GAME LAW AMENDMENTS DISCUSSED IN THE HOUSE

A bill to amend the game act was discussed in committee of the House yesterday with Mr. Dickson in the chair. The measure as brought down by the government was found to be considerably ballad up and after some sections had been considered it was agreed to report progress.

Mr. Perley asked if any provision was made to place the beavers on the southeast part of the St. John River.

Hon. Mr. Flemming said that the matter was one that was receiving some attention. The Department thought that beavers might be taken from the streams where they were numerous and placed on rivers such as the Oromocto where they are not found at the present time. This action of the bill however, is to meet the demand for the taking of fur-bearing animals alive to be kept in captivity for breeding purposes, but it did not prevent the carrying out of the idea of his Hon. friend. The Department would undertake to look into the matter thoroughly and see if arrangements could not be made to transfer some of the beavers to the Oromocto river, and if they were successful the changing of beavers might be carried on to a much greater extent.

The sections of the bill were discussed at some length, and at the suggestion of Hon. Mr. Flemming it was decided that the section would be re-drafted so that the amendment would apply to the original statute.

Dr. Morehouse asked as to the issuing of permits for the capture of beaver.

Hon. Mr. Flemming said that if a man secured permits to capture twenty-five beaver he would have to pay \$2 for each permit for such animal, but in the event of his being unsuccessful in capturing as many animals as he has taken permits for, it would then be a matter for him to apply for a rebate on the unused permits.

Mr. Swin asked whether it was the intention to do away with the chief game warden for the various counties.

Hon. Mr. Flemming said that there were not now chief game wardens for each county but that there were four chief game wardens, each with his own district. It was the intention to have one chief game warden for the province and when that official was appointed it was his intention to consult with him and arrive at some plan which would give more protection for the game for the same expenditure as at present. It was likely that there would be one man in each county to whom the chief game warden could look in connection with his work in his particular county.

Mr. Sheridan thought it would be well to have provisions in the law making it necessary for anybody when hunting to have his license with him and also to make it necessary for any hunter to show his license upon demand from any person.

Mr. Slipp asked if there could not be some arrangement made whereby the wardens would be on duty, although perhaps if not actively engaged, all the year round.

Hon. Mr. Flemming said that to maintain a continual pay roll for the whole year at the present cost when the wardens were on duty, would mean an expenditure of considerably more money than the province received altogether from big game. He had, in visiting the various sections of the province, consulted with the different wardens and it might be that better results would come from paying annual salaries to the game wardens. He could promise that an honest effort would be made to secure an even better protection for the game than at present without the expenditure of more money. One thing that he had under consideration was to swear in every foreman of a lumber camp, and every registered guide as a game warden. He was sure that these men would be interested in having the game laws properly enforced and they were in the position, on account of the nature of their work, to materially assist in the enforcement of the law.

Mr. Stewart, Northumberland, suggested that in addition to the regular pay, it might be well to pay the game wardens by results as well, offering additional amounts for convictions.

The committee reported progress.

Cook's Cotton Root Compound.

The great Uterine Tonic, and only safe effective Monthly Regulation which women can depend on. Sold in three degrees of strength—No. 1, \$1.50; No. 2, 10 degrees stronger, \$2.00; No. 3, for special cases, \$3.00 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: THE COOK MEDICINE CO., TORONTO, ONT. (Formerly Windsor)

Miss Geneva Elwell of Northport, Me., who is not yet three years old, can name all the Presidents of the United States by looking at their pictures in any order. She can show where she lives on the map and tell the State, county and town. She can tell her right hand from the left and can spell small words.

How a cut led to 4 years of suffering

Mr. J. E. Arseneault, a Justice of the Peace and station master at Wellington, on the P. E. I. Ry., says: "Four years ago I fell on a freight truck, sustaining a bad cut on the front of my leg. I thought this would heal, but instead it developed into a bad ulcer, and later into a form of eczema which spread very rapidly and also started on the other leg. Both legs became so swollen and sore that I could only go about my work by having them bandaged."

"I consulted two doctors, and tried all the salves, liniments and lotions I heard of, but instead of getting better I got worse."

How Zam-Buk cured.

"This was my condition when I got my first box of Zam-Buk. Greatly to my delight that first box gave me relief. I continued to apply it to the sores, and day by day they got better. I could see that at last I had got hold of something which would cure me, and in the end it did."

"It is now over a year since Zam-Buk worked a cure in my case, and there has been no return of the eczema."

Purely herbal in composition, Zam-Buk is a sure cure for all skin diseases, cold sores, chapped hands, ulcers, blood-poisoning, varicose sores, piles, ringworm, inflamed patches, cuts, burns and bruises. All druggists and stores sell at 50c. box, or post free from Zam-Buk Co., Toronto, for price.

WHY THIS CONTRAST?

G. J. Desbarats, deputy minister of naval service, says in his annual report for 1912 that "Owing to the uncertainty of the future naval policy and the limited accommodation available, no special efforts have been made to obtain recruits for the navy." It is also probably due to a feeling that a permanent policy of tribute does not need recruits.

A. MURRAY & Co.

"In the Case of MY Little Girl—"

In choosing and using a soap for your "Little Fairy" you will find no soap so mild, so neutral, so agreeable to tender skins as FAIRY SOAP.

Being made from products that you could eat, FAIRY SOAP agrees with even the tender skin of a babe.

FAIRY SOAP

is white—pure—floating. It comes in a handy oval cake. We could charge you five times the price asked for FAIRY SOAP and we could add nothing to its quality.

In higher-priced soaps you are paying for high-priced perfume and fancy wrappers—not better soap.

Made by THE N. K. FAIRBANK COMPANY Montreal
