"SOMEBODY TO SEE YOU!"

If everybody with something to interest you should come and ring your bell, what a nuisance it would be! Think of the swarming, jostling crowd, the stamping of feet on your porch and carpets!

Every day we know of many callers who come to see you. They never jangle the bell—they don't take up your whole day trying to get your attention. Instead, they do it in a way that is most considerate of your privacy and your convenience. They advertise in your newspaper!

In this way you have only to listen to those you know at a glance have something that interest you. They make it short, too, so you can gather quickly just what you want to know. You can receive and hear them all without noise or confusion in a very few minutes.

In this way to yourself look over all the advertisements. The smallest and the largest—you never can be sure which one will tell something you really want to know.

INSULIN BENEFITS

Use of insulin as a stimulant to the appetite, particularly for underweight children, was recommended to the California Medical Association by Dr. E. Kost Shelton. Famed hormone, developed originally at Toronto for the treatment of diabetes by Sir Frederick Banting and Dr. C. H. Best, also has proven valuable, Dr. Shelton reported, in combating a wide range of human ailments. "From the intelligent application of insulin," he stated, "benefit can be secured for persons suffering from tuberculosis, mental difficulties, narcotic addiction, the various types of anemia and kidney and other disorders."

KING'S MEDALS AND TITLES

(Lethbridge Herald)

Possibly Mr. Bennett is right and the people of Canada favor the restoration of titles. We thought the prime minister had guessed wrong when he overrode the House of Commons resolution against titles and decided to restore them. We hear that Ottawa has been deluged with complaints about the way the medals have been distributed; thousands claimed that they had been overlooked. That is a sign that honors of this kind are liked by our people. The medal is a mark of distinction from the King, just as is a title.

"RIDING THE RODS"

DE LUXE IN FRANCE

Reminiscences of war days in France are recalled, particularly the "40 hommes 10 chevaux" marked on box cars showing they could carry 40 men and 10 horses, in an announcement by the French State Railways that they are fixing up some box cars for "tramping" parties, the cars being painted white inside and out and having cook stoves installed and hooks for hammocks. One can "hobo de luxe" in this way in France for 19 francs, or about \$1.19 a day, travelling by freight-train, and if third-class tickets are purchased the cars will be carried on passenger trains.

TRAIN LIGHTING SYSTEMS

One of the major difficulties of train lighting, particularly during the winter season, seems on the way to solution in the invention of a member of the staff of the mechanical department of the Canadian National Railways whereby loss through ice and snow of belts and chains which drive the electric generating systems on passenger coaches for lighting of the interiors is eliminated. The device has been in use on Canadian National trains for some time past and has given remarkable service, and, in addition, passengers have commented upon the exceptional brilliancy of the lights in the cars. The device is also being

used to operate speedometers and other instruments running simultaneously at various rates of speed. The inventor is Armand Juneau and the ingenious contrivance has been dubbed the Juno Positive Axle Drive.

SNAPSHOTS

The local government worker who drove all around town with the "Dysart for Premier" placard on his car, was as mad as a wet hen when he discovered the joke.

There is a tomb-stone in an old graveyard in this city which states that the man underneath died at ninety-two years old, and that the last two years of his life were given to the service of the Lord. He must have come into the vineyard at the eleventh hour.

The Daily Mail will give a prize for the best photograph of the new dump on the Flats near the Loyalist cemetery.

Speaking of tomb-stones there is a remarkable one at Lake George. Have you ever read it?

Some one says there has been three eras in Ireland: The pagan era, the Christian era, and the Devilera.

A friend of ours from England says that it is nice to sit at the door in the warm nights and get the fresh "hair."

A French friend says he is coming to U.N.B. to take "the physic" from Professor Priestman. Why not try castor oil.

A school boy says the Richibucto road runs out to "Richibucto county." We don't know whether to give that county to Tilley or to Dysart.

"The father of the artist Whistler invented the locomotive whistle." It proves that Whistler had a father, and that we still hear of his works.

3,000 Girl Guides, Boy Scouts to Meet Leaders

(Continued from Page One)

Guide will motor through the Wentworth street entrance of the Exhibition Grounds to the reviewing stand in front of the grandstand. On either side of the entrance will be formed a guard of honor, composed of Rover Scouts. Scouts and Guides will be lined in attractive formation by troops and companies, in the centre of the Barrack Green.

