GOVERNMENT WILL SPEND

(Continued from page 1)

It is believed, however, that the Liberals in the commons will make the most of the short time given to insist upon certain definite conditions being imposed in connection with the grant.

\$2,000,000 HAND-OUT IN ONTARIO
In addition to the Canadian Northern subsidies there are seven million odd dollars for general subsidies to be considered and a two million hand-out for the Ontario provincial government to subsidize the Temiskaming & Northern Ontario Railway.

In this case the line has been paying ample dividends for many years and is well established in a country where there is considerable density of traffic. It was on these latter grounds that it was opposed by the Liberals in the commons last year and killed by the senate. The government this year hopes that the lateness of the session may prevent strenuous opposition. The senate will likely let the government take the onus of the legislation and will not again throw it out.

\$15,000,000 LOAN TO G. T. P.

A bill has been drafted for the purpose of granting a loan of \$15,000,000 to the Grand Trunk Pacific for ten years at four per cent. In security of this the Grand Trunk Railway Company proposes to guarantee both principal and interest. In 1909, the last occasion upon which a loan was granted to the company, amendments were offered by Premier Borden, then leader of the opposition, and by Arthur Meighen, member for Portage la Prairie. Premier Borden proposed as a condition of the loan that the company be required to give clearer promises as to the renting of traffic through Canadian ports. Mr. Meighen proposed that the company hand over to the government as security \$10,000,000 of its common stock, as is now proposed to be done in the case of the Canadian Northern.

It is considered probable that the government, while not in a position to refuse such a loan on the security offered, will impose the conditions suggested in 1909 in connection with the present loan.

WANT VICTIMS RECOUPED

Twenty-eight odd Conservative members who were returned to Ontario constituencies pledged to have the depositors of the defunct Farmer's Bank reimbursed for their losses, are still strenuously standing for an appropriation of \$1,350,000 by the government for that purpose. These men, whose seats are far from safe unless something is done, have gone so far as to threaten that unless an appropriation is made they will oppose the railway subsidies. Their fellow members in the government ranks are equally anxious to save the constituencies to the party are behind them. No definite decision, however, has been reached on the matter to date. The proposal is being opposed strongly by various interests who see in it a dangerous precedent.

The agitation for increased sessional indemnity is being continued in the face of difficulties. Liberals refuse to formally connect themselves with the movement and insist upon the government taking full responsibility for any increase which may be proposed. In addition to this the government realizes that any increase in the commons indemnities must be accompanied by a proportionate increase in the pay of the senate members, which is not desired by the administration.

In any case there is every indication at the present rate of expenditure, and the proposed expenditure, that the annual surpluses will be very effectually decreased.

The amount of appropriations which will be made during the last two weeks of the present session will easily eclipse that of any previous session in the history of the Canadian parliament. And on no previous session has so little opportunity for discussion of large expenditures been given as during the present.

DOUBLE LAUNCHING CEREMONY

Baltimore, Md., May 31—Two magnificent passenger steamers built by the Chesapeake Steamship Company for service between Baltimore and West Point, Va., were launched at noon today from the shipyards at Sparrows Point. COMMITTEE MEETING.

At tonight's meeting of the City Council in committee preparatory to tomorrow's council meeting, the matter of erecting a new hose-station will come up. In certain quarters it is considered doubtful if the Council will decide to build during the present year. The Publicity Committee will ask for a payment of \$1000 on its grant and routine business will be disposed of. It is probable that the matter of issuing bonds to the amount of \$4500 to acquire the Queen Square property will be discussed.

SLUMP IN C. P. R.

C. P. R. stock had another bad slump today and touched the lowest point in several years. It opened at 219, and at 3.40 o'clock this afternoon was down to 214, one big turn over of shares. Some local financiers who have been holding the stock on margin, are on the anxious seat today.

On their first Western trip of the season, the Champion Red Sox won seven and lost eight games.
