricia Gibson, Dorothy Daphne Mitchell, George Benjamin Griffith, Rickard Vance Jones and Charles Glendon Kelly.

WORLD'S FAIR TO SHOW TOMORROW'S SERVICE STATION

The architect has been enlisted by the petroleum industry in a campaign to present its most attractive front to the millions of world's fair-bound motorists this summer. With this aid the service station has been streamlined, modernized, redesigned into a smart, attractive retail service institution. Lavish use of color and

"What the people really want, they generally get," Charles E. Hughes.

"The purest form in which tobacco can be smoked."

BELIEVE HUGE MURDER RING IS EXPOSED

PHILADELPHIA, April 27.—Aided by the admission of an immigrant Italian housewife that she poisoned three men to collect their life insurance, Assistant District Attorney Vincent McDevitt believes he soon will have the complete story of a murder-for-insurance ring that operated in at least four eastern states. Authorities say that they have evidence that "scores" were victims or the assassins.

"The court is determined to break up a practice that is wider than we know," said Judge Edwin O. Lewis Friday, after Mrs. Carina Favato pleaded guilty to three murders.

Police have hinted recently that they will make other arrests soon, including a woman they described as "a professional widow."

Mrs. Favato interrupted her trial to plead guilty to a charge of poisoning her stepson, Philip Ingaro, 17. She also assumed blame for the deaths of her common-law husband, Charles Favato and Giuseppe Di Martino. Three judges heard the testimony against her and will decide her punishment.

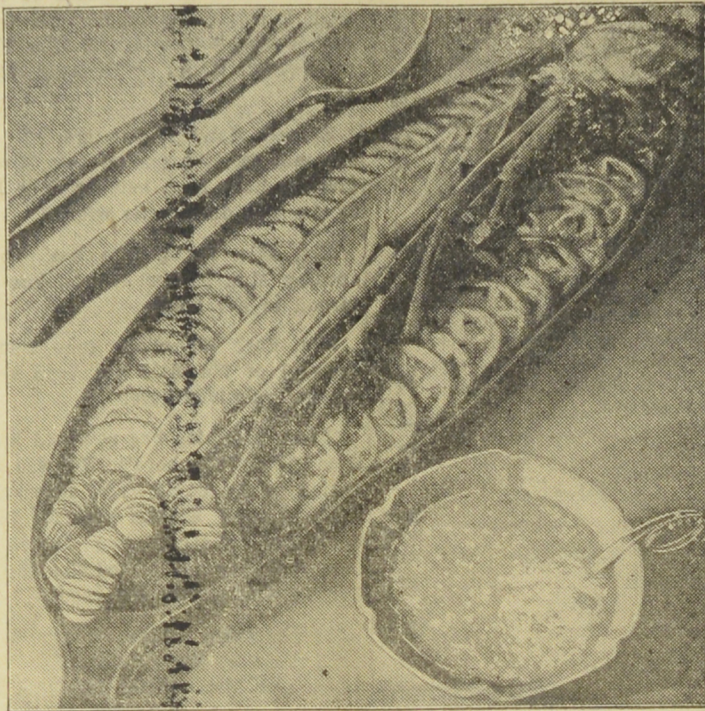

adapation of the building materials and installation of high-speed mechanized equipment have made today's service station a preview of the colorful structures featured at the New York and San Francisco world's fairs. Most of the new station designs are of the modern, functional type of architecture, but Colonial and English cottage types provide attractive architectural contrasts. Whenever possible the architect has merged station design into its natural surroundings.

Steel, stucco, glass tile, glazed brick, porcelain enamel and wood are used in their most effective designs. Colors range from white through yellows, reds, greens, blues, and all their combinations. Neon lights, flood lights, and indirect lighting add to night beauty.

Run (don't walk) to the Spring Salad Bowl

(BY DOROTHY GRIEG)

It has always seemed to me that people who eat plentifully of green salads are much more agreeable and good humored than those who don't.

Chiffonade Tomato Dressing glorifies and dresses up a salad of young raw vegetables

And why wouldn't they be, all filled up with the vitamins and minerals that come in salads?

At any rate, there's no gainsaying that salads are good for one and all... and springtime salads seem to excel all others in flavor and freshness.

Succulent endive, chicory and lettuce, sharp little scallions, crisp young cucumbers and all the other vegetables of the season belong in salads.

To glorify a salad, select the salad dressing with care. A well chosen dressing binds and blends the flavors of the various ingredients into one harmonious whole.

Here is one, for instance, that is particularly happy with vegetable and green salads:

Chiffonade Tomato Dressing

- 1 tablespoon yellow mustard
 - 1 teaspoon salt
 - 3 tablespoons sugar
 - 1/2 teaspoon pepper
 - 1 tablespoon grated onion
 - 1 cup oil (olive or salad)
 - 1/2 cup vinegar
 - 1/2 can condensed tomato soup
 - 1 tablespoon green pepper, finely chopped
 - 1 tablespoon pimiento, finely chopped
 - 1 hard cooked egg (white finely chopped yolk pressed through a sieve).
- Combine the mustard, salt, sugar, pepper and grated onion. Blend in the oil and let stand 10-15 minutes. Add vinegar and tomato soup. Beat well until the dressing mixture is thick and well blended. Then add the green pepper, pimiento and hard cooked egg. This makes approximately 2 1/2 cups of dressing.

This next one is delicious with fresh fruit salads because it is thick and creamy and its cheese flavor lies mellow on the fruit.

