### Our Enlarged Paper

Due to the improved business conditions and increased advertising demand for more space in our paper, The Daily Mail is today enlarging from six columns to seven columns. In this way we hope to give our daily increasing number of readers more news and features.

### An Historic Tariff

Tariff conditions granted by the United States to Canada should benefit areas greatly. From the Pacific Coast down to the Atlantic seaboard run as follows:

**Columbia:** Timber and lumber duties in half and reductions made in halibut, canned clams, crude sperm oil.

**Reductions on cattle and calves, horses, faddies and other farm**

**to and Quebec:** Reductions on lumber, cattle, dairy cows, cream, clover seeds, turnips, maple sugar, tale and feldspar, ferro alloys, and certain fresh water fish including whitefish.

**Reductions on lumber, seed potatoes, hay, turnips, herring, frozen salmon, eels, swordfish, smoked herring.**

Of the important features of the treaty published is the guarantee that newsprint paper and wood pulp from Canada would enter free. They have been placed on the free list as long as the forest products on the guaranteed list are pulpwood, pulp, paper, shingles, subject to quota, logs, round timber, posts, laths, pickets, palings, hoops and staves.

It will flow more freely across the border from Canada to the States as a result of the halving of the duty on this product. The cut in per proof gallon to \$2.50. It applies only to whiskey which has been in wood for four years.

Special duties imposed by the Bennett government in its 1931 budget on periodicals and magazines printed and issued in the United States and imported into Canada are abolished under the pact which gives them free entry. The tariff on Canadian skates was reduced from 20 to 15 per cent. Hockey sticks, from 33 1/2 per cent to 20 per cent. A 50-per cent duty was made on lacrosse sticks, from 30 to 15 per cent.

Canada obtained tariff reductions for the Canadian mining industry and to revival of trade across the international border. In addition, duties on some types of mining machinery were reduced. The tariff on some types of mining machinery were reduced. The tariff on some types of mining machinery were reduced.

### An Inspiring Sermon

Brunswick Street Baptist Church on Sunday evening Rev. Mr. Guion delivered the first of a series of sermons containing messages to the city. Mr. Guion's message contains some food for thought in that one daily sees around the city. Rev. Mr. Guion ended his sermon with a plea for youth to develop an impelling personality and keep on his or her will. To fight unaided is not enough, there must be the teachings of Christ.

There are three great enemies of youth today," pointed out Mr. Guion. War, Disease and Alcohol. Rev. Mr. Guion referred to conditions in County Jail which was under recent investigation by the Minister and said that "out of fifty-two in the jail, on the recent census, that thirty were in for violation of the Liquor Act." The pastor mentioned again deplorable conditions at the jail to the fact that men were sleeping on the floor in dungeons. Many of these were young men. "It is to be prey to sinister forces?" The speaker cited a case of a party which he had occasion to be a spectator of, while outside the jail. He deplored the sale of liquor in hotels, and beverage rooms. "It is not good for the province of New Brunswick," declared the pastor with vehemence.

### SNAPSHOTS

New officials taking over public offices do well to exhibit courtesy. The majority of our public officials are courteous. Discourtesy and incompetency are a bad combination for any official.

"Peeping Tom" who lives on a cross street up-town, had to jump over a fence when the girls at whom he was peeping ran out in the yard.

We believe that the old sport who has been doing the flirting on his upriver trips, is quieting down. We have not heard about him lately. Well done, old boy, we hope that you took our advice.

How many people who pay for a cord of wood thrown into the cellar get the full amount which they pay for? We know a man in town and another elsewhere, who used to be nicknamed "Short Cord." Needless to say they are not continuing in business.

Some wood dealers, like some plumbers and others, can fool some of the people some of the time but they finally get through.

At last, and in a definite way, the Scots are beginning to reassert themselves. They have defeated Ireland in international football.

Bachelors especially will be pleased by the news that a sock-darning machine has been invented. Thus, spats will no longer be de rigueur.

A petrified tortoise has been found in shale rock on the shores of Lake Erie. The tortoise has been there a long time; which gives rise to the thought that the hare probably won this race.

Sir Samuel Hoare, British Foreign Secretary, whose every recent word has been carefully weighed in the chancelleries of Europe, made an election speech to his constituents in Chelsea Hall this week. Twenty-four women and two men turned up to hear him.

