THE JAIL AGAIN

There are newspapers which are willing to sacrifice accuracy in order to get a slap at a contemporary, all of which is old-fashioned and not fair to the reading public.

Yesterday it was sought to convey the impression that certain remarks made by His Honor Judge Slipp at the York County Court were directed at articles which appeared in The Daily Mail in regard to York County Jail. The impression was given that this paper's articles were untrue and that they reflected on Sheriff Smith and were unfair to that gentleman.

We have the authority for stating here that the remarks of His Honor Judge Slipp were not intended to convey any such impression. The remarks of His Honor referred particularly to certain statements which were made at the January session of the York County Council. The remarks then made it appear that Judge Slipp was criticising the way that the jail was conducted. As a matter of fact the Judge had then made remarks against a system which pleases young offenders in contact with hardened criminals. His Honor also stated that in his opinion the jail conditions under Sheriff Smith were as good, or better than in many years under previous sheriffs. In fact Judge Slipp believed that the present jail conditions were as good as he had ever seen them.

In discussing the conditions at the county jail this paper has stated more than once that Sheriff Smith was doing as well as possibly any man could do under the circumstances. The Daily Mail did not blame Sheriff Smith for the diet which the prisoners are receiving. In fact we stated more than once that the bread and water diet was condemned more than once twenty years ago, both in Court and in the press by the late Hon. Judge Wilson.

Judge Slipp both on the bench and in private has advocated a prison farm and there is no right thinking citizen who will not agree with His Honor in this respect. Regarding other conditions than the diet, and the segregation of young offenders and hardened criminals, for obvious reasons The Daily Mail does not think it good taste to further discuss them in the present article although this paper reserves to itself the right to hold its own opinion based on reliable information in regard to these and to discuss them when it is thought necessary to do so and to challenge successful contradiction in regard to any statements which we have made.

NOISE.

Are you unable to think? Do you find that, along with failing hearing, you have high blood pressure, touches of dyspepsia, and that occasionally you get to breathing too fast? Maybe after all, you are not senile; you may be just a noise victim.

Harold R. Berlin, New York acoustical expert, said recently: "noise is the true murderer of thought. Noises generally are harmful to the sense of hearing, impair the digestive system, increase blood pressure and respiration."

Mr. Berlin spends a good deal of time experimenting with an instrument called an acoustimeter. This registers degrees of noise in decibels. A decibel is the least change in volume of sound that the human ear can distinguish.

Mr. Average Citizen, who at this time of year discovers he needs a vacation, should look up his decibel business. If he could learn the number of decibels that daily batter his nervous system, including those measuring the backfiring of motors early in the morning and ending with the intruding jazz from neighboring radios long after the midnight hour, he might understand why people say he is aging prematurely.

SNAPSHOTS

The Daily Mail has received another letter dealing with our present bad radio conditions. We are holding it as no signature accompanies the epistle.

Ho, hum! The first day of Spring!

"The Quintuplets' Lullaby" is a popular number on the radio at present.

A Minnesota doctor has finished a 120-day milk and honey cure with encouraging results. He is entirely curing of wanting to see milk or honey.

Seven thousand barbers have been sent to collective farms in Russia to trim the whiskers of the agriculturists. This is the real Russian revolution.

Life-terminer in Maryland has been given five years additional for attempting escape. It'll be "tough on the other prisoners to have his ghost hanging around after he passes on."

Mr. Luangdamrong, satellite of ex-King Praj of Siam, fined in London for motoring with a young woman on his knee, was probably just trying to live up to his name.

A university anthropologist says that American blondes are disappearing. But by the time they actually disappear maybe there'll be no gentlemen left to prefer 'em.

Possibly King Prajadhipok of Siam quit so he would never again have to worry over what would remove spots from a white elephant.

Scotland Yard is reported baffled and astounded by the theft of \$107,000 from the same at Croydon air field. It may be necessary to call in Lord Peter Wimsey or Hercule Poirot.

Before looking around for a new husband, it is always well for a woman to find out how much the Judge will allow her on the old one she's trying to trade in.

Information Denied by Deputy Minister King

(Continued from Page One)
 as that of butter. He stated that there are now about eight or nine cheese factories in operation in the province today.

It was mentioned that some cheese imported by the province sell in very small quantities for sometimes as much as three times as much as we get for our own in the province.

It was generally agreed that our cheese is not aged properly.

F. M. Colpitts asked for information regarding the amount of butter sold to the Canadian Packers. Mr. King said he had the accurate figures but that he would not quote them from memory.

Mr. Colpitts stated that he had been trying to get these figures ever since the House opened, but he had not received them yet.

Chairman A. D. Taylor stated that the Farmers' Co-operative Creamery Limited is a private concern and the information would have to come with the consent of the company.

"There is a bill before the House now regarding assistance to be given this company by the Government", stated Mr. Taylor. He contended that Mr. Colpitts could get his information in the House and that it is beyond the Province of the Committee to give out this information.

Mr. Colpitts stated that he understood that the department sold a large quantity of butter to the Canadian Packers at a time when the market was low and lost money on it. He added that the department was getting like the Liquor Control Board and it looked as though they were trying to hide something from the people.

"If this is the way the government helps the farmers they had better stop", stated Mr. Colpitts.

If he could not get this information he wanted he would like to have an itemized account of the \$10,615.11 in the Public Accounts Book listed under "Various Persons, Rebate Transportation Cream".

Mr. Taylor previously reminded Mr.