Rosy Cream Cheese Dressing

- 1 package of cream cheese
- 2 teaspoons of lemon juice

Here's One For Soup Makers

Says Dorothy Greig
In making vegetable soup at home,
Remove all trace of doubt;
Put in a can of soup (condensed)
To sort of round it out.

The little stunt of adding a can of condensed vegetable soup to your own soup does wonders to enrich its flavor and give it heartier substance.

Along the same line is the thrifty suggestion of simmering the bones of Sunday's roast and then adding condensed soup to the resulting stock. The proportions are: 1 can of condensed vegetable soup to every 1 1/2 cans of beef stock, using the soup can as a measure. Or, as a variation, use condensed tomato soup in place of the vegetable soup. That's good, too.

- 1/2 teaspoon of salt
- 3/4 cup salad dressing or mayonnaise

1/2 cup condensed tomato soup
Cream the cheese and to it add the lemon juice and salt. Blend in the salad dressing or mayonnaise and the condensed tomato soup. This is delicious and colorful with fruit or green salads.

CHEMISTS PLAY BIG PART IN CAR'S SERVICE

To chemists in their laboratories goes much of the credit for the great reduction that retail car prices have seen in the lifetime of most of us. Between 1925 and 1937 the retail price of automobiles has dropped about \$300 per vehicle, while at the same time bigger and better cars have been put at the disposal of the motoring public.

Good rubber tires, high grade alloy steels, and practically every other element that goes into the making of an automobile are either chemical or metallurgical products, or they have chemistry involved in their manufacture. Gasoline, oil, and, in some cases, even the water in the radiator, is treated chemically to make it more efficient as a servant of the car driver.

About one-fourth of all the industrial research laboratories on this continent are maintained by the automobile industry or by the makers of materials used in motor cars. In those laboratories thousands of trained men are devoting all their energies to the production of better, bigger, and more attractive automobiles.

WINNING CONTRACT

By the Four Aces

(David Bruce Burnstone, Merwin D. Maier, Oswald Jacoby, Howard Schenken, world's leading team of four, inventors of the system that has beaten every other system in existence.)

WATCH THE SPOTS

North, Dealer
East-West vulnerable

♠ A 8 3
♥ A K J 10 6
♦ 5 4 2
♣ A 7

♠ 9 6 5
♥ 8 7 4
♦ K Q 10
♣ 6 2

♠ K 7 4
♥ 9 5 2
♦ 9 8
♣ K Q J 10 3

♠ Q J 10 2
♥ Q 3
♦ A J 6
♣ 9 8 5 4

The bidding:
North East South West
1♥ Pass 1♠ Pass
2♥ Pass 3NT Pass

While East might have saved the situation that developed by putting in a two-club overcall after the opening heart bid, his hand was far too weak to justify this bid, especially as he was vulnerable.

Against the three-notrump contract West opened the King of diamonds and East naturally played the eight. When Declarer quickly dropped the diamond six, West led another diamond. After all, hadn't his partner given him the encouraging eight on the first lead? Declarer won the trick with the Jack, then took a losing spade finesse, but nevertheless wound up making five-odd.

Needless to say, West's second lead of diamonds was about as bad a play as we have witnessed. While ordinarily the eight is a rather high card, in this particular case it was actually the lowest diamond missing. West could have ascertained this fact very

easily by glancing at the three small diamonds in dummy. Thus the play of the diamond eight by East was definitely calling for a stiff, which could only mean clubs. A club shift at trick two would still have had to take the spade finesse as the only way of procuring his ninth trick.

Yesterday you were Oswald Jacoby's partner and held:

♠ Q 10 2
♥ x x
♦ A J x x
♣ K x x x

Both sides vulnerable. The bidding:
Schenken Jacoby Maier Maier
Pass 1♠ Pass 1♥

ANSWER: Your correct bid is two diamonds. Your hand is too strong to bid only two spades; too weak for the game-forcing raise to three spades. This called a compromise bid.

Score 100% for two diamonds, 70% for two spades (an underbid), 70% for three spades (an overbid), 0 for any other bid.

QUESTION No. 113

Today you are Merwin Maier's partner. Both sides are vulnerable and your hand is the same as yesterday's but the situation is different. You hold:

♠ Q 10 4
♥ x x
♦ A J x x
♣ K x x x

The bidding:
Schenken Burnstone Maier Schenken
Pass Pass 1♠ 1♥
(?)

What do you bid (tomorrow.)

If you desire the pocket outline of The Four Aces system of Contract Bridge, send with your request to The Four Aces, c/o The Daily Mail a stamped (3c), self-addressed large size envelope and you will receive an outline without any charge.

FOR HEAD COLDS

A few drops bring comforting relief. Clears clogging mucus, reduces swollen membranes—helps keep sinuses open.

VICKS VA-TRO-NOL

"I'M PLANTING EXTRA ACRES THIS YEAR"

BECAUSE," Farmer MacDonald explains, "the chain stores are selling more of my potatoes in the Upper Provinces every year!"

Local producers of such products as potatoes, fish, pork, poultry, butter, fruit and eggs fully appreciate what the chain stores are doing for them. They value their opportunity to sell to the chains increasingly large amounts of produce for cash.

Local consumers, too, appreciate their opportunity to get at the chain stores fresher, newer merchandise, later styles and a thousand and one helps to a higher standard of living—all available at a price the average family can afford to pay.

We think you'll agree that provincial producers need the hundreds of thousands of dollars annual income they get from the chain stores; and that consumers need the opportunity afforded by the chains to live better and at the same time, spend less.

Any special chain-store taxes are really taxes on your every-day necessities. They tax YOU as both producer and consumer.