"Live dangerously," proclaims the Duke. Old stuff—this country's been doing just that for years judging from the number of killed and injured in motor crashes.

The two balloonists who made a record ascent did very well, but what we really need is some one who will interview the man in the moon on the prospective break-up of his place of abode.

Mrs. Franklin D. Roosevelt earned \$72,000 for charitable organizations by means of radio addresses during the past year. With a little stronger effort she may be able to exceed the official income of her husband.

#### HERE OVER WEEK-END

Alden Clark, of Saint John, son of His Worship Mayor W. G. Clark, M.P.-elect and Mrs. Clark, was in the Capital over the week-end. He was accompanied here by Mrs. Clark, nee Miss Helen Crowe.

#### GAINS STEADILY

Robert L. Burns of this city, spent the week-end in Gagetown with his parents, Rev. and Mrs. Harry Burns. Mr. Burns reports that his father is steadily gaining being able to be around the house for most of the day.

#### GUNS STOLEN

Lymon Dragon of Campbell Settlement, charged with theft of a gun, and Garland A. Stairs of Pinder, were arrested by R. C. M. P. officers on Saturday evening and this morning appeared before Police Magistrate Walter Limerick. Dragon was charged with the theft of a gun, and Stairs with having a stolen gun in his possession. Both were remanded until November 25.

#### OPENS UP LAW OFFICE

R. P. Hartley, K. C., former deputy attorney general, who has removed to Saint John with his family, has formed a law partnership with Walter W. V. Foster, M. L. A.-elect of Saint John. The new law firm will go under the name of Hartley and Foster for the general practice of law, specializing in all branches of insurance law. Mr. Hartley was registrar of the Supreme Court of the province and deputy attorney general from 1931 to 1935.

### Peter's Pence Exempt From Sanctions

(Continued from Page One)  
influence the Kingdom of Italy towards peace and that money sent to the Vatican will not find its way into the Italian treasury for war purposes.

The special offering to the Pope known as Peter's Pence which is annually taken up in all the Roman Catholic churches of the world on Sunday next will not come under the ban of sanctions.

### Greater Trade On the North American Continent

(Continued from Page One)  
Cattle subject to tariff reduction are restricted to a total quota of 227,732 head a year. Imports over that number will be subject to regular duties. On live cattle, weighing 700 pounds or more the reduction is from three to two cents a pound. On calves weighing less than 175 pounds each the duty is reduced from 2 1/2 to 1 1/2 cents. The maximum reduction of 50 per cent is granted on milk cows for dairy purposes. Quotas for the latter three grades of cattle are respectively 155,799, 51,935 and 20,000, and the average saving in duty will be about \$9 per head.

Cream will be admitted to the United States at a rate of 5 cents per gallon on a quota of 1,500,000 gallons per year—equivalent to 6,000,000 pounds of butter fat. The present rate is 5 1/2 cents per gallon.

Seed potatoes up to a limit of 750,000 bushels, turnips, clover and grass seeds and maple sugars are also subject to lowered tariffs in the United States.

#### For Fishermen

No concessions could be obtained on Canadian cod but the full 50 per cent reduction was obtained on halibut, 35 per cent on canned razor-clams, 25 per cent on swordfish, smoked herring and fresh or frozen salmon. 20 per cent on picked or salted salmon and 50 per cent on crude sperm oil. Fresh water fish and eels will be subject to the maximum reduction. Existing rates on lobsters, and shellfish are bound for the duration of the treaty.

Important of those goods manufactured in Canada on which United States tariff reductions were obtained are those in which hydro-electricity constitutes an important factor, such as acetic acid, ferro-alloys, synthetic resins, and acetylene black.

Other manufactured articles include patent and harness leathers, lacrosse and hockey equipment, electric cooking stoves and ranges, and pipe organs.

#### Whiskey Rates Halved

Of great immediate interest to Canada and benefitting Great Britain also is the 50-per cent reduction in duties on all types of whiskey, lowering the rate from \$5 to \$2.50 per gallon. Under most-favored nation terms these concessions will extend to Great Britain.

Reductions were secured ranging from 30 to 40 per cent in the rate on various kinds of lime, feldspar, tale, basic refractory material, fire brick and cobalt oxide. Continued free entry was assured nickel and gypsum.

