Admission 15c.

A. D. THOMAS, President,  
S. B. EBBETT, Sec.-Treasurer.  
106—Feb. 17.

## Notice of Legislation

Notice is hereby given that application will be made at the next session of the Legislative Assembly (A. D. 1913) for the passage of an Act to amend the Act 2 George V, Chapter 109, incorporating the St. John River Hydro-Electric Company (a) increasing the bonding privileges from \$3,000,000 to \$4,500,000 (b) enlarging the time by one year for the commencement and completion of the Company's works and for other purposes.

Dated this tenth day of February, A. D. 1913.

St. John River Hydro-Electric Company  
R. M. McCarty, Sec.-Treas.

## "I ATTRIBUTE MY CURE SOLELY

## And Entirely To Taking "Fruit-a-tives"

HULL, QUE., Dec. 24th, 1909  
"For the past twelve years, I had painful attacks of Dyspepsia. I could not digest my food and everything caused the most agonizing pain in my stomach. I also had a fearful attack of Constipation and at times, I had no movement of the bowels for two weeks.

Three doctors attended me for two years and gave me all kinds of medicine but did me no good. My weight came to only 80 pounds and everyone thought I was going to die. Finally, I had the good fortune to try "Fruit-a-tives" and as soon as I began to take them, I felt better. I persisted in the treatment and to my great joy, I steadily improved.

Now I feel very well, weigh 115 pounds, and this is more than I ever weighed even before my illness. I attribute my cure solely and entirely to "Fruit-a-tives" and can never praise them too much for saving my life. To all who suffer from Dyspepsia and Constipation, I recommend "Fruit-a-tives" as a marvellous remedy."

Mrs. ANDREW STAFFORD.  
50c a box, 6 for \$2.50, trial size 25c. At dealers or from Fruit-a-tives Limited, Ottawa.

## J. PIERPONT MORGAN HAS INDIGESTION

Cario, Feb. 19—C. P. Morgan is still confined to his room in an hotel here and the doctor was in attendance Tuesday morning. Mr. Morgan authorizes contradiction of alarmist messages regarding his condition, said to have been spread for effect. He is suffering from biliousness, indigestion and effects of overwork. It is stated that Mr. Morgan and his grand-daughter will leave Cairo today for Naples.

Mrs. H. E. Currie of Woodstock is visiting relatives here.  
Mr. J. D. Kennedy of Salisbury is at the Queen.

## CITY ELECTIONS

The Election for Mayor and Aldermen of the City of Fredericton for the ensuing year will be held on MONDAY 10th DAY OF MARCH NEXT at the following places viz: Division No. 1.—For all voters residing or owning property above the centre line of Carleton Street prolonged, at or near the City Hall in the said City.

Division No. 2.—For all voters residing or owning property in the remainder of the said City not included in Division No. 1., at or near the County Court House in the said City. Polls will be opened at the above named places at nine o'clock a.m. of the said day of Election, and will close at the hour of four o'clock p.m. of the same day.

Nominations for the office of Mayor or Aldermen must be filed in the office of the City Clerk, City Hall, at or before four o'clock on MONDAY the 3rd day of MARCH next, and must be signed by at least two qualified Electors and the signatures attested to under oath.

Forms for Nomination may be procured at the City Clerk's office. A Certificate of the City Treasurer showing that all Rates and Taxes of the Candidate have been paid within the time required by law must be attached to each Nomination Paper.

## PLEBISCITE

At the same time and place the Electors are requested by resolution of the City Council to express their preference of one of the following methods of selecting a Police Commission:

1. Shall the City Council continue to appoint from among the Aldermen a Police Commission?

2. Shall the Police Commission be elected by a vote of the Citizens in the same manner as the Mayor and Aldermen?

Dated at this Office of the City Clerk, February 13th, 1913.

J. W. McCREADY  
City Clerk.

117—March 10th.

## House Numbering

Attention is directed to the following section of the City By-law to regulate the Numbering of the Entrances to Buildings:

"The owner or owners of every building having an entrance, or entrances, leading to any street shall place or caused to be placed 'the proper and correct number upon or over the street entrance, or entrances, to every such building.'"

The owners of buildings not already numbered are asked to comply with the above law in order to facilitate the free mail delivery about to be established within the City. The proper number of any building may be had on application at the office of the City Engineer, City Hall.

By order of the City Council.

J. W. McCREADY,  
City Clerk.

CITY HALL,  
Feb. 15, 1913.  
107—Feb. 21st.

## FARMERS AND DAIRYMEN

(Continued from page 1)

## EVENING SESSION

At last evening's meeting President Smith briefly introduced His Honor Lieut. Governor, who expressed his appreciation of opportunity of attending. He said he could not claim to have been a practical farmer, but always had been interested in agriculture. Those present were to hear addresses by two of the most noted agriculturists of Canada.

