Memorial to 104th Regiment Unveiled Here This Afternoon

**"Events Such as These
Incite Patriotism,"
Says Premier — Mayor
Clark Accepts Memor-
ial — Dr. J. C. Webster
Chairman — Many At-
tend Ceremony.**

"By the erection of monuments such as this which we today unveil, can we hope to preserve and, may I say, perpetuate the wealth of historic lore with which we are so abundantly endowed. British tradition and Canadian valor might well incite in the youth of our land inspiration of future achievement." These, in part, were the words of Hon. A. A. Dysart, premier and minister of lands and mines, as he addressed a large gathering at the unveiling of the memorial to the 104th Regiment this afternoon. The actual unveiling was done by Mrs. A. A. Dysart, wife of the premier, assisted by Girl Guide Commissioner Miss Kate Stewart and Boy Scout Commissioner Alvah Good. Others who spoke were His Worship, Mayor W. G. Clark, Hon. R. B. Hanson, minister of trade and commerce, Lieutenant Governor MacLaren, Rev. Dr. F. H. Wightman, and Brigadier General L. F. Page, D.S.O., Officer Commanding Military District number 7. Also on the platform were Brigadier General Hon. H. H. MacLean, ex-lieutenant governor of the province, and Dr. J. C. Webster, member of the Historic Sites and Monuments Board of Canada.

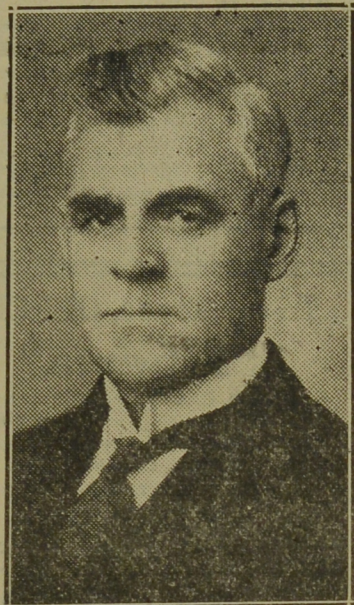

Due to the fact that the Fredericton School Board refused to allow the children two hours off from their studies, there were no children at the unveiling. The Board of Trade had also attempted to have the stores close for two hours during the unveiling, but were unsuccessful.

The Canadian Legion in company with the Knights of Pythias Band, marched to the ceremony from their club rooms on Queen streets. The students of the Provincial Normal School also attended in a body.

Following the singing of "O, Canada" by the entire audience, Dr. Webster called upon Rev. Dr. F. A. Wightman to say the prayer of invocation. Following the prayer Dr. Wightman expressed on behalf of W. W. Hubbard, president of the York-Sunbury Historical Society, the latter's regrets for not being present, he having been called away shortly before the ceremony.

Dr. Webster
Dr. Webster, the chairman, expressed to those present his appreciation of being asked to act in such a capacity in the unveiling of such a well deserved memorial. He expressed the opinion that this memorial was a fine recognition of the heroic march of these brave men of the 104th. As a member of the Historic Sites and Monuments Board of Canada he had never seen a finer memorial, he said. He declared that more interest should be stimulated amongst the descendants of our forefathers in showing appreciation for what they did to make this a good country for us. He thought that in keeping in touch with events in the history of our country served to stimulate patriotism.

Charles A. Taylor, curator of the York-Sunbury Historical Society, spoke briefly on the work of the Society declaring that this memorial which was erected under the auspices of the Society, would stand as a lasting memorial to the great men who marched to Quebec through the rigors of a New Brunswick winter blaz- ing a trail for what was later used as a regular route by others. He expressed

HON. A. A. DYSART,
Premier and Minister of Public Works
who delivered an impressive ad-
dress at unveiling of 104th Regi-
ment Memorial. Mrs. Dysart re-
moved flag from memorial.

