ball? If the argument is used that the ability to swim is a necessary accomplishment which the university has a right to make a condition to be fulfilled by those who wish to obtain a degree, would it not be pertinent to ask why the university authorities have singled out swimming. Why not dancing, football playing, rowing, pole-vaulting or tight-rope-walking? Of course nobody will dispute that the ability to swim is desirable, but there are hundreds of thousands of men, young and old, who do not know how to swim, yet are fully capable to do their life's work credibly. The requirement that a student, before obtaining his degree must prove his ability to swim a certain number of yards, seems absurdly arbitrary and will, no doubt, be ridiculed and severely criticized in all parts of the civilized globe.

## BIRTHDAY CONGRATULATION

Gustave V. king of Sweden, 55 years old today.  
Francisco Leon de la Barre, late provisional president of Mexico, 50 years old today.  
Newman Erb, president of the Minneapolis and St. Louis Railroad, 63 years old today.

## A LARGER AREA IS UNDER WHEAT

Ottawa, June 15—A bulletin of the Census and Statistics Office, issued recently, gives preliminary estimates of the areas sown to the principal grain crops and reports on their condition at the end of May, according to the returns received from crop-reporting correspondent throughout Canada. The reports show that the month of May proved cold and dry, with frequent night frosts and that these conditions, whilst favorable to seeding, retarded the growth of the crops sown and caused them to be unseasonably backward.

The total area under wheat in Canada is provisionally estimated at 9,816,300 acres, or 57,900 acres more than in 1912, the area in spring wheat being 8,990,500 acres, or 12,100 acres more. Oats occupy 9,608,500 acres compared with 9,216,900 acres in 1912, an increase of 391,600 acres; barley occupies 1,425,200 acres, an increase of 10,000 acres, and rye 126,500 acres, a decrease of 9,610 acres. For wheat, barley and oats taken together the increase represents 459,500 acres. The estimated acreage under hay and clover is 7,475,600 acres compared with 7,633,600 acres last year.

For the three northwest provinces of Manitoba, Saskatchewan and Alberta the total wheat area is estimated at 9,013,800 acres as compared with 8,961,800 acres, that of oats at 5,207,700 acres compared with 4,913,900 acres, and that of barley at 852,600 acres compared with 809,800 acres, these differences representing increases of 52,000 acres for wheat, 293,800 acres for oats and 42,800 acres for barley, or 388,600 acres for the three crops.

On May 31 the condition of the crops was reported as generally favorable throughout Canada. Expressed in percentage of the usual standard of 100, taken as representing the promise of a full crop, the condition on May 31 for the dominion was as follows: Fall wheat 80.62, spring wheat 91.55, oats 91.72, barley 91.19, rye 87.70, peas 88.24, mixed grains 90.15, hay and clover 81.12, pastures 85.08 and alfalfa 77. At the corresponding date last year the condition of fall wheat was only 71.46. All the other crops were then above 90, excepting rye 87.24, peas 83.85 and mixed grains 87.72. The poor condition this year of alfalfa is due to the effects of the winter and cold spring.

Mr. J. D. Phinney, K.C., has gone to the North Shore on a business trip.

## CELEBRATING BUNKER HILL DAY

Grand Forks, June 17—The annual convention of the North Dakota Bankers' Association was called to order here this morning by President R. S. Adams. There was a large attendance at the opening session and all parts of the State were represented. Mayor M. F. Murphy welcomed the visiting members and Mr. Lewis F. Crawford of Sentinel Butte responded in behalf of the visitors. The rest of the morning session was devoted to the reading of the annual reports of the various officers and committees. Many noted bankers from other States are in attendance and will deliver addresses during the two days of the convention.

Cowan's Perfection Cocoa

is on sale at all Grocery Stores in 10c., 15c., 25c. and 50c. Tins.

## Keep Out the Weeds

Weeds unchecked will ruin the crop.

It isn't sufficient to plough and sow well in Spring and Fall and leave the rest to nature.

There are weeds to fight.

There are weeds in Business, too—weeds of competition and opposition—of public indifference from without, and of lack of enterprise from within—weeds that unchecked seriously retard business growth.

Cultivation is the only effective weed-killer. Keep cultivating and the weeds never get a chance to thrive.

There is a combination plough and harrow, fertilizer and spray, for every business—an effective weed-killer that will keep out the weeds.

It is Advertising

It is not enough to plough and sow well with advertisements in Spring and Fall and leave the rest to human nature.

Human nature and the respect your customers bear you are not proof against the Summer weeds that can thrive on rest and apathy.

You must keep busy in the hot weather—you must keep cultivating.

Turn Summer dullness into activity by Summer Advertising. Plan Summer attractions and plant for a crop of Summer profits, and the Advertising cultivation will keep out the weeds.

Keep Cultivating

Keep Advertising

KEEP OUT THE WEEDS

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 503 Lumsden Building, Toronto. Enquiry involves no obligation on your part—so write, if interested.
