of COLDS and COUGHS**

## Our African Letter

DURBAN, South Africa, April 15—In at least one important particular Natal, in common with the Republics of South Africa, regards Great Britain as a foreign country. That is in respect of the Bill of Exchange.

A Bill of Exchange drawn on Great Britain is a foreign Bill under Natal law. It is a quaint piece of irony that the province of the Union where the Imperial tradition is strongest and where British sentiment is cherished ore deeply than elsewhere should have on her statutes a clause which explicitly and definitely makes Great Britain a foreign country in this respect.

The Bills of Exchange Acts of 1887 is the offending Statute and the relevant clause reads like this: "An Inland Bill is a Bill which is or on the face purports to be both drawn and payable within the colony of Natal. Any other Bill is a Foreign Bill."

There is no modification or palliative. Bluntly any instrument that is not of the soil is foreign.

CAPETOWN, South Africa, April 15—To be owned, or not to be gowned! That is the question vexing the undergraduates in Capetown today. Objection to the use of the gown has reached the length of challenging the disciplinary authority of the University.

It is not only at Groot Schuur that this authority to the usages of other countries is shown. University life in Johannesburg is characterized by a slackness and disregard of appearances among the young men that is only redeemed by the spruceness of the girls who are competing with them in every branch of the professions.

The gown is decidedly unpopular in Johannesburg. Not only is it "not done" during term but men will go into the examination room in veritable ratcatcher's apparel and finding even their easy sporting attire too restrictive, they will proceed to divest themselves of coat, waistcoat (if they wear one) collar and tie, and in their remaining trousers, socks, shirt and shoes get down to the arduous business of evading the examiner's snares.

Any imported habit not of his own selection is irksome to the young man of the Dominion and his determination to find self-expression in some form or another is often worthy of a better cause, as he does not seem to realize that his sole source of inspiration is the screen, and the screen of the United States at that.

POTGIETERSBURG, South Africa, April 15—There is plenty of moonshine liquor in South Africa.

While there is no prohibition for the white man, the black and the colored can only satisfy their wants illicitly. In the towns this is met from the resources of the wine and brandy farmers of the Cape, but in the countryside of the Transvaal, which is chiefly populated by the black, the Boer has turned to bootleg liquor on a large scale.

In days gone by he has always distilled his own brandy and liqueurs from his peaches and his tangerines and when the Government in the interests of the Treasury and the Bottle Stores, wanted to limit his activities, it found itself compelled to stipulate a definite allowance of alcohol which should not be subject to excise. This was fixed at thirty gallons a year, a fairly liberal ration at things considered.

Now to maintain the law involved a system of continuous inspection for there are more than four thousand licensed stills in the Transvaal and it is not possession of the still which is illegal but the production of more than thirty gallons of spirit. There is only one clue to the quantity of spirit distilled and that is the residual

mash and there is nothing more easily disposed of where pigs abound.

The moonshine liquor, or mampoer, as it is called, is served to natives of all ages and even to children and complaints are rife of scholars attending school quite drunk.

The Government professes itself able to stamp out the evil, but with this starting handicap of legalized stills and thirty gallons free it does not seem feasible that the excisemen will make much headway.

OTJIWARANGO, South Africa, April 15—Can twins have two fathers? According to a recent ruling in a German Court, after blood tests had been made, they can and now a farmer in this district has added to the complexity of the problem with the results of experiments with a Persian sheep.

After service by a Persian ram, the ewe was put to a Karakul ram after an interval of several days. In due course the ewe lambed, giving a perfect Persian lamb, which, however died after a few days. Eleven days later the ewe was delivered of perfect Persian lamb, which, howtions were taken to see that there was no possibility of adoption by the bereaved mother and the farmer is satisfied that his experiment is complete in every detail, and that as he himself would have ridiculed such a story, he was at pains to supervise every act himself. He had with him two competent witnesses as well. It looks as though ideas in sheepbreeding are at least due for revision.

## WARRINGTON TO BATTLE THE GREEK TERROR

Halifax "Tiger" on Way To Getting in the Big Money—Has a Tough Opponent.

BOSTON, April 15—With Terry Warrington of Halifax opposed to the Greek Terror, Fanis Tzanatopolous at the Boston Garden next Tuesday night those who crave action will see it. Warrington has been in Boston on two occasions, and each time he gave a good account of himself.

The Greek Terror has upset the plans of several good boxers in this vicinity, opponents bowing to him at Salem, Brockton and this city.

Warrington will arrive today, and shortly after he goes to his room he will be on his way to the Kelley and Hayes gym on Hanover street, where several young men will meet him to workout with him.

