VIGOROUS HEALTH RESTORED TO RUN-DOWN WOMAN

Seemed to Have Lost All Ambition,
Was Pale and Anaemic

"I was never actually sick," writes Mrs. Norman La Pierre, wife of a well known resident of Labadie, "yet I never could get strong like other women. I ate well enough but somehow rich and red blood I could never make. When I married I took a great pride in my housekeeping but it kept me tired all the time. Mrs. Lechance, my neighbor, looked well—she told me her health had been made up by Dr. Hamilton's Pills. I only thought of pills as a physic but now I know that Dr. Hamilton's Pills are more, for they quickened my stomach, liver and bowels—made me stouter and stronger, gave me such color in my cheeks as I never had before. I sincerely believe Dr. Hamilton's Pills should be used by every woman—that's why I write this letter."

No medicine invigorates and renews health and spirits like Dr. Hamilton's Pills, 25c. per box, five for \$1.00, at all druggists and storekeepers, or postpaid from The Catarrhozone Co., Buffalo, N.Y., and Kingston, Ont.

BABY BADLY SCALDED

Zam-Buk Brought Quick Relief

Mr. Alex. A. Cameron of Fairmont, Antigonish Co., N.S., writes: "My little brother (three years old) had his face badly scalded by boiling tallow, and we thought if he ever got better he would be frightfully scarred. I never saw any person in such a shocking state as he was after the accident. The doctor who attended him gave us some lotion with which to bathe the scalds and we followed this treatment for some time, but the little one did not get any ease. In fact, sometimes the preparations given seemed to make his pain all the worse."

"We at last stopped the medical treatment and tried Zam-Buk and after the first few applications the child seemed much easier. Zam-Buk seemed to draw the fire out of the scalds. In a few days the wounds ceased to cause him pain and healing then commenced. In a few weeks he was quite well again."

"Not only so but Zam-Buk healed the scalds in such a way that no scar or trace of the terrible injury has remained. A person, looking upon the child today, would never know that he had had such a terrible experience."

Zam-Buk is just as good for cuts, bruises, ulcers, piles, blood poison, festering sores, abscesses, pimples, eruptions and all skin injuries and diseases.

All druggists and stores 50c. box, or post free from Zam-Buk Co., Toronto, for price.

STRAY TOPICS FROM LITTLE OLD NEW YORK

New York, May 24—Commissioner Edwards of the Street Cleaning Department has undertaken the Herculean task in attempting to give to the city a general and thorough housecleaning. The cleaning up of the Augean stables, one of the famous stunts attributed to mythology to the overworked Greek Sallow, must have been a tame job compared with the tremendous task which confronted the New York street cleaning department when it began the spring cleaning the other day. On the opening day of the anti-filth crusade the regular force of the department disposed of 9000 loads of rubbish and refuse and men and teams were almost exhausted at the close of the day.

The work of the department has been carefully mapped out by the Commissioner. The city has been divided into districts and the residents of each district which was to be cleaned up on a certain day were requested to dump all the rubbish, dirt and trash accumulated in closets, attics and cellars upon the street in front of their houses, the night before. The people seemed only to be too glad to have the opportunity to rid themselves of a lot of trash which had accumulated in years and obeyed the request with a vengeance. In many cases the rubbish was piled eight or ten feet high and included old and dilapidated furniture, mattresses, bed clothes, trunks and thousands of odds and ends to be found in every ill regulated household. The work is still being continued and although it can scarcely be hoped to transform New York into a Spotless Town, it is safe to say that this city is a great deal cleaner and more sanitary than it was a month ago. The worst conditions were found in the Harlem district and next to that in the Hell's Kitchen and San Juan districts.

Safety razors are growing more popular than ever in this city since the beginning of the barbers' strike. The strikers committed many acts of violence and destroyed the furniture and fixtures in a number of shops. This naturally deterred many habitual patrons from entering barber shops at this time. They considered the risk too great and decided to shave themselves at their quiet home rather than run the risk of having their throats cut or their skull fractured by militant strikers.

Martin Montrose Molenaar, who caused some excitement in this city in 1873 by claiming as his property several large and valuable tracts of land in the Harlem and Kingsbridge Road section, has returned to New York after many years in the West and has established himself as a squatter upon part of the land claimed by him. The land in question was only farm land and valued at \$29,000,000 when the grandfather of the present claimant died in 1812. Now it is estimated to be worth between three hundred and five hundred millions. When Molenaar first asserted his claim he did not have money enough to begin the fight in the courts. Now, however, the Molenaar Recovery Company has been formed which is issuing stock and will furnish the funds required to carry the fight for the property through the courts.

Saint Anthony Comstock, the self-constituted guardian of morality in art has once more distinguished himself by peremptorily ordering the removal from the show window of a reputable art dealer of a copy of Paul Chabas' famous painting, "September Morning." It shows a wonderful amount of patience on the part of the people that they put up so long with the stupid notions and idiosyncrasies of this "Apostle of Purity." The art house involved in present case is one of the most prominent in the country and has its reputation at stake. It is to be hoped that it will carry this matter to the courts to determine once and for ever how far Mr. Comstock may extend his arbitrary interference and meddlesomeness. He should have been suppressed many years ago.

