WINNING CONTRACT

By the Four Aces

(David Bruce Burnstone, Merwin D. Maier, Oswald Jacoby, Howard Schenken, world's leading team of four, inventors of the system that has beaten every other system in existence.)

YESTERDAY'S PROBLEM SOLVED

Yesterday you were Howard Schenken's partner and held:

♠ K x x
 ♥ J x x
 ♦ A x x x
 ♣ Q 10 9 x

Neither side was vulnerable and the bidding went:
You Jacoby Schenken Burnstone
Pass Pass 1♠ 2♣
(?)

ANSWER: Double. This is known as a "cheap" double. Your hand should take three tricks defensively. If your partner supplies only two, the opponents will score 80 points. But if partner has a good hand, you will garner a sizeable penalty.

Score 160 per cent. for double, 60 per cent. for pass, 20 per cent. for two notrump (a very bad bid).

Question No. 41
The dealer, David Bruce Burnstone, is your partner today. You hold:

♠ A K 10 8 5
 ♥ x x x
 ♦ x x x
 ♣ x x x

You are vulnerable. The bidding:
Burnstone Maier You Jacoby
1♥ Pass 1♠ Pass
2NT Pass (?)
What do you bid? (Answer to-morrow.)

TODAY'S HAND

East Dealer
Both sides vulnerable
North-South 40 on score

♠ 10 8 3
 ♥ 6 5
 ♦ J 10 8 7 2
 ♣ A K 4

♠ J 7
 ♥ K Q 9 4
 ♦ Q 5
 ♣ Q J 6 3

♠ A K 9 6 5
 ♥ J 10 8 3
 ♦ 6 4
 ♣ 7 2

The bidding:
 East South West North
 1♣ 1♠ 2♣ 2♠
 3♣ Pass Pass 3♠
 Pass Pass Dbl. Pass

North thought that he could steal the rubber. His first raise of his partner's spade overcall was fair enough, but when East went to three clubs and South failed to rebid, North should have been content to let his opponents play their partial-score contract. Now West made a fine double and even better opening—a small trump. Declarer, hoping to ruff at least one heart in dummy, led a club to the King, but when a heart was played, East jumped right in with the Ace and returned a trump. Unable to obtain any heart ruffs, Declarer was held to four trump tricks and the two top clubs. The 800-point penalty was suffered because North insisted upon making a hopeless effort to romp off with the rubber.

North should have realized that his partner, as well as he, knew that there was a partial score to their credit. South's failure to rebid should have been sufficient indica-

Former Resident
Is Laid To Rest
At Devon Today

The death occurred Wednesday at Annapolis, N. S., of Alex Allen, aged 77 years, former resident of Devon. Born in Penniac Mr. Allen resided at Annapolis for many years. He is survived by his wife; one daughter, Mrs. F. P. True of Chipman, four sons, Harold and Otis of Toronto, Clarence of Annapolis, N. S., and Lloyd of Pasadena, California; four brothers, George Allen of Fredericton, William, Moses and Ernest of Penniac; two sisters, Mrs. Margery MacDonald and Mrs. William Wister of Marysville. The body arrived in Fredericton last night and was taken to the Pentecostal Church, North Devon, where service was conducted this afternoon at two o'clock by Rev. Mr. Cole. Interment was made at Marysville.

tion that his hand was mediocre.

If you desire the pocket outline of The Four Aces system of Contract Bridge, send with your request to The Four Aces, c/o The Daily Mail a stamped (3c), self-addressed large size envelope and you will receive an outline without any charge.

SUB-COMMITTEES
ARE NOW AT WORK
ON CURRICULUM

Appointment of Fifteen Committees Announced This Morning

Some 15 sub-committees of two general curriculum committees are now engaged in gathering data and studying conditions in relation to revision of New Brunswick's school curriculum. Approximately 100 teachers are engaged in the survey and are working voluntarily in a democratic approach to the problem of revamping the province's lists of text books.

Most of the members of these sub-committees were notified of their selection this month. Dr. Fletcher Peacock, Director of Educational Services for New Brunswick, announced this morning.

