gene Paquet of Bonaventure, who sat  
in the commons from 1904 until 1917

After effecting a partial reconstruc-  
tion of his Cabinet, involving the

cured dissolution of the 17th Parlia-

### OUR FLAG

We Canadians as a whole will have to take a back seat to  
our American cousins in the respect which we show to our flag.  
A few years ago when the writer was in California he was im-  
pressed with the manner in which the children of the public and  
private schools stood at attention in front of their school build-  
ings each morning and saluted their stars and stripes. The chil-  
dren were taught lessons on flag etiquette and in the respect which  
they should have for the banner which floats over and protects them.

We are living in the best Empire that ever existed. We  
have the best system of government which exists upon the earth  
today, and we are living under a flag upon which the sun never  
sets. Have we proper respect for our flag and all that it means?  
We are supposed to have a flag on every school building. But are  
our children taught by their teachers and others what our good old  
Union Jack represents? Are they taught the respect which they  
should pay to their flag?

It was only this morning that a man was seen putting up a  
flag. He was dragging it along the ground towards the pole. The  
man's intentions were good. He did not know any better. There  
is a right and a wrong way to handle our flag. It may be as the  
song says, "only an old bit of bunting" or a "tattered rag" but  
it stands for a mighty lot.

### HON. F. W. PIRIE GIVEN HONORARY MEMBERSHIP

The regular quarterly general meet-  
ing of the Fredericton Branch of the  
N. B. Fish and Game Protective As-  
sociation was held last night in the  
City Council chamber. Full reports  
were given by the various commit-  
tee chairmen on their activities for  
the three month period. Of interest  
was the report of the local game bird  
committee chairman, H. C. Moore,  
which showed that the hatching and  
operation of this pheasants as carried  
on by the branch was most successful.  
Mr. Moore also gave the welcome  
news that everything pointed to good  
season for ruffed grouse.

In his report on the Migratory Game  
birds, John Kinghorn strongly ad-  
vocated a definite and supervised effort  
to increase the food available for wild  
duck during the season, by the plant-  
ing or propagation of suitable plant  
life in their feeding and breeding  
grounds.

Arrangements were made to start  
erection work on the Branch's booth  
at the Fredericton Exhibition with en-  
thusiastic offers of help to the execu-  
tive by a number of members present.

Honorary membership in the Fred-  
erickton Branch were extended to  
Hon. F. W. Pirie, Minister of Lands  
and Mines; G. H. Prince, deputy;  
Lt.-Col. Ritchie, chief game warden,  
and G. L. Miller, chief forester, in re-  
cognition of their sincere co-operation  
in the work of the Association.

### THANKSGIVING DAY OCT. 24

It was necessary for the govern-  
ment to pass an order-in-Council re-  
solving that passed some months ago  
fixing October 14 as Thanksgiving  
Day and changing the national holi-  
day to October 24. Originally it had  
been planned to hold the elections on  
September 30. Mr. Bennett said, but  
in order to complete the necessary pre-  
liminaries, it was then decided to de-  
lay polling until October 7.

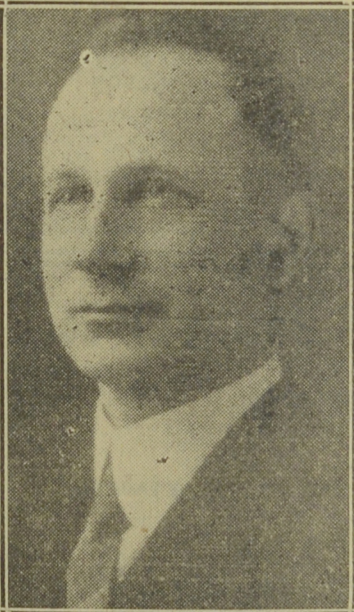

Immediately the latter date was  
publicly discussed it was brought to  
the attention of the government that

### PUBLISHER'S FORTUNE NOW ONLY MEMORY

NEVADA, Mo., August 15 — The  
man who started the book agent on  
his trek from door to door in the West  
and made \$1,000,000 out of the idea  
boasted good health yesterday at 89—  
but his million is only a memory.

"All I have to show for it are these  
old books that made it for me," said  
William S. Bryan, who lives here at  
the home of a niece.

"I was the first publisher in the  
West who sold his books through  
agents or canvassers," he said. "The  
thousands of canvassers who worked  
for me put 15,000,000 of my books  
into the homes of this country".

Today Bryan has turned to writing  
himself. His latest work is about the  
trail-blazing Daniel Boone who, Bryan  
said, was his great-uncle.

### Will Press Dominion Cabinet to Have Head- quarters at Moncton and Railway Operated as it Was Previous to 1912.

The New Brunswick Government  
will seek to have the former status  
of the old Intercolonial restored and  
the railway operated as it was previ-  
ous to 1912, with the control centered  
at Moncton. The government will  
press the Dominion Cabinet to take  
action at once in this regard, accord-  
ing to a statement given to the press  
today by Premier Hon. A. A. Dysart.

Mr. Dysart claims that New Brun-  
swick shippers, producers and im-  
porters have been sacrificed, and that  
this province has suffered economic-  
ally by the change made in 1912  
when the operation was handed over  
to the Canadian National Railway.

Hon. Mr. Dysart's statement given  
to The Daily Mail today is as follows:

### The Intercolonial Railway

The Government has been giving its  
attention to the transportation prob-  
lems confronting the people of New  
Brunswick, which have been weighing  
heavily upon the economic life of the  
province.

Under the abnormal conditions that  
existed during the war period, a  
change was made in the operation of  
the Intercolonial Railway by which  
eventually its management passed in-  
to the hands of the Canadian Na-  
tional Railway Company.

The operation of this railway by an  
incorporated company is a violation of  
the Confederation arrangement under  
which it was intended the line should  
be operated by the Federal Govern-  
ment essentially as a service institu-  
tion.

The operation of the railway by the  
Canadian National Railway Company  
has prejudiced materially the inter-  
ests of the producers, importers and  
shippers of New Brunswick and has  
seriously affected her economic and  
industrial development.

The government has decided that it  
is essential to have this railway re-  
stored to its constitutional status;  
and to this end a demand is now be-  
ing presented to the Government at  
Ottawa that steps be immediately tak-  
en to have the Intercolonial operated  
as it was prior to 1912 with its man-  
agement at Moncton.

### SAINT JOHN YOUTH SHOOTS WAY TO TOP

CONNAUGHT RIFLE RANGES,  
South March, Ontario, August 15 —  
Curly-headed gentleman Cadet R. D.  
McLeod, 20-year-old Saint John rifle-  
man, yesterday shot his way to the  
top of the MacDonald-Brier match,  
one of the richest events at the annu-  
al meeting of the Dominion of Cana-  
da Rifle Association.

The Maritime Cadet, protege of  
Lieut. J. Neal Dow, Saint John cadet  
coach and Bisley shot, sniped a possi-  
ble 50 over 300 yards and added 49  
at 600 for 99 of a possible century  
and led more than 400 of Canada's  
sharpshooters. Cadet of Royal Military  
College, Kingston, the youth last  
year realized an ambition when he  
travelled to Bisley as a member of  
the Canadian team. He failed, how-  
ever, to gain a berth on this year's  
team.