There is an eight-round bout that is attracting considerable attention—Lou Foster faces Al Minnehann, of Brockton.

Then there is a six-rounder in which Clayton Settino will clash with Eddie Gates, of Pittsfield, a brother of the famous Leo Gates.

Eddie Milson, who has been winning consistently, will face Louis Barisano, former national amateur champion.

Joe Gelinas comes to Boston highly touted, will face Frankie Moran, of Cambridge, in a four-rounder, while George Richards will clash with George Charboneau, of Fall River.

These days, Bob Simmons is finding the NBC studios a rendezvous for reunions. First he bumped into Kay Thompson whom he'd known back in his native Missouri. The next day, Bob met an old friend with whom he'd gone to music school in Boston. It was Louise Bernhardt—who also left Boston to become an NBC star.

## QUEEN MARY'S CONSTITUTION IS A STURDY ONE

At 68 She Walks Eighty Miles Inspecting Industry Fairs—Huge Silver Jubilee Program Huge Task for Queen.

LONDON, Eng., April 15—There are few women of or near Queen Mary's age—she will be sixty-eight on May 26—who would care to cope with such a round of engagements as confronts her Majesty in the forthcoming Silver Jubilee celebrations. When hers is described as an iron constitution there is no exaggeration, for in the twenty-five years of King George's reign she has seldom contracted any illness except a common cold, and those only infrequently.

The Queen's eagerness to "do" an industries fair thoroughly amazes women twenty years her junior and often wits those who accompany her. At the recent British Industries Fair she walked no fewer than five miles during any of her visits. Since the inception of these fairs she has done eighty miles of walking in viewing the many exhibits, which is never cursory sightseeing. On one of her visits to the recent fair she was accompanied by Mrs. Moore, the Buckingham Palace housekeeper, whose attention was directed to all sorts of modern household contrivances.

### A Ten-Hour Job

While Queen Mary led a very simple, studious life when she was young, she did a great deal of horseback riding in Richmond Park. The advocates of strenuous outdoor games for women who would build up a reserve of energy and health for the forties and fifties are frequently reminded that the consort of George V. has been able to rear a considerable family, do an eight or ten-hour job of work every day and attain the age of 68 in enviable health without recourse to heroic forms of outdoor exercise.

When any State functions are held at Buckingham Palace the arrangements are closely supervised by the Queen. The Silver Jubilee program includes several of these. On the evening of May 8 there will be a state dinner at the palace, and six days later a state ball. There is much conjecture regarding the dance program, as generally the quadrille is included and there is also a partiality for the waltz. It would be surprising, though, if the tango was given a "look-in."

On May 20 there will be another state dinner at the palace and on June 13 a second state ball.

### Jubilee Events

Other jubilee events in which the Queen will take part are the thanksgiving service at St. Paul's Cathedral on May 6, Accession Day; a visit to historic Westminster Hall on the morning of May 9, when Their Majesties will receive addresses from both Houses of Parliament and four drives through residential London in May and June.

Apart from the jubilee events the usual four royal courts are being held at Buckingham Palace, the two in June and the garden party at the palace on July 25.

One of the most notable events held in connection with the jubilee celebrations will be the reception and ball given in honor of Their Majesties by the Lord Mayor and Corporation of the City of London. This will be held at the Guild Hall on May 22.

While many society women are perturbed over the prospect of dressmaking bills due to the celebrations, they will probably get off more lightly in this respect than the Queen.

## "BUT I ONLY HAD ONE DRINK"

An analysis of 119 automobile accidents, involving the death of 216 persons, made in Milwaukee by Herman A. Heise, M.D., and published in the Journal of the American Medical Association, shows that it is not primarily the obvious "drunk" who constitutes a major road menace, but the "drinking driver"—the man who thinks he can drive as well after a little nip.

Dr. Heise found that the alcohol accidents, mostly after little nips,

were responsible for injury or death to more than two people per accident while the non-alcoholic accidents involved only slightly more than one person per accident. There is a direct relationship between the severity of the accident and the amount of alcohol; from which the only-one-little-nipper may draw the conclusion that he is relatively unlikely to kill anyone, but may merely maim, someone for life. This knowledge should be a relief.

"Considering a person sober as long as he can still walk and talk is responsible for the small value of present-day statistics regarding the relationship of alcohol to automobile accidents," Dr. Heise states.—Readers Digest.

If you want a real live paper with all the home community news we will mail you one each day until August 1st for one dollar.