Every Scout and Guide will be on his or her toes! This is the Big Day! Every ounce of energy will be hurled into every activity—rope spinning—friction fire—bridge building—first aid—tent pitching—jungle dances—group singing of patriotic songs—every ear will be strained to hear the voices of the chiefs.

Addresses and March Past

After viewing the demonstrations of the Girl Guides, Lady Baden-Powell will address them briefly, after which will come the colorful march-past when 3,000 Scouts and Guides will march smartly along in front of the grandstand. The climax of the hour's program will be a brief address from Lord Baden-Powell to the Boy Scouts after which he and his party will leave the grounds.

Although the most important part of the weekend program is the rally on Saturday afternoon, because of the fact that it is only time Lord and Lady Baden-Powell will be officially seen by the Scouts and Guides, the leaders and citizens will have an opportunity of hearing the Chief Scout at a banquet to be given in his honor Friday evening in the Admiral Beatty Hotel.

On Saturday evening a monster council fire will be held in front of the grandstand on the Barrack Green during which each troop in the province will make a contribution to the program. On Sunday afternoon a church parade will be held when the Protestant troops will parade to Trinity Church and the Catholic troops will break off and march to the Cathedral. On Sunday evening there will probably be another council fire, in keeping with the day. Baden-Powell's participation in Sunday's activities is contingent upon the state of his health.

OUR MAIL BAG

POLITICS AT GORNISH

To the Editor of the Daily Mail, Sir:

Granted that you will allow a little space in your paper, I desire to say a few words re the present political situation in N. B.

On Thursday evening, May 23rd, inst., I had the dubious pleasure of attending a meeting sponsored by the Liberal Party, and held in the Orange Hall at Rusagornish. During the course of an address by one of the principal speakers of the occasion, it was said, in effect that the Liberal Party, if elected, intends to abolish the R. C. M. P. and with the money thus saved give us old age pensions and free school books.

Now, Mr. Editor, I desire to point out that I am in favor of the pensions and also the free school books; but I am also in favor of a police force here in N. B., such as the Royal Mounted which has the reputation of being well out in front among the world's best police officers. I am of the opinion that the majority of the people of N. B. would like to know just what sort of police force a Liberal Government would give us and how much it would cost as compared to the cost of maintaining the R. C. M. P.

In closing I would call to your attention a remark by one of the speakers at the above mentioned meeting, which had to do with the Hon. L. P. D. Tilley being illiterate.

I consider that a most unwise and absolutely silly remark and it is without doubt a discredit to the Liberal Party, as I happen to know at least two votes lost to the Liberal Party thru that one remark. To my mind the Opposition's platform is composed of extremely weird planks and I am very much surprised that a man with the supposed intelligence of the Hon. A. A. Dysart would attempt to win an election with such a platform.

Thanking you, I Am,

Yours Truly,

L. BERT NASON,

Rusagornish Station,
 Sunbury Co., N. B.,
 May 23rd, 1935.

GIVES US HELL

Moncton, May 28, 1935.

Editor, Daily Mail,
 Fredericton, N. B.
 Dear Sir:

I am interested in reading your front page Editorials and have followed them with interest for several months. The one which you published the other day you review results which the Mail paper accomplished in regard to your city jail and to your post office you wind up your editorial by stating that an explosion would not stir up the school board—or words along these lines. I would like to ask you an honest to goodness question—Did you really expect to stir up the school board of Fredericton? If you did you are a very optimistic gentleman. You started fighting the battle for an open meeting of the school board. Our papers the Times and Transcript fought this battle 30 years ago and with the assistance of the Council who represent the Moncton people we got our rights. The result is today that we have here the best schools in New Brunswick. But you could not expect to win because the people up in your town are contented to let the school board go along in the same old way. As I former teacher and as a visitor to Fredericton I know that a couple of years ago almost everyone groused at your school board, but they were afraid that if anything were done it would reflect in some mysterious way on the school children. Then if you will pardon me your people are the slow up there. They will not act. They want the dynamite which you say could not stir the school board and some other board I forget which.