## J. H. GRIDDALE

Mr. J. H. Grisdale of Ottawa, director of experimental farms was then introduced. His subject was "Principles and Best Practices of Soil Cultivation." The speaker stated that he had thorough knowledge of soil conditions in New Brunswick as he had covered practically the whole province. Farmers who really farmed and not merely lived on land must pay attention to soil cultivation for it was necessary for him to make his receipts as much as possible greater than his expenditure and it should also be his aim to leave his land in best possible condition after each crop. He also could minimize if not ensure against crop failure by proper soil cultivation and could lower the cost of production.

There was no business which needed more knowledge or greater application than farming and if followed in right lines that occupation would produce wealth. That could be done not by hard work alone but by thinking.

First essential to cropping was planting upon land properly selected and prepared. Preparation occupied years. Drainage of land was necessary for successful farming and if good would extend growing season materially. Quick maturing crops were light in yield, but long growth increased yield.

Farmers should try to grow crops most adaptable to soil he possesses although with proper drainage and rotation almost any crop can be raised off any land. Rotation was cropping in series returning to crop with which beginning was made. It was very little practised many farmers thought they had it when they did not. Rotation should leave land in better condition than it was at beginning. About one per cent. of Canadian farmers followed rotation. In the Old Country the situation was reversed.

The speaker gave instance of five year's rotations which had worked out successfully. Shortest rotation was three years, such as hoed crop, grain, hay or clover. Mr. Grisdale gave an instance of a five-year rotation increasing annual crop value from \$2,600 to \$5,400.

Taking three year rotation the speaker stated that hoed crop should be put into clover soil, one crop of clover being worth ten or twelve tons of manure per acre. Barnyard manure also should be added. Potatoes, turnips and corn might compose the hoed crop. Such crop would prepare land for grain crop of second year. Manure should not be applied directly to grain. Soil would then be ready for hay, timothy and clover being mixed according to fixed proportion. Alfalfa was also sown at the Ottawa experimental farm, but had not succeeded in New Brunswick. He strongly advocated quick seeding for hay. Three year rotation easily could be extended to four or five years rotation.

For corn growing summer and winter manuring should be done and spring ploughing done.

With regard to grain-crops speaker said that firm seed-bed was an essential.

Mr. Grisdale gave some interesting data concerning cost units of production and means of reducing them. He advocated use of horse implements on scale as large as possible. Large machines he claimed were the most economical. Big horses and skilled labor also produced best results.

It was possible by use of labor saving machinery to double crop returns and reduce cost production by at least 30 per cent. He would advise purchase of no machinery which would not be an improvement on that which had preceded it.

Dealing with the Dominion Experimental farm recently established at Fredericton, Mr. Grisdale stated that popular demand had compelled increase in the number of such farms in the Maritime Provinces. Model farms might not be established but some interesting and instructive experiments and demonstrations would take place there. He referred in complimentary terms to Superintendent W. W. Hubbard who is in charge of the farm and who formerly was secretary of agriculture in the province. Intention was to raise stock of all kinds upon the farm in order to demonstrate the way in which crops could be converted into most mer' chantable form. He concluded his address by cordial invitation to all to visit the experimental farm.

## DR. C. C. JAMES

Dr. C. C. Jones of Toronto, Special Agricultural Commissioner of the Dominion, was the second speaker, making his first appearance before a New Brunswick audience. He stated that no one had to go West to secure agricultural possibilities.

"I wonder if you people," said the speaker "have yet awakened to the

possibilities you have in Nova Scotia, Prince Edward Island and New Brunswick."

In Ontario a publicity booklet had made farmers of one county acquainted with their own resources and possibilities. As a result ordinary farm lands had increased three dollars per acre and fruit-lands and garden-lands thirty dollars per acre.

Dr. James then took up his subject "The New and the Old Agriculture." Time was when the farm was a self-contained community with its own little industries. Now those industries were conducted in factories and in certain districts such as the West the farmer has narrowed his activities to one line and was producing nothing but wheat. East and West farming has changed. If it were not so there would be no farmers' conventions and institutes.

That change had made the man on the farm take greater and greater interest in what was going on in cities because he bought many necessities of life there. Another result of that change had been growth of cities.

Increased cost of living had accompanied the change mentioned and as result never before did man in city have so keen interest in what was going on among farmers. Agricultural problems would have to be solved in towns and cities as well as in the country. Agricultural development in Canada had become national problem.

Appropriations by governments for agricultural improvement could no longer be regarded as form of charity for there was no class of people who personally needed financial aid less than farmers. Appropriations for agricultural development were for public benefit for it was being recognized that agricultural resources were the greatest Canada had, greater and more permanent than those of mine, fisheries, factory or forest.

Dr. James made a vigorous appeal for elementary education in agriculture among children of schools. The subject was one of importance, but had little attention given it. Transportation problems had been solved largely through the interest of certain men. Problems of farming

GIRLS! GIRLS! YOU MUST SURELY TRY THIS!  
IT DOUBLES THE BEAUTY OF YOUR HAIR

All You Need is a 25 Cent Bottle of "Danderine"—Hair Gets Lustrous, Fluff and Abundant at Once

Immediate?—Yes! Certain?—that's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil and in just a few moments you have doubled the beauty of your hair.