MUNICIPALITIES COMMITTEE IN NIGHT SITTING

In a night sitting last night the Municipalities Committee of the Legislature considered a proposed assessment act for the town of Dalhousie. The meeting did not adjourn until a short time before midnight. The bill disclosed that the town desired to abrogate an agreement made in 1928 for fixing the assessment of the New Brunswick International Paper Company. After consideration adjournment was made until tonight for further discussion of it.

P. J. Hughes, K.C., who appeared in support of the bill, said that apparently no revised agreement could be reached. The company had made contributions from time to time and attempts were made to come to further agreement. H. A. Carr, K. C., of Campbellton, stated that suggestions had been made to the town by the Company.

The present agreement granted the company exemption for a period of 15 years on all real and personal property, tenements, easements and hereditaments held or acquired by the company, except dwelling houses built and owned by the company for its employees; a fixed valuation of \$250,000 for the period beginning 15 years from the date of the agreement and ending 25 years from that date on all such real and personal property; a fixed valuation of \$300,000 for the period beginning 25 years from that date and ending 50 years from that date on the same, and a valuation not to exceed 50 percent of the cost of construction of all dwelling houses built and owned by the company for its employees.

BENNETT CONTINUES TO GAIN IN HEALTH

OTTAWA, March 20.—Continued progress toward recovery was reported yesterday from the bedside of Rt. Hon. R. B. Bennett, Prime Minister of Canada. An official bulletin from Mr. Bennett's physician Monday stated that there had been no recurrence of the heart weakness since last Wednesday and that progress had been satisfactory.

TOWN PLANS ROYAL WELCOME

BLAIRMORE, Alberta, March 21.—Schools will be closed, parades formed and the mayor and council will welcome Tim Buck, Communist leader touring the West when he reaches Blairmore Thursday.

Thursday has been declared a civic holiday. The town, a coal mining centre, is governed by a Left Wing Labor council.

ABLE TO LEAVE HOSPITAL

Mrs. I. B. Rouse, who recently underwent an operation for appendicitis at the Victoria Public Hospital was able to leave for her home last night. She is considerably improved friends will be glad to know.

Anderson that this was a Public Accounts Committee and could only deal with items listed in the report. The place for Mr. Colpitts to get his information was on the floor of the House.

It was agreed that Mr. Colpitts receive the information regarding the accounts listed in the report, but that he would have to get the information about the Canadian Packers on the floor of the House.

Mr. Anderson asked for the payrolls of the New Brunswick Power Commission in regard to the construction of lines on the Miramichi.

It was decided to have Chairman J. A. Sinclair of the Workmen's Compensation Board attend the meeting of the Committee next Thursday.

Mr. Colpitts asked to have information regarding certain payrolls.

The Committee adjourned to attend the meeting of the Law Practice and Procedure Committee to consider the Dairy Products Bill.

HATFIELD LOSES EXTRADITION CASE

But Counsel Will Seek a Review Before U. S. Federal Court

MANCHESTER, N. H., March 21.—Captain Freeman Hatfield, 74-year-old retired mariner, today lost the first battle in his fight to escape extradition to Canada to face charges of defrauding the Dominion Government of \$71,000 through an alleged false claim that his schooner the Gypsum Queen was torpedoed during the war.

U. S. Commissioner Chas. D. Barnard, who heard Canada's claim here, announced he would recommend extradition of the elderly sailing master. Counsel for Capt. Hatfield immediately announced the fight to prevent his extradition would be continued.

Attorney Allie J. Connor said he would seek writs of certiorari and habeas corpus tomorrow from Federal Judge George F. Morris at Concord. Granting of a writ of habeas corpus would further detain the captain in this country and a writ of certiorari would throw the case before the Federal Court for review.

Quebec Maj Join Potato Board

(Continued from Page One)
 Brunswick agent of the Eastern Canada Potato Marketing Board, claims that shipments from the Maritimes have been, on the whole, well maintained this year, and that the board has brought into New Brunswick much greater returns than if the board had not been in existence.

The following special despatch was received last night from Florenceville.

"The potato market remains at a standstill. Not one car has been shipped from the C. P. R. Station at Florenceville this month. Bristol has shipped two cars this month. Other stations where not one car has been loaded in March are Peel, Stickney, Bath and Beechwood, all in the heart of the potato country".

A special despatch from Woodstock read as follows:

"The potato market here continues very depressed, with little demand and only a minimum of stock being handled, at 30 to 35 cents a barrel. Farmers are very anxious to haul but, for the most part, are unable to find buyers. While improvement is hoped for, the shipping season is now advanced and large supplies are still in the farmers' hands.

Want Lower Freight Rates

OTTAWA, Ont., March 21.—Representatives have been made to the railways asking for lower rates on potatoes shipped from the Maritime Provinces. Hon. Dr. R. J. Manion, minister of railways, told the House of Commons yesterday.

A. E. MacLean (Liberal, Prince), asked if the government would use its influence to obtain lower rates so that the potato surplus could be moved within the next few weeks.

Mrs. Manion said he believed representations had been made already to the railways by parties interested but that the government had no authority over freight rates. He promised to bring the matter to the attention of railway officials.

NORMANDIE TO GET FINAL OUTFITTING

SAINT NAZAIRE, France, March 21.—Seven tugs and a crew of 140 men yesterday successfully handled the dedicate task of edging the world's largest liner, the Normandie, into the world's largest drydock here for final outfitting prior to her launching later this year.

The tugs and crew completed the job within a hour, easing the 70,000-ton liner into her berth without mishap.

NO CHANGE TODAY

There was no change today in the condition of E. J. Kingsley, well known Marysville man, who is critically ill with pneumonia at his home.
