IT'S NEVER TOO LATE

Everybody is familiar with the old adage "It's never too late to mend." It is an adage with truth in it. A letter has just come to my desk from Miss A. K., and after reading it, I deeply sympathize with her for she certainly had a tough time. Physically, she has had a great deal of illness, and her physical condition has undoubtedly had a mental reaction. Try to take your mind off your troubles, Miss A. K. It is not always easy to do that, but you will never achieve much until you do. With a little effort it can be done. In your capacity as supervisor in a children's home you should be able to find some things to interest you and take your attention away from yourself, and your condition. You want to find something to occupy your attention in your spare time also and perhaps the best way to do that is to follow some definite line of study.

You speak of taking up the study of French or of Elocution and ask if you are too far advanced in life to do that. Of course not. "It's never too late to mend" and we never reach a time when mental development is beyond us if we are prepared to go about it the right way. Men and women have started out on new ventures at a

more advanced age than you are and have made success. I could cite a great many instances which demonstrate that. My advice to you is to set a definite objective before yourself, and steer a straight, clear course toward that.

There is much more that I would like to say to you, but it is hardly appropriate to say it in this column, so I am writing to you personally and, if after receiving my letter you think I can be of further service, I will be glad to have you write to me again. Please do not hesitate.

Another letter has come to me from a reader in Zurich. Here is a young man with a definite ability and a good type of mind. He has musical ability and has played in orchestras at different times. He tells me he is handicapped with poor health and that he suffers from bronchitis. He has not been in very steady employment and he would like me to get him a job in the city. Well, that is one thing that I can hardly undertake to do. But why my reader wants to come to the city, I don't know. I think he would be well advised to remain in the country where he has all the advantages of the pure, clean, fresh air which folks in the congested city areas would sometimes be willing to give a great deal to have.

After all, there are opportunities in the country and I am sure if my reader friend will look around him and use the talent that he so obviously possesses, he will find that he can make as great a success of life, and perhaps greater, in the country than he will ever be able to make of it in the city. I think this young man should map out a course of reading for himself as a means of further preparing himself for whatever opening may occur. The main thing in life is to be ready to seize the opportunity when it presents itself. I would advise him to fix his mind on some definite subject and then read all he can lay his hands on which pertains to that subject. He should also read some good magazines. Why not, for example, subscribe for some good musical magazine and go in wholeheartedly for the study of music?

Attention Liberal Women!

Entertainment

An Entertainment will be held in the

K. of P. HALL on

Tues., Oct. 8 at 8 p.m.

under the auspices of the Women's Liberal Club.

All Liberal women voters of Fredericton and the vicinity are invited to hear one of the greatest events in the political history of Canada. A national hookup of eight great Liberal Premiers to be followed by the RT. HON. W. L. MACKENZIE KING.

Light refreshments will be served. An enjoyable evening is promised.

M. B. CROCKER,
President, Fredericton Branch of
Women's Liberal Club.

Theatre of The Air

Find Out

From Your Doctor
if the "Pain" Remedy
You Take Is Safe.

Don't Entrust Your
Own or Your Family's
Well - Being to Unknown
Preparations

BEFORE you take any preparation you don't know all about. For the relief of headaches; or the pains of rheumatism, neuritis or neuralgia, ask your doctor what he thinks about it—in comparison with "Aspirin."

We say this because, before the discovery of "Aspirin," most so-called "pain" remedies were advised against by physicians as being bad for the stomach; or, often, for the heart. And the discovery of "Aspirin" largely changed medical practice.

Countless thousands of people who have taken "Aspirin" year in and out without ill effect, have proved that the medical findings about its safety were correct.

Remember this: "Aspirin" is rated among the fastest methods get discovered for the relief of headaches and all common pains... and safe for the average person to take regularly.

"Aspirin" Tablets are made in Canada. "Aspirin" is the registered trade-mark of the Bayer Company, Limited. Look for the name Bayer in the form of a cross on every tablet.

**Demand and Get
"ASPIRIN"**
