

## HON. W. H. HARRISON FORECASTS

## A BALANCED BUDGET IN 1935

(Continued from page three)

other feature of the government's good work in Carleton county and he mentioned the Arcostock Falls as a good example of what can be done by a government to give people cheap power.

## Hard Surfaced Roads

If hard surfaced roads can be made to stand up to the heavy traffic and weather, he stated, that the people of Carleton county would be well paid. They are greatly superior to the old gravel roads and he stated that the work was going on with the full approval of all the people in Carleton County.

## Budget

Like all the other government speakers Mr. Melville stated that he did not see how the Opposition could increase expenditures, reduce revenue and balance the budget.

## Every County, Let Alone

N. B. has its deficits and this province should be thankful that the present deficit is not even greater than it is. He stated that with the promised increased subsidy and increase in succession duties the budget will be balanced another year. It is to be credited to the government that they have not increased taxation in balancing the budget.

## Farmers' Creditors' Act

Speaking of the Farmers' Creditors' Arrangement Act, he stated that the honorable member from Victoria had been mistaken when he discredited the feasibility of the Act. For the hon. member opposite to suggest that this legislature go to the 248 members of the House of Commons at Ottawa and demand that the Act be stopped is one

of the most stupid ideas that he had ever heard of, said Mr. Melville. The Act had been approved by all the members of the Ottawa House and there must be some bright men there", said Mr. Melville.

## Farm Mortgages

Speaking of his own experiences, Mr. Melville stated that he would be greatly relieved if the Farmers' Creditors would scale down his principal and pay him off.

## Marketing Board

Mr. Melville in support of the Potato Marketing Board stated that it was a great thing for the farmers. Why doesn't the Act supply to the shipping of seed potatoes. The rich farmer has monopolized the seed potato exportation and is squeezing the little farmer out. It should apply to seed potatoes as well, and protect the little farmer even more.

Cutting down potato acreage would be a good thing for the farmer. Other governments had practiced regulated agriculture production with success and it would be a good plan to have here.

Quebec should be included in the Marketing Board stated Mr. Melville. He was of the opinion that there would be a good opening for N. B. potato in Quebec and Ontario soon.

Mr. Melville was heartily in accord with the advertising that this province did last fall when they sent trial shipments to Egypt and other countries.

## Commodities

There are certain by-products stated Mr. Melville that can be manufactured from potatoes. Glucose, the base of all candies and used in many other

commodities, can be made from potatoes and could be made in this province rather than importing it from the United States. Ganongs alone import 50 carloads a year and pay from 4-12 to 6 cents a pound for it. Fish cakes manufactured from codfish, potato chips, and many other by-products of potatoes could be manufactured in this province, and they could be if a high tariff were put on the commodities imported from the United States.

## Members' Salaries

Regarding the reduction of members' salaries mentioned by Mr. Downey this afternoon, Mr. Melville stated that he could understand the members of the Opposition for being ashamed to take their salaries, but that the members of the government deserved every cent they get.

The heavy deficit of the Canadian National Railway could only be solved by a union government said Mr. Melville.

He stated that he was pleased to hear that Carleton County ranked so high in education. Mr. Melville in closing said he would like to see Carleton county given an opportunity to develop their potato industry.

## HIDULPE SAVOIE

Hidulpe Savoie, Opposition, Northumberland, continuing the debate, began with the usual congratulations.

He stated that it takes an able speaker to face the people and this House with such a picture of our finances in this province, as did the Hon. Secretary-Treasurer. When looking over the figures, one cannot help a feeling of sadness when realizing that our province has again this year such a tremendous deficit—the largest deficit ever forecast in the history of the province.

Every man, woman and child of this province has been taxed more than they will ever be able to pay. Why, Mr. Speaker, it is next to criminal the manner in which the money of this province has been expended without any regard for economy.

## Platform

The Government Members have been trying to minimize the part of our platform already given by the Leader of the Opposition, clamoring it cannot be worked out, and cannot possibly be realized. It is our determination to save the province from bankruptcy. If this Government had kept its pledges, and stood to their platform of 1925-1930, we wouldn't be in the position we are in today.

The only pledge they have fulfilled is the great Grand Falls question where that great water power was given away. It was going to cost the province too much to develop according to this Government. They were going to give Old Age Pensions and Mother's Allowances at that time. They were talking hard surface roads at that time also, nearly ten years ago, but they just got started last year.

## Crown Lands

It seems useless for me to say very much of our Crown Lands for this matter has been thrashed out in this House several times by the Opposition, especially by the Members from Northumberland, but I cannot help protesting again about the rotten deal given our section of the county, renewing the leases without the building of pulp mills which had been so solemnly promised. It is extraordinary that they ever decided to give us Hydro which we had been asking for several years, and I wish here to give the Commission some credit for the accomplishment of bringing electric power to the Miramichi after so many

years hesitation. Whether a donkey or cold oil burner, it brings electricity any rate. We of the Opposition claim some credit for that asset in the Miramichi, for we certainly have demanded again and again that electricity be brought to the Miramichi, and hope also that before many years it will be extended throughout the country of Northumberland so as to provide power for industries in different parishes of our county.

I was dealing, Mr. Speaker, with broken pledges of this Government. I might mention here in passing the great pledge of economy. Nothing else but economy this Administration was going to give and by the example in practicing that great virtue can be judged by the public debt of the province, and the deficit shown almost every year. One good example is in the Department of Public Works, where we discovered irregularities in the recent investigation.

Public men in public places and more particularly the Provincial Secretary Treasurer ought at least attempt to be sincere when discussing the finances of the province which so intimately effects the well being of its citizens. In my humble judgment, Mr. Speaker, this Government has offered as yet no sound reason or excuse for the sorrowful plight offered. A tremendous debt load reflects enormous sums squandered.

## HENRY DIOTTE

Henry Diotte, Restigouche made the opening remarks of his address in French and stated that it was proper to speak in French in the House of Commons. He stated that he would continue in English because most of the members could not understand him—they would learn some time. He mentioned that there are many clubs but the Tilley Club is destined to bring the premier back to power

again. His remarks were humorous and received much applause.

Speaking of colonization he stated, that the member from Gloucester was "bughouse on Colonization", but he stated that the government was doing much more than the opposition could ever do.

Stumpage, he said was directed in a good manner and could not be improved.

Speaking on the roads of the province, Mr. Diotte stated that he would not say much because the roads were good. He stated that in a little while the roads would be all hard surfaced. Mr. Diotte's address received much applause and he closed with the parting thrust that next year "the members opposite would not be so many".

## Adjournment

J. W. Niles, Victoria, moved the adjournment of the debate which was made the order of the day for Thursday.

The House resolved itself into a committee to enact legislation.

The chair was occupied by H. M. Groom.

The following bills were taken up:

An Act authorizing the city of Moncton to sell and convey certain lands acquired on account of non-payment of taxes, etc.—Reported as amended.

An Act authorizing the city of Moncton to sell and convey certain lands in the said city—Reported as amended.

An Act to amend the Act entitled the City of Moncton Assessment Act, 1921—Reported as amended.

An Act to authorize the city of Moncton to issue debentures—Reported as amended.

An Act to amend the Consolidated Acts incorporating or relating to the town of Moncton—Reported as amended.

The House adjourned at 4:45 p.m.

## THURSDAY'S PROGRAMS