BESSBOROUGH SAY FAREWELL TO DOMINION Depart From Ottawa Today After Five Years Here

(Special to The Daily Mail)
OTTAWA, Sept. 26—The Earl of Bessborough and his Countess last night said farewell to official Ottawa. The Government of Canada tendered a dinner to Their Excellencies and Cabinet Ministers and Parliamentarians, the diplomatic corps and the senior civil service paid final homage prior to Their Excellencies departure from Ottawa tomorrow. The ballroom of the Chateau Laurier was decked with scarlet and golden maple leaves, the red carpet under foot was strewn with them; and the green table linen was flecked with the color of them. Sir George Perley did the honors but both the Prime Minister and Mr. Mackenzie King found time in the hurly-burly of election campaigning to telegraph regrets and felicitations. For the first time the new Jubilee Medal was in evidence, and for the first time the decoration to wear as well as their beribboned menfolk.

ed the hope that the Society would carry on with such work as the erecting of this memorial. He was of the opinion that more interest could be shown by the people of Fredericton in affairs of historic interest.

Lieutenant Governor
Following the singing of "My Own Canadian Home" by the gathering, His Honor, Lieutenant Governor MacLaren spoke briefly.

"The Historic Sites and Monuments Board has very fittingly erected a monument in Fredericton to perpetuate the memory of the 104th Regiment. The regiment had a noteworthy history, one which brought distinction both to itself and the Province of New Brunswick."

I shall not attempt to set out in detail an account of the service rendered and battles fought by the 104th, a regular route by others. He expressed

Monument to the 104th

People interested in historical matters today honored the memory of the officers and men of the 104th Regiment which made the famous march from this city to Quebec in the winter of 1813-1814.

This famous regiment made a march that will live in history, and displayed fortitude, fearlessness and devotion to duty.

In addition to its famous march through the wilderness during which great valor was displayed, the men took part in the battles of Lundy's Lane, Hackett's Harbor, Beaver Dam, Fort George, and Fort Erie.

Many Fredericton people are descendants of men who took part in this famous march. Several of the number—over one hundred—were French Acadians from the North Shore and many are from points along the river. All honor to the men for their bravery.

The matter of the monument was first introduced by the York and Sunbury Historical Society. His Worship Mayor Clark, both as Mayor of Fredericton as well as president of the Historical Society, carried a correspondence with Dr. J. C. Webster of the Historic Sites and Monuments Board of Canada, as a result of which the monument unveiled today was erected. The monument is at the intersection of Smythe, Brunswick and King Streets. The Historic Sites and Monuments Board did not blow themselves to any vast extent in regard to the size of the monument. Considering that the stone was to be erected in the capital city of New Brunswick the Board might have been a bit more generous in the size of the structure. It looks as if someone dropped it there.

The flag used on the occasion was an historic one, being the Royal Standard used in old Government House before Confederation.

HOUSE OF LIBERALS MEETS IN P. E. I.

It Forms Its Own Op-
position — Unique
Session

CHARLOTTETOWN, Sept. 26 — Prince Edward Island's House of Assembly, filled with 30 Liberal members, met and carried on the affairs of state without an official opposition. It was not a house of "yes-men", however. At least two government supporters served notice on Premier Walter Lea that they were not going to be a rubberstamp for cabinet-directed policies.

When the money bill, the most important legislation of the special one-day session, was being studied in committee under the guidance of the premier, W. H. Dennis, Second Prince, and H. H. Cox, Second Kings, raised objection to Canada's smallest province providing for \$3,000,000 expenditure to refund loans and carry on public works. To give the cabinet this authority two months after taking office would be going directly against the policy of retrenchment, which placed them in power, the government critics contended.

The unique parliamentary session was ushered in without the customary fanfare of marching soldiers, military bands and prancing steeds. Lieutenant-Governor George DeBlois arrived at the old Colonial Building, scene of the early pre-Confederation conference, at 11:30 o'clock. In the meantime the House had chosen H. H. Heslian, K. C., member for the Third District of King's, as their Speaker.

Absence of an official opposing party helped to speed the work of the session and at 4:15 o'clock yesterday afternoon, the Governor, accompanied by his secretary and aide-de-camp, returned to give His Majesty's assent to the bills passed.

The House was prorogued to meet ordinarily in March, 1936.