Names of these teachers have been submitted to various book publishers who have text books to offer the Department of Education, and books are being sent the teachers for study with a view to suggesting any changes to bring the books in line with the necessities of education in this province and for the selection of books most suitable. New books will be chosen for the curriculum from among those approved by the sub-committees.

The next meeting of the general curriculum committee will be held some time in March.

Dr. Peacock returned this morning from Campbellton where he addressed a combined meeting of the Rotary and Gyro Clubs on Wednesday evening. A survey is being made in Campbellton of unemployed youth and the possibility of placing them in suitable positions. A committee has been appointed to deal with apprenticeship and training with the purpose of trying to relate boys to available jobs by proper training. The unemployment problem is considered as a local problem in Campbellton, Dr. Peacock said.

WAR

(Continued from Page One.)

"In a war everybody loses, but formerly it was possible for one side to think—for a year or two—that it had won," concludes Shaw. "The single redeeming feature of the next world war, when it happens, is that this will not be possible. In reflecting upon that, perhaps you may find some particle of hope."

NEW HAVEN, Jan. 27.—A war-worn group of 270 Canadians under the command of Major E. Cecil Smith of Toronto landed in Liverpool today. The demobilized veterans of the International Brigade are among the last of the foreigners who were assisting Spanish Loyalists forces. Major Smith stated, "We are not leaving Spain because we want to, but because we have to."

OPPOSITION

(Continued from Page One)

teachers. The school board might find itself tangled in a maze of harrying details that would surely lead to complications in the whole school system.

Those that favour the move say that if the plan should go through and grades 9, 10 and 11 are included in the Marysville school curriculum attendance will increase. They point out also that there are always some who are reluctant to welcome any change, admonishing them for allowing custom and sentiment to blur their better judgment. They instance the case of the present school building; at the time of its proposal it was protested against by a great number of the ratepayers and had it not been for the progressive spirit of the then council it might never have been erected. How can it be known whether the plan would work until it is tried? But it is not an experiment, the idea is practical in other smaller communities. There is no reason to believe it would not work in this town. Parents do not like to have their sons or daughters away all day long, week after week. It would also relieve to some extent the conditions at the Fredericton High School which it is understood is rather crowded. Then there would be the saving to the parents of this year's students, next year's students and on. They are strong in their avowal of the soundness of the plan and they predict that in a few years it would be a practical smooth working system.

HOME, SCHOOL

(Continued from Page Eight)
and specialists in the field of education.

Reports heard at the National Convention showed good progress in all provinces in Canada in activities.

Mrs. Menzies gave a brief history of the movement dating from its inception in the United States, in February, 1897, and its spread throughout the world with 33 countries now represented in the International Federation of Home and School. She emphasized the fact that these associations provide opportunity for Parent Education along the lines of child care and training in the homes, as well as for educational cooperation with the schools.

During the discussion period Mrs. D. C. Tompkins read an article entitled, "Stand Behind Your Child." The article, placed emphasis on such attitudes as confidence, the fact that a child rarely fails because of lack of ability, that he must have interesting and stimulating work, and an incentive for effort. These questions brought forth keen interest and discussion followed on questions regarding the standards in Fredericton, the matter of the opportunity classes, the vocational classes, and university requirements.

ICE HARVEST

Although small cuts of ice have been hauled to ice sheds in the city, the larger ice harvesting activities will not get under way until the first of the week, it was learned this morning. Ice harvesters in Fredericton have been awaiting the coming of snow before undertaking any heavy cutting.

BENNETT

(Continued from page one)

realize you cannot run into debt without bearing the burden and paying the price."

He contended that, coupled with the will to deal with the problems of unemployment and development of resources, there is an urgent need of an ordered plan of immigration, and made an appeal for the millions of homeless Hebrews persecuted in dictator countries.

"The government says, 'We're a Christian people. We won't let Jews in.' Do you tell me there is not some obligation on our part to provide a quota to care for some of these people—some of these millions who are homeless because of race?"

He thought many refugee Hebrews of the right type might well be settled in Canada.

"The railway problem was written in three statutes," said Mr. Bennett. "You decided you were going to have three transcontinental railways in this country with less than 10,000,000 people. Who did it? The Parliament of Canada—the men who represented you. Therefore, you did it."
