## HON. D. A. STEWART CHARGES OPPOSITION WITH MAKING REMARKS INCONSISTENT WITH THEIR ACTIONS

Large Audience Hears Minister of Public Works At Nashwaaksis—Donald P. Douglass, H. A. Smith, W. J. West Also Spoke—Newton Dunphy Presided Over Orderly Meeting.

Saying that the criticism of the opposition was not consistent with their actions, Hon. D. A. Stewart, minister of public works, attacked the policy of the Liberal party in criticizing the government of this province before a large and enthusiastic meeting in the hall at Nashwaaksis last night. Mr. Stewart said that the opposition in naming expense accounts of the ministers as a cause for criticism were dealing with petty things and he pointed out several parallels where the Liberal government ministers of the present ministers for practically the same thing. Other speakers last night were Donald P. Douglass, Stanley, a new candidate, H. A. Smith, Fredericton, and W. J. West, Fredericton. Newton Dunphy, of Nashwaaksis, was the chairman. Loudspeakers were installed outside the hall and many of those who could not find seats in the hall heard the speeches outside. H. A. Smith replied to the Opposition's attack on the policy of the premier giving back the ten percent cuts to the civil servants by charging that Hon. Mr. Dysart did not offer to give back his own cut although he was not in favor of the return of the cuts to the civil servants.

Donald Douglass

Mr. Douglass appealed particularly to the young people of the province to support the government saying that he understood that it was easy for them to criticise a government when they were just out of college and out counts of the ministers could not expect a job. But, he said, the Tilley government would do what it could for

them. In speaking of the power commission he compared the operation of power plants under the present regime to that under the Liberal administration. He said that through the mismanagement of the Liberals the government has had to pay to the St. John Power Commission \$28,000 a year for the privilege of having them ready to supply power in the summer months when the Musquash Power Plant has not sufficient water to produce power. He expressed the relief of the government that this debt will be all paid this year and the contract has ended. He mentioned the extension of the hydro service to the rural districts with a flat service charge of \$1.00 as one of the many benefits the Tilley government has given the people. In closing Mr. Douglass said, "Premier Tilley is the only premier since Confederation who has had courage enough to fix a minimum wage in forest operations."

Hon. D. A. Stewart

In opening his address Mr. Stewart made it clear that when he spoke of his friends of the Opposition he did not speak of them personally. But when he speaks of them as men in public life he will not use any gloves—they did not use gloves when they handled him. He promised he would not let them away with anything. He mentioned the criticism of the expense accounts by the Opposition as "petty stuff" and added that the expense accounts of the ministers could not expect a job. But, he said, the Tilley government would do what it could for

than the previous governments allowed their ministers," added Mr. Stewart. In speaking of the Provincial Normal School contracts he said that four tenders were received and that the contract had been let to the lowest bidder. After the tenders were ready to be closed a letter was received from a company that asked to supply the equipment, but they could

HON. D. A. STEWART  
Minister of Public Works, who spoke last night at Nashwaaksis

not furnish the required cheque for \$15,000. He pointed out that it would be bad business to let the contract to a firm that could not furnish a certified cheque for that amount when the building cost \$400,000.

"I have no apologies to make to Mr. Dysart or any one else for the cost of the building of the Normal School. Quality is remembered long after price is forgotten and we should be proud to have such a fine building in which to train the young men and women of our province," said Mr. Stewart. He maintained that the amount of money paid to Mr. Mott, the architect, so often criticized by the Opposition, was the regular architect's fee of five percent. In touching on the re-organization of the Provincial Hospital he stated that there was not a cent expended that was not needed. He mentioned the Opposition's remarks concerning the "Montgomery Rock Pile" and assured the people that it was to be used this year in making a permanent road between Campbellton and Dalhousie. While road rock is as high as \$3.00 a yard the government got this rock for \$2.10 per yard.

### Road Machinery

Mr. Stewart spoke on the cost of road machinery and in reply to the criticism of the Opposition on the expense of the machinery he referred to the price they paid for machinery in 1925. He charged that the Liberal government bought road machinery from a man in Saint John and then hired him to travel around the country inspecting it at a high salary, that the Concrete Builders Ltd. did a business with the Liberal government in the Queen Hotel, their headquarters, to the tune of \$600,000. "What did they leave us when they went out of power?" asked Mr. Stewart. He added that all they left was one tractor that would not go to the garage on its own power. "And these are the men who are going to take away machinery and put a shovel into the hand of every man," said Mr. Stewart. He said the Veniot government had paid \$300,000 to patrol 1,454 miles of road and in 1930 the government paid the same amount for patrolling 4,333 miles. The Opposition also made remarks in the House concerning the type of machine bought by the present government, he said, but they refused to back up their statements through a Royal Commission for fear of losing their seats in the House. He mentioned the \$105,000 paid by the Conservative government to the Lancaster Highway Board without anything to show for the obligation and pointed to it as a poor piece of business by the Liberals. He charged that the Liberals built a bridge for the convenience of two or three families, and that the bridge was washed out to sea 18 months later. The bridge which was paid for in small payments cost the province \$48,000.