I am a traveller. Three years ago I came to Fredericton with the intention of residing. I like your town. My mother lived there. I had a girl and a boy to educate. I heard much about your schools. The first thing happened was my girl who had made a good record in the Aberdeen School here was "put back" one grade because her qualifications were apparently not equal to that at Fredericton. She would not stand for it but it was the "rule". So we moved away from Fredericton.

There is a man from Westmorland

ACADIA UNIV.
HAS CLASS DAY

WOLFVILLE, N. S., May 29—Class day exercises of the class of 1935 at Acadia University were held yesterday morning in University Hall, which was crowded with parents and friends of the graduates. After the entrance march, played by Miss Elsie D. Bowser, a duet by Norbert B. Noyes, at the piano, and Kenneth O. Eaton, at the organ, was given. The class president, E. Mervyn Oakes, was heard in the opening address and the business of the meeting was proceeded with. The gift to the university of \$300 for the purpose of installing a combination film and sound projector in University Hall was decided on. It was also moved that the present officers—President, E. Mervyn Oakes, Albany, N. S.; vice-president, Miss Elina Clark, Charlottetown; secretary, Miss Enid Mason, Wolfville, and treasurer, E. Keith Potter, Plymouth, N. S., be made the life officers of the class.

This was followed by a vocal solo by A. Donald MacLeod, Saint John; class history, Miss H. Jeanne Eaton, Wolfville; class prophecy, R. Gerald Rice, Wolfville, and valedictory, W. Floyd Haney, Deer Island. Graduation will take place today.

Alumni Elect

Rev. Dr. G. C. Warren, Wolfville, formerly elected pastor of the Brunswick Street Church, Fredericton, was re-elected president of the Associated Alumni of Acadia University at the annual meeting. Other officers are—Vice-Presidents, Miss Frances Parlee, Saint John, and Rev. James Wilson, Summerside; secretary-treasurer, Dr. R. S. Longley, Wolfville; executive, Dr. H. T. DeWolfe, Rev. F. H. Eaton, Dr. T. W. Cook, Mrs. W. S. Rice, Mrs. G. C. Nowlan, Miss Christine Cavanagh and Robie Roscoe, of Wolfville.

Among those present at the meeting were Rev. Dr. W. C. Goucher, St. Stephen, N. B., of the class of '83, who has missed only nine convocations of Acadia in the last 57 years, and Dr. I. B. Oakes, 71 Wolfville, the oldest living graduate of Acadia.

Last evening, in the seminary chapel, a large number of the graduates gathered for the alumni reception, when many old friendships were received.

The report of the executive stated that the Alumni Association has 1,450 members of whom 167 are life members. Four new life members were made during the year—Donald A. Grant, Regina; Mrs. George W. Reid, Truro; Mrs. Morley Taylor, Venezuela, and Miss Hilda Johnson, Port Williams, N. S. Receipts for the year were \$853.22.

Yesterday afternoon, Miss F. McNally, formerly of Fredericton, dean of the household economics department, and her assistants entertained in the practice house. The opportunity for visitors to inspect the laboratories of the household science department and visit the practice house has been an interesting feature of the closing exercises.

The art exhibition and the exhibit of the scientific and literary work of Acadia graduates and of members of the Acadia faculty, in Emerson memorial library, was very interesting.

COMMISSION MET HERE

An all-day meeting of the Dairy Products Commission was held here today. A number of routine matters are being taken up with a full representation of the board.

Living in Fredericton today, another former teacher who I understand had a similar experience. Things like these are not modern but they are Fredericton, you can't change them. The people are getting what they are putting up with.

When did you people up there have a city election. Your council up there do not represent public opinion. There is no such thing. Pardon my references to your city. I have good friends there and do business there. I would like to live there only for such conditions as you are trying to have remedied. Perhaps you will print this. For business reasons perhaps better not use my name.

Yours truly,

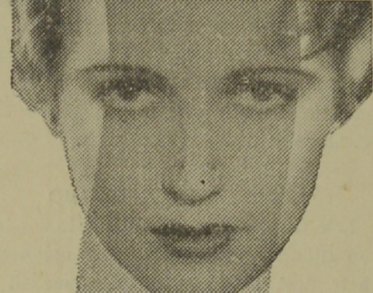

TRAVELLER.