### TENDERS FOR COAL AND COKE

SEALED TENDERS addressed to the undersigned and endorsed "Tenders for Coal" will be received until 12 o'clock noon (daylight saving), Tuesday, April 30, 1935, for the supply of coal and coke for the Dominion Buildings, in the Provinces of Nova Scotia, New Brunswick and Prince Edward Island.

Specifications and forms of tender can be obtained from the Purchasing Agent, Department of Public Works, Ottawa; the Resident Architect, Halifax, N. S., and the Resident Architect, Saint John, N. B.

Tenders will not be considered unless made on the forms supplied by the Department and in accordance with departmental specifications and conditions.

The right to demand from the successful tenderer a deposit, not exceeding 10 per cent. of the amount of the tender, to secure the proper fulfillment of the contract, is reserved.

By order,

N. DESJARDINS,  
Secretary.

Dept. of Public Works,  
Ottawa, April 9, 1935.

### PROVINCE OF NEW BRUNSWICK Department of Public Works, Highway Division.

## NOTICE TO CONTRACTORS

Separate alternative Sealed Tenders for the following contracts will be received up to 5 o'clock P.M., FRIDAY, APRIL 26, 1935, at the office of the Chief Highway Engineer, Fredericton, N. B., for

ASPHALTIC CONCRETE PAVEMENT with

SHEET ASPHALT WEARING SURFACE  
Contract No. 157A, Highway No. 2—Aroostook Bridge (South End)—Perth (South End). . . . . 7.3 miles  
Contract No. 158A, Highway No. 2—Bath (Monquart Bridge)—Florenceville (C.P.R. Xing). . . . . 9.0 miles  
Contract No. 159A, Highway No. 2—Rothesay (East Limits)—East. . . . . 11.0 miles  
Contract No. 160A, Highway No. 2—Dover Road (End Contract No. 153)—College Bridge (Cross Road). . . 9.7 miles  
Contract No. 161A, Highway No. 2—Frosty Hollow (0.3 M. West Bulmer Mill Pond)—Sackville West Limits 3.5 miles; Sackville East Limits—Nova Scotia Boundary 5.0 miles. Total. . . 8.5 miles  
Contract No. 162A, Highway No. 1—Waweg (End Contract No. 154)—St. Andrews (West Limits). . . . . 9.0 miles  
Contract No. 163A, Highway No. 1—Fairville (Manchester Corner)—Prince of Wales. . . . . 10.1 miles  
Contract No. 164A, Highway No. 11—Richardsville (R.R. Xing)—East (Connecting ends Contract No. 155). . 4.2 miles

PORTLAND CEMENT CONCRETE PAVEMENT

Contract No. 157C, Highway No. 2—Aroostook Bridge (South End)—Perth (South End). . . . . 7.3 miles  
Contract No. 158C, Highway No. 2—Bath (Monquart Bridge)—Florenceville (C.P.R. Xing). . . . . 9.0 miles  
Contract No. 159C, Highway No. 2—Rothesay (East Limits)—East 11.0 miles  
Contract No. 160C, Highway No. 2—Dover Road (End Contract No. 153)—College Bridge (Cross Road). . . 9.7 miles  
Contract No. 161C, Highway No. 2—Frosty Hollow (0.3 M. West Bulmer Mill Pond)—Sackville West Limits 3.5 miles; Sackville East Limits—Nova Scotia Boundary 5.0 miles. Total. . . 8.5 miles  
Contract No. 162C, Highway No. 1—Waweg (End Contract No. 154)—St. Andrews (West Limits). . . . . 9.0 miles  
Contract No. 163C, Highway No. 1—Fairville (Manchester Corner)—Prince of Wales. . . . . 10.1 miles  
Contract No. 164C, Highway No. 11—Richardsville (R.R. Xing)—East (Connecting ends Contract No. 155). . 4.2 miles  
Bidders may tender on any or all contracts whether for Asphaltic Concrete or Portland Cement Concrete Pavements. The Asphaltic Concrete Pavement will be twenty (20) feet in width and four (4) inches total thickness. The Portland Cement Concrete Pavement will be twenty (20) feet in width, 2-10' strips, each with thickened edges, 9'-6"-9' cross section.

Specifications, information to bidders and Tender forms may be obtained at the office of the Chief Highway Engineer, Fredericton, N.B., or from the following District Highway Engineers: F. W. C. Wetmore, Woodstock, N.B.; J. T. Turnbull, Saint John, N.B.; W. A. S. Melanson, Moncton, N.B.; L. P. Roy, Campbellton, N.B.

A certified cheque payable to the Honourable Provincial Secretary-Treasurer must accompany each tender. The amount of such cheque to be as follows:

Contract No. 157A or 157C—\$11,000.  
" " 158A or 158C—16,000.  
" " 159A or 159C—18,000.  
" " 160A or 160C—19,000.  
" " 161A or 161C—16,000.  
" " 162A or 162C—16,000.  
" " 163A or 163C—17,000.  
" " 164A or 164C—7,000.

