- 12.00—Ben Cutler's Orchestra

Proposes To Do Better  
For Wheat Growers

REGINA, April 13.—"Canada is proposing to do better for her growers than any other country," said Hon. James G. Gardiner, Federal Minister of Agriculture, here.

Mr. Gardiner in a review of the Federal Government's new wheat policy, spoke over a Prairie network of the Canadian Broadcasting Corporation.

The new policy calls for an initial price of 60 cents a bushel No. 1 Northern wheat, basis Fort William, continuation of the Federal Wheat Board and an acreage bonus plan.

Only one country still operated with a fixed price, the Agriculture Minister said. That was Argentina. In Australia there was a processing tax, an acreage bonus and a price bonus "but all three combined do not average as high as the provisions of our legislation."

The United States was making provision for assistance conditional upon acreage reduction.

"We are laying the foundation in Western Canada for a policy which can be applied to all agriculture," Mr. Gardiner declared.

The Minister emphasized there was no mention of a 60-cent fixed price in any of the farm legislation now before Parliament.

## NOT PERMANENT

"The Government has taken the stand that a fixed price cannot be part of permanent Government policy," he said.

The new agriculture plan met Western requests for crop insurance and for continuance of the Wheat Board to handle the emergency of surplus wheat and unsettled European conditions. It has not met requests from an 80-cent guarantee because such a plan would pay out to most successful farmers and gave little benefit to the farmer whose need was greatest.

"We are not land miners," he declared. "We are home-builders."

Mr. Gardiner referred again and again to the term "home building," stressing advances to the smaller farmer.

"If it appears to those who live in the West about the eastern, northern and western rim of the great wheat growing area, that they may not get as great returns from the wheat provisions as those on the open prairies, I would answer:

## NOT ALL WHEAT

"Wheat does not form as great a part of the cash product of the farm in those areas. Livestock, dairy pro-

ducts, coarse grains and all other products are being or may be under the other legislation of the government. Our policy is one for every part of agriculture.

"We have benefitted greatly by our association with the other provinces of Canada in our time of need. We intend to continue in that association. We will join hands with agriculturalists everywhere in Canada asking only temporary solutions for temporary problems but applying principles of co-operative effort to the solution of our fundamental difficulties.

"The Government has not set a price," said Mr. Gardiner. "The government has agreed to make an advance of 60 cents, basis, Fort William, they have stated to you there will be no interest added. There will be no storage charge. There will be no selling you out . . . this is not a fixed price. This is an absolute guarantee of your credit."

TRAPLINE PLAYS  
COLLEGE COSTS

JOHNSTON, Conn., April 13 — Francis Dansereau, 22 a sophomore at Rhode Island State College, earns more than enough to pay his college expenses and run his car by trapping fur-bearing animals.

Taught the art of trapping while in grammar school by his grandfather, in the Hudson Bay region, he put the knowledge to test when he needed money.

During the open season on muskrats—Nov. 1 to Feb. 4 Dansereau gets up daily at 3.45 a.m., eats his breakfast and starts toward Kingston, visiting the traps he has set all the way between Johnston and Kingston.

He collects the muskrats, throws them into his car, and heads for the classroom. He hustles home about 5 o'clock, skins the rats and mounts the pelts, and then studies a while before going to bed.

During the off season he traps foxes and skunks, but the profits from these pelts is not so great.

As for getting up early he says, "It's fun after you get used to it."

"The United States has today the leadership in the world's cultural and spiritual struggle for peace."

—Eduard Benes.

JACK ROGERS TO  
RETURN TO AIR  
THURS. NIGHT

Jack Rogers, formerly well known to Maritime listeners as the Raconteur of the Circus, returns to the national network of the Canadian Broadcasting Corporation in the same capacity this week. Following a lay-off of several months, "Under the Big Top" will be resumed from CBR, Vancouver, beginning Thursday evening, April 13th, and will be heard through C F N B, Fredericton, each week at 8.45 p.m., Atlantic Standard Time. Programme make-up, Rogers says, will be similar to that used in the former series, except that the new series will devote some attention to the origin and growth of the circus as a North American institution.

Shilling Tripled  
In 65 Years

LONDON, April 13 — C. Andrews, 79, of Clapham, has just drawn 3 shillings (75 cents) from a 65-year-old bank account, which has only one entry—one shilling.

Sixty-five years ago, when he went to sea, his mother gave him a shilling and told him to put it in the Post Office Savings Bank. He did, and forgot all about it, until recently when he read in the paper that the Post Office had about \$20,000,000 in small accounts that had been forgotten.

Says the Fascists  
Are Partitioning  
Yugo-Slavia

LONDON, April 13 — The diplomatic correspondent of the Manchester Guardian reported Tuesday that Germany and Italy had agreed on the "partitioning" of Yugoslavia.

The correspondent said the totalitarian partners had agreed that Germany would dominate Croatia and Italy would control the Dalmatian coast.

The Croats recently have been pressing demands for autonomy but last week were understood to have reached an agreement in principle with the Dominant Serbs.

The Guardian's correspondent also complained of "silent censorship" imposed on the British press during the recent European developments.

"While foreign journalists are well informed and maintain close contact with their own Governments and embassies, the British press is being fed on platitudes, generalities and evasions," he said.

## OF THE REGIMENTS!

The Crimean War introduced cigarettes to Englishmen. Some tales have it that the soldiers were so badly off for everything, including pipes, that they rolled in cartridge paper any tobacco they could beg, or any dried leaves that would smoke. Certainly they were in a desperate plight. Legend has it that Florence Nightingale, as she walked the hospital wards, lamp in hand on her ceaseless errand of mercy, would light the cigarettes of the sick and wounded.

But it was the Great War which taught the world the convenience of the cigarette and made it everybody's smoke. One army commander reported to his war office, "Tobacco is as indispensable as the daily ration; we must have thousands of tons of it without delay".

To supply the demand for cigarettes and other forms of tobacco, Canada has built up a great industry—tobacco growing, manufacturing, distributing—an industry which is a vital factor in this country's progress and prosperity.