#### Granted To U. S.

Canadian concessions to the United States both these specifically reducing to that country from enjoyment of most favored nation treatment, were featured by lowered rates in imports of production. These apply to both agricultural and industrial production and the lowered costs are expected to offset to a great degree any injury suffered by loss of protection in the tariff schedule.

Features of concessions Canada granted on United States fruit and vegetables is that accorded oranges, which will be centered free from January to April, the seasonal restrictions being placed there to protect the Empire preferences. About 40 per cent of normal Canadian orange imports come in during the four free months.

Hundreds of commodities of general use in the home, and personal articles, novelties, conveniences and luxuries, and building materials make up the long list which will come in cheaper because of the granting of the intermediate tariff involved in the most favored nation clause.

These reductions are to the same rates granted 23 other countries enjoying Canada's most favored nation treatment.

While the agreement runs for three years certain it will continue in operation thereafter until six months after notice has been given by either country to end it. Under exceptional circumstances, set forth in the treaty, it may be ended on 30 days notice.

WASHINGTON, D. C., Nov. 18.—The Canadian-United States trade agreement embracing sweeping mutual tariff reductions designed to promote "general economic recovery" in both countries was made public in Washington yesterday by President Roosevelt.

Surrounded by news men gathered in the oval room of the White House, the president expressed the belief that the pact would result in a doubling of trade between the neighboring countries in a year or two, with the consequent effect of reducing unemployment.

Secretaries Hull and Wallace, of the

### OUR MAIL BAG

(TRAFFIC

Fredericton, N. B.,  
Nov. 18th, 1935.

Editor,  
Daily Mail,  
City,

Dear Sir:—

As you have shown a consistent interest in local affairs, the writer would draw your attention to the condition last Saturday night on the south side of Queen Street from Carleton to York.

There was a continuous string of parked cars, many without occupants or lights. This makes it appear parking for the evening.

What about the 30-minute parking time allowance?

There must be some public body responsible for the reasonable observance of City Bye-laws.

The opposite side was also covered with cars, more than one straddling the painted lines for guidance.

Is Fredericton a city or a village?

Yours truly,

TAX PAYER.

State and agricultural departments, respectively, sat beside Mr. Roosevelt as he read a lengthy statement summarizing the reciprocal tariff pact signed last Friday by Prime Minister Mackenzie King and Secretary Hull.

Its rates become effective January 1. The state department said Canadian import charges will be lowered on products of which the United States shipped \$415,000,000 worth in the year ended March, 1930—the last before the Dominion boosted levies.

It estimated the United States tariff reductions would affect commodities which accounted for two-thirds of the total of \$503,000,000 Canadian imports in 1929.

Increased lumber operations in New Brunswick this season were forecast last night by John E. Sayer, Rothsay, president of the New Brunswick Forest Products Association, and W. E. Golding, prominent Saint John lumber merchant, following announcement that under the Canada-U. S. A. trade treaty, the United States is reducing its imports on Canadian lumber from a total of \$4 to \$2 per thousand feet—a 50 per cent cut in both the ordinary duty of \$1 and the special revenue tax of \$3 per thousand.

"The reduction in duty and special tax should prove of material benefit to the lumber industry of New Brunswick," Mr. Sayer said. "With an increase in construction work in the United States, the volume of business with New Brunswick dealers should become much greater, the extent of the increase, of course, depending on the demand."

Mr. Golding said the agreement should be "very helpful" particularly to those sections of the province, which have depended on the American market to consume practically their entire output. "While the lumber industry in the southern part of the province will feel the effects of the treaty, it is in Northern New Brunswick, where they depended upon the United States more than any other market, where the benefits will accrue chiefly. It should stimulate consumption greatly," he said.

Both Mr. Sayer and Mr. Golding expressed the expectation that more men would be going into the woods this winter as a result of the treaty.

### THE CAKE

She gathered around her the bowls, pan and spoon. The flour and shortening were found very soon. The flavoring extract was brought forth to rest. Close by, to be given a most severe test. And finally the cake was all ready to cook. The oven received it; a brief rest she took. She then gently removed it, a sample to try. The suspense has been trying as the minutes passed by. But success crowned her efforts, it was a success. IMPERIAL PURE EXTRACT had again stood the test.

You make no mistake when you buy IMPERIAL PURE FLAVORING EXTRACTS. You will be delighted with the delicate flavor. Get it from your grocer.