The 104th Regiment of the British Army dates from the 11th of February 1811 and was disbanded on the 24th of May 1817. Its origin was unusual as it was created by the conversion of the New Brunswick regiment of Fencible Infantry to a regiment of the line. The New Brunswick regiment of Fencible Infantry formed in 1803 which served until 1811 when it then became the 104th Regiment of the British Army. It was certainly a mark of recognition of its efficiency and quality and so at the outset it won high distinction.

"An outstanding achievement of the regiment was the famous march from Fredericton to Quebec on snowshoes after having been joined by a portion of the regiment then stationed in St. John which proceeded to Fredericton on sledges. The march began from its headquarters in Fredericton February 14th 1813, and reached Quebec on the 17th of March 1813, a period of 31 days. The regiment arrived in Quebec

P. S. WATSON IS AGAIN ELECTED M.M.A. PRESIDENT

Maritime Business Con-
ditions Improved
Say Delegates

KENTVILLE, N. S., Sept. 26—P. S. Watson, of North Devon, was re-elected president of the Maritime Merchants' Alliance in annual convention here.

James C. Mitchell of Moncton was re-elected secretary. The new advisory council will include W. H. Kelly, St. John; Clarence Wood, Windsor, N. S.; C. H. Burr, Fredericton; Jas. Davis, Woodstock, N. B.; D. R. Nelson, Springfield, N. S.; E. T. Hunter, Amherst; Leroy Ingalls, Grand Manan, N. B.

Business conditions in the Maritime provinces had improved tremendously in the last year, according to reports presented to the 75 delegates who represented 258 grocery stores throughout Nova Scotia and New Brunswick.

The alliance was organized on Friday, Feb. 13, 1930, as a co-operative enterprise. At that time it was composed of 51 merchants. Today, it has stores employing more than 1,500 persons and is divided in seven zones.

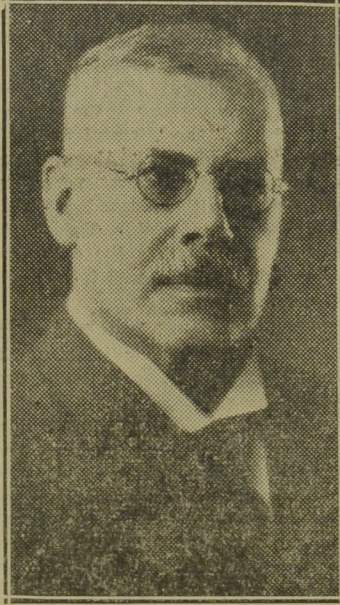

LIBERAL MEETINGS HELD LAST EVENING

Prince William and Brockway last evening were the places where Political meetings in the interests of the Liberal Party were held. Every speaker asks that Mon. MacKenzie King and the Liberal Party be returned to power at Ottawa on October 14. "What we wish and all that we are asking for the province of New Brunswick is a fair market and fair prices for our produce", the speaker said. Mayor W. G. Clark, Liberal candidate, and E. W. Stairs, M. P. P. were the speakers at Prince William and at Brockway, the speakers were H. Ralph Gunter, M. P. P., F. B. Osborne and A. W. Coombes. These two meetings were large and enthusiastic

in excellent order after a march of 360 miles through the wilds and bitterly cold weather without losing a man. It is interesting to note that General Thomas Carleton, First Governor of this province, walked from Fredericton to Quebec in 1788 to see his brother who was ill at that time. The route followed by the Governor was by Madawaska River, Lake Temisquata and the Grand Portage to the St. Lawrence River. This was 25 years before the march of the 104th regiment.

"In closing I wish to take the opportunity of reading by the kind permission of its author, the Rev. Archdeacon H. A. Cody, written in 1934 on (Continued on Page Four)

Italy Cancelled Sailing of Soldiers Mobilization Denied

HON. DR. MURRAY MACLAREN,
Lieutenant-Governor of New Brun-
swick, who took part in the unveil-
ing of the 104th Regiment Memorial
today.