Such cheque will be forfeited in case Tenderer fails to complete his obligation. The Department does not bind itself to accept the lowest or any tender.

HON. D. A. SPEWART,  
Minister of Public Works,  
Department of Public Works,  
Fredericton, N. B.,  
April 9th, 1935.

### EASTER RECIPES BRING

### SPRINGTIME COLORS

### Mauve and Yellow Easily Worked Into Feast Day Menus

(By Katherine Baker)

Flowers and bunnies, eggs and chickies all belong to Eastertime. And little extra touches in the table and in the menu make the sunny spring festival a happy time with pleasant memories for both the family and friends.

The recipes given here have been chosen to bring Easter touches to the menu with the least trouble and at lowest cost to the homemaker. They have been carefully tested, too.

#### Orange Moss

1 package quick-setting lemon jelly powder.

1 teaspoon lemon juice

Juice and rind of one large orange.

1 pint warm water.

4 tablespoons sugar.

1 cup heavy cream.

Dissolve jelly powder in water, heating water slightly hotter than lukewarm but not boiling. Add sugar, fruit juice, and rind. Chill until cold and syrupy. Fold in cream, whipped only until thick and shiny, but not stiff. Chill until slightly thickened. Turn into mould. Chill until firm. Unmould. Serves 6.

#### Grape Maraschino

1½ cups water.

1-3 cup quick-cooking tapioca.

¼ teaspoon salt

10 maraschino cherries, cut in eighths.

2 tablespoons maraschino cherry juice.

1 cup grape juice.

Half cup cream, whipped.

Place water in top of double boiler and bring to a boil over direct heat. Combine dry ingredients; add gradually to water and bring to a brisk boil, stirring constantly. Place immediately over rapidly boiling water—mixture clears and thickens as it cools. When slightly cool, add the cherries and fruit juices. Chill; fold in cream. Garnish with whipped cream.

Mauve cream sauce adds an excellent bit of Easter colour to the plainest blanc mange or rice pudding.

½ cup ripe grape jelly.

1-8 teaspoon salt

1 egg white, unbeaten

Half cup cream, whipped

Place jelly in bowl and set over hot water. Add egg white and salt and beat with rotary egg beater until mixture is smooth and stiff enough to stand in peaks. Cool. Fold in the whipped cream. Makes two cups of sauce.

#### Ice Cream Meringue Cake

Is one of the new efficiency cakes—it is the basis for a dessert, a cake, and icing all in one.

1¼ cups sifted cake flour  
1 1-4 teaspoons baking powder  
1-8 teaspoon salt  
4 tablespoons butter or other shortening  
2 egg whites.  
½ cup sugar  
2 egg yolks, unbeaten  
7 tablespoons milk  
½ teaspoon vanilla  
Half cup sugar.  
Sift flour once, measure, add baking powder and salt, and sift together three times. Cream butter thoroughly, add half cup sugar gradually, and cream together until light and fluffy. Add egg yolks, one at a time, beating thoroughly after each. Add flour, alternately with milk, a small amount at a time, beating after each addition until smooth. Add flavoring. Pour into greased pan 9x9x2 inches. Beat egg whites until foamy throughout; add half cup sugar, 2 tablespoons at a time, beating after each addition until sugar is thoroughly blended. Then continue beating until mixture will stand in peaks. Spread over cake batter. Bake in moderate oven, 350 degrees F. 45 to 50 minutes. Let stand about ten minutes to cool, then remove carefully from pan. Cut in 3 inch squares; top each with a small ball of ice cream or with crushed fruit; or serve to accompany ice cream.

### HOUSEHOLD USES FOR SALE

Next time the drain pipes in your kitchen become clogged remember that the quickest and easiest solution is to take down your package of salt, mix it equally with Sal Soda, add enough boiling water partly to dissolve it and start it down the drain towards the obstruction. Let it stand in the pipe several hours and then flush with boiling water. The obstruction will have disappeared and the drain pipe be clear and there will be no need to call a plumber.

### FORMER CHAMPION TIMES A NEW SPEED CHAMPION

On a recent trip to New York, Miss Irma Wright of Underwood Elliott Fisher Limited, Canada's Champion typist, demonstrated her dazzling typing speed to H. O. Blaisdell, World's Champion typist in 1910 and 1911. For thirty consecutive minutes, Miss Wright wrote 116 words a minute, bettering Blaisdell's record by four words.
