I KNOW
COD LIVER OIL

Is the thing I need but I can't
take it on account of its horrible
taste. Ever say that? If you did
you had in mind the old blue bottle
of cod liver oil and its taste
and smell really were something to
be dreaded.

Nyal's Emulsion

of cod liver oil is a modern scientific
remedy palatable and pleasant.
You can take Nyal's Emulsion. Any-
body can. And everybody should who
feels the need of a body builder
and strength-giver particularly those
who have lung trouble or are in a
run-down and weak condition.

Nyal's Emulsion contains pure cod
liver oil combined with hypophos-
phites of lime and soda to strengthen
the nervous system. If you want
to nourish the body and fortify the
nervous system take Nyal's Emulsion.

ACUTE PAINS IN THE BACK

Caused by Lumbago, a Form of
Muscular Rheumatism

Lumbago is sudden in its attacks
and is so intensely painful that the
sufferer is often unable to move,
even to turn in bed or rise from a
chair. The trouble chiefly occurs
among working men, among whom it
numbers thousands of victims. As
the attacks come on quite frequently
and are so torturing, this disease
means much loss of time and money
as well as the endurance of much
suffering. No victim needs to be
told that liniments, plasters and
outward treatment will not cure the
disease. This kind of treatment is
merely a waste of time and money.
The trouble is really a species of
muscular rheumatism, and is due to
poor blood and can only be cured
through the blood. It is for this
reason that Dr. Williams' Pink Pills
are so successful in curing the
trouble and those who are afflicted
by it should lose no time in giving
the pills a trial. If the treatment
is persisted in the disease will be
driven from the system and the cure
be made permanent. In substantiation
Mrs. Alfred Derby, Erryville,
Ont., says: "A few years ago I was
attacked by excruciating pains in the
back which the doctor called lumbago.
I was not able to do a bit of
work about the house and suffered
dreadfully every time I moved about.
I took the doctor's medicine all winter
and used liniments, without get-
ting any relief. In a thoroughly dis-
couraging condition I began using Dr.
Williams' Pink Pills. After using six
boxes I was better and able to do
all my own work and have not been
afflicted with the trouble since. I
now always recommend Dr. Williams' Pink
Pills to those ailing."

These pills are sold by all medicine
dealers or may be had by mail at
50 cents a box or six boxes for \$2.50
from The Dr. Williams' Medicine Co.,
Brockville, Ont.

PROBLEM OF EFFICIENCY
IN COUNTRY LIFE

The country life problem is one of
many dealt with in a recent book,
"American Social and Religious Con-
ditions." The author, Charles Stel-
zle, has brought within some two
hundred pages one of the most com-
prehensive and interesting treatises
ever issued on this all-important
question, and deals with his subject
in a pleasing yet authoritative man-
ner. The book, which is published by
Fleming H. Revell Co., New York, is
attracting much attention among
students of sociological topics, is
bristling with statistics, hidden in
graphic narrative and startling com-
parisons.

The real problem before the people
according to Mr. Stelzle, is how to
make the country population most
effective, not how to increase this
population. The men who are living
on the farms, but who are not farm-
ers in any sense of the word, should
go to the town or city, while those
who do remain should be made most
efficient in carrying on their occupa-
tion. Neither is it a question of cul-
tivating every bit of available land.
It is really a matter of employing
the best methods upon the least
amount of land possible. We have
scarcely begun to utilize the best
methods of agricultural efficiency, as
is indicated by the figures showing
farm production.

THE TENANT FARMER

"The tenant farmer," says the
writer, "whom I least usually runs
only for a single year, is not in-
terested in keeping up the standard
of efficiency upon the farm. He robs
the soil and does not keep the build-
ings in repair. An owner usually
finds it cheaper to rent than to till
the ground."

Unquestionably the country dis-
tricts are already suffering because
of the exodus of the home-owning
class. The small towns, on the
other hand, have not been greatly
benefited by the addition of the re-
tired farmer, for he is often narrow
in his outlook and not particularly
interested in the welfare of the
town.

SCIENCE AND CO-OPERATION

"The farmer will succeed only as he
depends upon the scientist for the
working out of his farm problems.
This is coming more and more to be

KINGSTON WELCOMES

VICE REGAL VISITORS

Kingston, Ont., Feb. 14—The Duke
of Connaught arrived in Kingston
this morning and was accorded a pa-
triotic welcome, in which practically
the whole city participated. The
royal train reached the station at 9
o'clock, and there the formal wel-
come of the municipality was extended
to the distinguished visitor. The
forenoon was spent in a visit to the
Royal Military College and an in-
spection of the Royal Canadian
Horse Artillery and the veterans of
the district. The program of the
royal visit concluded this afternoon
at Queen's University, where a special
convocation was held for the pur-
pose of conferring the honorary de-
gree of LL. D. upon His Royal High-
ness.

the case, for no class of workers
receives more scientific information
through the Government and through
the schools than does the farmer.
The farmer will succeed as he learns
the value of co-operation. Perhaps
this will be one of the most diffi-
cult lessons to learn, for the Ameri-
can farmer is a strong individualist.
His life has been lived alone. He
has fought his battles alone. But
this is the day of socialized efforts,
therefore the solidarity of the
farmer must be more highly
developed.

SOLUTION FROM THE COUNTRY.

"The country-life movement" must
be sharply distinguished from the
"back-to-the-land" agitation. The
latter is primarily a city impulse,
expressing the desire of the town people
to escape, or of cities to find relief,
or of real estate dealers to sell land.
In part, it is the result of the
doubtful propaganda to decrease
the cost of living by sending more
persons to the land on the mostly
mistaken assumption that more pro-
ducts will thereby be secured for the
world's markets. The movement of
city men to the country offers no
solution of country problems. Usually,
it offers only a solution of the
city problem, and how a city man
may find the most enjoyment for his
leisure hours and his vacation. In
the last analysis the country must
solve its own problems. The move-
ment to send the incompetent to the
country is a modern one. The coun-
try does not need him any more
than does the city, and he can do
no better in the field than he can
in the town.

Farming is more and more be-
coming a science requiring trained
workers. It is no longer a poor
man's business. It requires capital
to equip and run a farm, as well as
to buy it, just as is the case in any
other business.