**Owing to Lessened Ten-
sion Between Italy and
Great Britain, the Lea-
gue Council at Geneva
Met Yesterday to Study
the Next Move.**

LONDON, England, Sept. 26—It was officially stated in Rome that Italy will never take the first step to transform the Italo-Ethiopian dispute into a European one. Italians at Geneva were scornful of Ethiopia's plea for dispatch of a commission to Africa.

In London, a program for concentrating the Mediterranean Fleet in Greek waters was disclosed. The Admiralty took steps to rebuild the depleted Home Fleet.

A story appearing in a London weekly that Prime Umberto, heir to the Italian Throne, was opposed to Premier Mussolini's quarrel with Ethiopia was reprinted by Paris newspapers. The report was authoritatively denied in Rome and London.

"Italy is rapidly losing interest in what the League may or may not do".

That was the report when the spokesman, was asked what he thought of a telegraphic appeal to the League from Emperor Haile Selassie, stating Ethiopia from the frontiers to avoid "incidents", and reiterating a request for impartial observers to "fix the responsibility" for any aggression that might occur.

In all probability, the spokesman continued, Italy's chair at the League Council's horseshoe table will be vacant today when the Council begins to talk over the situation.

Neither London nor Rome had official report of a clash between an Italian Party and the British warcraft at Mokha, Arabia.

roads and the dust nuisance. Mayor Brittain held that a short stretch of permanent highway here and there was the wrong procedure and urged that a highway, a main artery, be completely hard-surfaced, such as from St. Stephen to the Nova Scotia border. He contended that the tourist business was a big item to the province and said that many tourists were turning back when they found out about the dust nuisance.

Asks More Advertising

Others to speak on the matter were L. P. A. Robichaud, Richibucto, who said he felt the short stretch work was better, in that it would educate the people to realize that permanent roads were a necessity, and Commissioner A. E. Massie, St. John, who said that from Jan. 2 to Aug. 31 some 372,213 cars had come into Canada at St. Stephen and some 63,000 at Edmundston. He said the tourist business was a big industry and felt that more permanent highways would bring a much greater number to the province. He also stated that a more elaborate advertising program should be carried.

Distribution at Fault
In the course of his address on Wednesday, Professor Keirstead said:

"Even if it were true that the machine created unemployment, that is surely a most superficial view. The machine saved labor. It makes more and better commodities; it is a servant of man. It cannot cause depression. If the machine seems to cause depression it is because the machine is being used in a society which has outworn inadequate institutions for the production and distribution of wealth. It is these that must be modified, not the machine that must be destroyed."

Handling Criticized

The "dole" in Canada has been badly handled, he declared. "It has not been a national scheme, but a local (Continued on Page Four)

PRICES FOR CHEESE HIGHEST IN YEARS AT AUCTION SALE

Cheese sold at 13.5 cents a pound for triplets at a meeting of the New Brunswick Cheese and Butter Board in the Saint John Board of Trade rooms yesterday. That price is the highest paid at the board's sessions in several years. Shortage of output at the present time was stated to be the reason for the big jump in price.

There were 251 boxes offered for

sale, 35 less than offered in the same month last year. At that time the price paid was 11 cents a pound for triplets. At the last meeting of the board two weeks ago, the price paid for triplets was 11.75 cents a pound.

It pays to advertise in The Daily Mail.

CONQUEROR OF THE ATLANTIC MAY OPPOSE PREMIER MUSSOLINI

PARIS, France, Sept. 26—There is a report in official circles here of General Italo Balbo, governor of Libya and Italian air hero, leading a revolt against Il Duce.

"Balbo, whose relations with the Royal Family are excellent, is also opposed to the Ethiopian campaign", the story asserted. "A large number of Italian superior officers share this view".

Henri de Kerillis, in the conservative Echo de Paris, commenting upon the report, asserted "the Soviets are dreaming" of Fascism's downfall with Premier Mussolini.

"Admitting that the illustrious conqueror of the Atlantic (Balbo) had the design attributed to him, which I doubt, the chances for the Balbo combination are the most fragile", said de Kerillis.