There seems to be no limit to the extent of the graft evil in this city. Scarcely has one investigation brought to light some big graft scandal when another investigation is begun which brings to light equally conclusive evidence of graft in some other quarter or direction. The latest sensation has been furnished by the Taxicab Company and the end of the disclosures is not yet in sight. It appears that the Taxicab Company has been compelled, for the business reasons, not only to pay blackmail scores of the big hotels, but to give free taxi rides to hotel managers, their families and friends, to police officers and their friends, to Aldermen politicians and others, who were in a position to grant a refuse favors to the company.

After pleading guilty to burglary in the first degree Elmer Schultz, a boy of fifteen, was sent to the House of Refuge for an indefinite period the other day. In the course of the trial it was brought to light that the boy had committed more than fifty successful burglaries in Borough, Brooklyn, Flushing, Lynbrook and other places on Long Island during the last

few months. The boy admitted that he was successful and said that if he could have continued his activity for another month he would have been the owner of an automobile and financially equipped to take a trip to Europe.

Suffering from toothache a little boy of about five years wandered away from his home in the lower part of Manhattan in search of a dentist the other evening after supper time. A few hours later the suffering youngster was picked up by a policeman at a distance of more than two miles from the boy's home. The little fellow was nearly exhausted from his long trip and still suffering agonies in his tooth. The officer took the boy to the station where the lieutenant in charge pulling the offending tooth by means of a string. The boy endured the operation bravely and was then taken to his parental home.

David Belasco, the noted playwright and theatrical manager, and several noted actors and actresses had a rather unpleasant experience the other day. They were descending on Mr. Belasco's private elevator in the Belasco Theatre building, from the top floor to the main floor, when something went wrong with the mechanism controlling the heavy iron doors. These doors are operated by electricity and are supposed to open by the pressing of a button when the floor of the lift is even with the sill of the floor. For three hours the party remained imprisoned in the cage until by hard work and the exercise of considerable ingenuity their release was effected. This experience may supply Mr. Belasco with a plot for a new play.

Warsaw, Ind., May 28—The yearly conference of the Church of the Brethren, known also as Dunkards and German Baptists, opened a ten days' session today at Winona Lake. The gathering is the largest ever accommodated at that resort. It is estimated that there will be 50,000 delegates and visitors present before the end of the week. They have been coming from all over the country for ten days in vehicles, on the trains, many walking. The conference program consists of daily sermons by leading Dunkard ministers, a monster barbecue, a public foot-washing ceremony of the members of the church and a grand song service Sunday night.

FOR CROUPY CHILDREN KEEP 'NERVILINE' HANDY

It Positively Brings Children Out of
Danger and Relieves
at Once

A MOTHER TELLS HER EXPERIENCE

"Bringing up young children has its responsibilities under the best of circumstances," writes Mrs. E. C. Fagan, of Holmes' Corners, "but croupy colds add considerable to the worry. My little family of four all went through the croupy era, but I always had Nerviline on hand and never felt nervous. I just followed the directions and I can tell you that nothing I know of is surer to cure croupy colds than Nerviline."

"In our home we use Nerviline frequently. For cold in the chest, pleurisy, hoarseness, etc., it is simply wonderful. My husband used it for rheumatism and I often employ it for neuralgia and sick headache. Nerviline has so many uses that no mother can afford to be without it."

The large family size bottle, which tells at 50c., is the most economical; trial size, 25c. Your storekeeper or druggist sells Nerviline, which is prepared by The Catarrhozone Co., Buffalo, N.Y.

The New Food-Drink
INSTANT POSTUM

Is in thousands of homes where health is valued.

Former tea and coffee users who have felt the pinch of indigestion, headache, heart disturbance, nervous irritation, etc., have written by the score, telling of remarkable benefits following the change from tea and coffee to Instant Postum.

A level teaspoonful in an ordinary cup of hot water dissolves instantly and makes it right for most persons.

A big cup requires more and some people who like STRONG things put in a heaping spoonful and temper it with a large supply of cream.

Experiment until you know the amount that pleases your palate and have it served that way in the future.

"Thanks for the sample of INSTANT POSTUM sent me. I had been drinking coffee for a long time and thought it would be difficult to give it up but I was mistaken."

"While I was drinking coffee I always felt exhausted and I weighed but 112 lbs. After using Instant Postum I soon recovered and now am as healthy as any person can be. I now weigh 120 lbs. and am steadily gaining in weight." Name given by Postum Co., Battle Creek, Mich.

Postum comes in two forms.

REGULAR (must be boiled.)

INSTANT POSTUM doesn't require boiling, but is prepared INSTANTLY by stirring a level teaspoonful in a cup of hot water

Both kinds are sold by grocers everywhere.