### Queen Hotel

The speaker said that the opposition bought the Queen Hotel for a liquor store to sell liquor to the sick people of the province in time of prohibition but when the inspector looked at it he decided the floor was not strong enough to hold the liquor for the sick of the province. Then they rented the place to a man for \$1,800.00 a year with an option to renew at the end of five years and today on account of this the province is losing over \$2,000.00 a year on it. Eight days before polling day in August, 1925 P. J. Veniot went to Saint John and made a contract to pay the Saint John Power Commission \$28,000 a year for a "stand by" privilege, and this year we just paid the last payment on this contract. In eight years the opposition created a deficit of over \$3,400,000.00. We have spent a considerable amount of money but not a cent more than the people asked for. The opposition wants to turn us out and put Mr. Dysart in power. Mr. Dysart is a very fine man. They have his pedigree all worked out. His grandfather was a Mason and his father built a church. That is all very well, but we are not voting for Mr. Dysart's grandfather, he is dead, Dysart himself is the man who is appealing to the people. He was rolled out of the leadership in 1930 to make room for Mr. Jones of Woodstock and then after the latter was buried in an avalanche of votes Dysart was rolled back into the leadership. If Dysart was not fit to lead the party in 1930 how is he fit to lead it now. Dysart will be in the opposition for a long time unless he thinks more intelligently and constructively. The opposition had a deficit in 1925 almost as large as the deficit in 1934. Their criticism of our expenditures are not consistent with their actions. They have had parallel expenses for practically the same things and most of theirs are larger than ours. To show how well our credit at Ottawa compares with other provinces, the speaker pointed out that between Ottawa and New Brunswick there is an adjustment of only \$327.00 whereas Nova Scotia has an adjustment of '63,000.

Mr. Stewart paid high tribute to Hon. Dr. R. B. Hanson, minister of trade and commerce and the York-Sunbury candidate in the Federal election. He said the people made no mistake in sending Dr. Hanson to Ottawa and they will make no mistake in sending him again. In Dick Hanson you have a live wire who will do all he can to help his province," said the speaker. He pointed out that New Brunswick has the reputation in Ottawa of spending money from Ottawa as though it were her own and that is one reason why the ministers who go from here to Ottawa never come back (Continued on Page Six)

## Of Interest to Women

### HINTS ON SALAD MAKING

Not for coinage of the realm would many women exchange their reputation for making better salads than any of their acquaintances—provided they are capable of having earned such reputations. For the salad maker is a culinary artist in the truest sense of the word, and must please not only the palate but the eye.

Here are a few directions which will help her achieve the second of these high ambitions:

1. Have ingredients clean, cold and crisp.
2. Arrange on plates neatly and faintly, letting the rim of the plate serve as a frame to the salad picture.
3. Dry lettuce, celery and other vegetables between towels.
4. Avoid an excess of fruit juice or liquid.
5. Arrange chilled ingredients on chilled plates to be served at once, or place in the refrigerator until serving time.
6. Use contrasting colors if possible; they are more tempting.
7. Pile vegetables and fruits lightly and casually.
8. Strive for simple but effective arrangements rather than over-elaborate ones.

#### Summer Potato Salad

- 5 diced cooked potatoes
- 1 diced cucumber
- 3 chopped tomatoes
- 2 tablespoons minced onion
- 1 teaspoon salt
- 1 cup thinned mayonnaise

- 1 teaspoon prepared mustard
- Sweet pickles.

To the potatoes, add the cucumber, tomatoes, onion and salt. Mix with the mayonnaise with which the mustard has been blended. Garnish with sweet pickles. This makes eight servings.

#### Combination Salad

- 1 sliver of garlic
  - 1 head crisp lettuce or romaine
  - 4 tomatoes, peeled and sectioned
  - 1 medium sized cucumber, sliced.
  - 3 or 4 sliced radishes.
  - 3 small spring onions, chopped
  - 1 green pepper sliced into rings
  - Salt.
  - 1 Cup French dressing.
- Sprinkle the inside of a large salad bowl with salt; then, holding the garlic with a fork, rub it in the salt. Pull head of lettuce apart, and drop it, leaf by leaf, into the bowl. Add the rest of the vegetables and the dressing, slowly mixing well so that each vegetable is completely coated. Be sure the vegetables are very cold and crisp before starting. Serve immediately. This will make eight to ten servings.

Rome, Italy, June 10—Premier Benito Mussolini a bit sensitive about his black eye, shooed photographers away when they tried to take close-ups of him as he presided over the 121st anniversary celebration of the Carabinieri or national police. Il Duce's eye was blackened when he collided with a branch of a tree while riding his horse.