A delightful surprise awaits, particularly those who have been careless,

whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be that after a few weeks' use of Danderine, when you actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you it; surely get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and just try it.

GREAT SONGSTER  
IS 70 YEARS OLD

London, Feb. 19—Adelina Patti, whose fame as a singer has probably never been equalled in the history of the world, was showered with congratulations today on the occasion of her seventieth birthday anniversary. The once incomparable song-bird, who is known in private life as Baroness Cederstrom, looks as youthful as many women of fifty years. Since she disposed of her castle in Wales the famous diva and her husband have spent much of their time in travel on the Continent, though they continued their residence in London and never fail to pass a part of the season here.

Mrs. Patti was born of Italian parents at Madrid on February 19, 1843. Her father, Salvatore Patti a native of Sicily, was of noble extraction, and a musician of considerable eminence. Her mother was the daughter of a celebrated Roman teacher of singing and early in life took a high position on the operatic stage under the professional name of Barili.

Patti's debut in grand opera was made in New York City in 18 9, but her first appearance as a singer was nine years before. Her active career covered a period of fifty years as it was but a few years ago that she was heard in a farewell concert in London. She is therefore the equal of Rubinstein in length of public career. When Rubinstein died in 1891 men who were fifty at that time were under the impression that great Rubinstein had long since passed away. While actively at their work Patti and Rubinstein saw two generations of art and artists rise and decline.

For over twenty years Mme. Patti sang at Covent Garden, and filled it to overflowing whenever she appeared. Her annual earnings between 1861 and 1881 averaged from \$150,000 to \$140,000, and rose still higher during each of the years in which she made professional tours in North and South America. It is estimated that she earned with her

## Notice of Legislation

The City of Fredericton will present a bill at the next session of the Legislature to authorize the establishment and maintenance of a Salvage Corps and Fire Police in the said city.

By order of the City Council,  
J. W. McCREADY,  
City Clerk.  
City Hall, Jan. 25, 1913

## TO CONSUMPTIVES

And All Afflicted With Asthma, Bronchitis, Catarrh, Grippe or any Lung or Throat trouble.

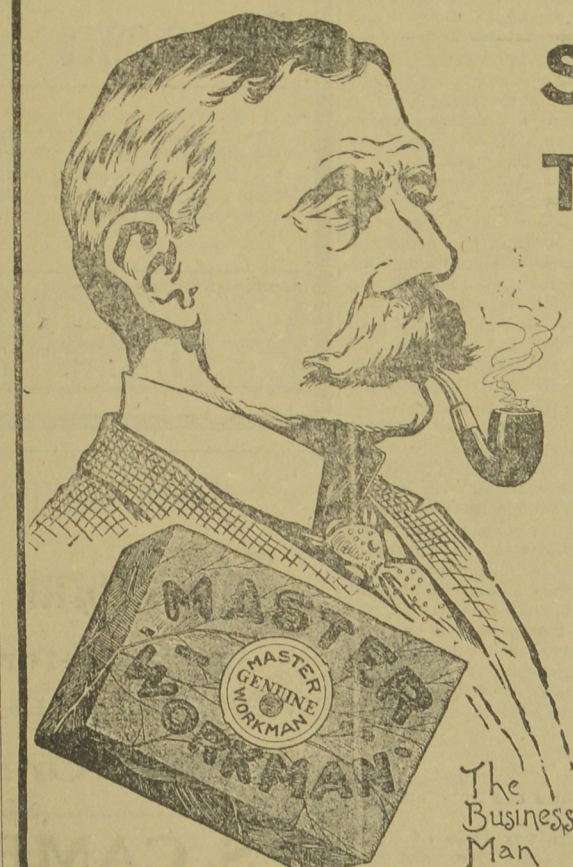

After suffering for years with a severe throat trouble which ran into Consumption, Rev. E. A. Wilson was cured by following plain rules of health and using Dr. Churchill's prescription. Wishing to help all sufferers he wrote, for free distribution, a full description of his trouble and the simple means he used to cure himself.

WILSON'S REMEDY (Dr. Churchill's prescription) has been doing its wonderful good work for over 40 years. It has been tried and proven, and is a household remedy in many, many homes to which it has brought health and happiness. If you are suffering from any Lung or Throat trouble whatever, do not fail to give this invaluable remedy a trial. Send for Mr. Wilson's history of his own remarkable case which will be sent FREE, together with a \$1.00 package of the remedy, to all who write for it. Address: Wilson Remedy Co., Westwood, N.J., U.S.A.

great voice a total of not less than \$4,000,000, of which enormous sum she saved a goodly proportion which she is now enjoying in her old age.
