The greater part of this massive edifice, which presented a face 675 feet long to the direct fire of the eet long to the direct fire of his eebel batteries, was built during the dime of Cortez. It has been added to in more recent years but the ori-ginal plans were closely followed. The walls have an average thickness of ten feet. The roof is flat and of-ered a poor target. Great shells and heavy cannon balls expended their might in vain against this long gray ile of Aztec-hewn rock. Splintered stone and a great coat of dust found their way into every nook of the shot-tortured structure and projectiles entered through windows and skylights, but a few thousand pesos will cover the cost of obliter-ating from the Palace all signs of the recent struggle.

Less damage was done the Municipal Palace, which forms another boundary of the Palace Square, or Zocalo. But down 16 de Septiembre Street, which leads from the Zocalo toward the Ciudadela, the arsenal the loss it much greater. This is the department store district and the big Is the thing I need but I can't ake it on account of its horrible aste. Ever say that? If you did ou had in mind the old blue bot-French dry goods houses, with their easily damaged stocks, were not in a position to escape loss from fire and flying debris. Employes of these stores stayed in the buildings and at the risk of he fires that often followed the path of a shell.

Several of the largest German hardware stores are located in this district, which was swept by the dir ert fire between the Ciudadela and the ert fire between the Ciudadela and the Palace. ## LEADERS OF ALLEGED

Chicago, Ill., Feb. 27—Three men alleged to be implicated in the operations of the "Arson Trust," which is declared to have swindled insurance companies out of 'millions of dollars in Chicago, were arraigned for hearing in the Municipal Court today. The men each of Queens Co., N.S., says: "I must add my testimony to the value of Zam-Buk. Uleers and sores broke out on my arm, and although I tried to heal them by using various preparations, nothing seemed to do me any good. The sores spread until from fingers to elbow was one mass of good. The sores spread until from fingers to elbow was one mass of ulceration.

"I had five different doctors and faithfully carried out their instructions. I drank pint after pint of blood medicines, tried salve after salve and lotion after lotion but it was of no avail.
