HE HAD ECZEMA 25 YEARS AND DOCTORS SAID "NO CURE."

This is the experience of a man of ily be investigeted. Mr. T. M. Marsh that the Opposition is under a has lived there for years. For twenty-five years he has had eczema reaching to be decided in a hurry. on his hands and wrists. ease first started in red blotches, which discharged, and the discharge spread the disease until his hands were one raw, painful mass of sores. This state of affairs continued for twenty-five years!

In that time four eminent medical men tried to cure him and each gave up the case as hopeless. Naturally, Mr. Marsh tried remedies of all kinds he, also, at last, gave it up. For two years he had to wear goves day and night so terrible was the pain and itching when the air got

to the sores Then came Zam-Buk! He tried it, just as he had tried hundreds of remedies before. But he soon found out that Zam-Buk was different. Within a few years there were distinct signs of benefit and a little perseverance with this great herbal balm resulted in what he had given up all hope of complete cure! And the cure was no temporary cure. It was permanent. He was cured nearly four years ago. Interviewed the other day Mr Marsh said: "The cure which Zam-Buk worked has been absolutely permanent. From the day that I was cured to the present moment I have and no trace of eczema and I feel sure

Many British public men and journals are disquieted over the situation There is not only the annual outlay of £381,000—nearly \$2,000,000—thrust upon the British taxpayers for the upkeep of three superfluous Dreadnoughts, but the demand of Mr. Borden for constitutional changes which will give Canada a "voice" in Imperial councils in ret.rn for her debious assistance. Every other Dominion will aspire to the same role as Canada-New Zealand has already put in her claim. British statesmen are plainly embarrassed by those importunities. At the last Imperial Conference, Mr. Asquith emphatically declared that the British Government could not share its responsibility for the foreign policy of the country because it had to bear the consequence Today he is obliged to fence with the demands put forth by the Dominions at the instigation of Canada.
