203—May 1.

For Sale

FOR SALE—A complete set of the World's great classics. Handsomely bound and illustrated and have been but little used. Will be disposed of at a genuine bargain. Apply to B.J. care Mail Office.
172—dtf.

To Let

TO LET—Large brick dwelling house at foot of Regent St. Apply to J. M. Lemont—188—dtf.

Notice

NOTICE—LAW OFFICES OF J.D. PHINNEY, K.C., REMOVED TO NO 74 CARLETON ST.

In Chancery of New Jersey

In the matter of the application of The Prudential Insurance Company of America for the acquirement of its capital stock for the benefit of its policyholders.

Order fixing hearing on Application for Appointment of Appraisers.

It appearing to the Court that The Prudential Insurance Company of America has heretofore filed its duly verified petition, from which it appears that the said petitioner is a stock life insurance corporation, incorporated by the State of New Jersey and that the Board of Directors of said Company have determined that it would be conducive to the welfare of the corporation and in the interests of the policyholders thereof to change the corporation, from a stock life insurance corporation to a mutual life insurance corporation, and said corporation now applying to the Chancellor to appoint two or more disinterested persons to appraise the value of the capital stock of the said corporation and also to appoint one or more counsel to represent the policyholders before such appraisers and in such further proceedings as may be taken under or in pursuance of said petition.

It is, therefore, on this twenty-second day of April, A.D. 1913, on motion of Edward D. Duffield, Solicitor of said petitioner, ORDERED that said application be heard by the Chancellor at the State House in the City of Trenton on the tenth day of June 1913, at ten thirty o'clock in the forenoon, or as soon thereafter as counsel can be heard, at which time and place the Chancellor will hear all parties in interest who may then appear.

It is further ordered that notice of such hearing shall be given to the Commissioner of Banking and Insurance of this State by serving a copy of this order upon him within fifteen days from the making thereof, and that notice of said application be given to the stockholders of said

UNDERWOOD TARIFF BILL WILL BENEFIT CANADA

Washington, D. C., April 27—"Free wheat" is the latest cry from the United States Senate, where the leaders are getting ready to make mince-meat of some of the items of the Underwood Tariff Bill, which today is on its last few hours of general debate in the House.

One member of the Senate Finance Committee wants some sort of a compensatory duty on wheat so as to equalize, if possible the situation existing between a ten-cent a-bushel tax on wheat, and what is looked upon as a free entry of flour from Canada. However, the rest of the committee is looked on as wanting a free entry of wheat from Canada and other countries.

One significant feature of the situation is that Senator Hughes, of New Jersey, who is believed to know more of the President's wishes for free wheat and is talking in favor of it at every opportunity.

More has been heard about the Dominion of Canada and what benefits will be derived by the Dominion lumbermen, cattlemen and farmers during the tariff debates than any other country on the face of the globe.

In the speeches of today, Republicans pictured the wheat fields and the great lumber tracts of the Dominion as being garnered especially for the people of the United States.

An argument which is quickly grabbed up by the Democrats in their haste to assure their Republican friends is that all of those advantages will make living somewhat easier for the great mass of the people, who are now dealing in a protected market where prices are mountain-high. The tariff debate contains many references to the articles on the free list which will be expected to flood this country from the farmers across the northern border.

Especially bitter against this was Representative Greene, of Iowa. Although his bitterness was directed against the tariff situation as it will be under the Underwood Bill, his facts and figures are reassuring to any Canadians who are figuring on a new market.

"Witness the effort to retain the farmer's vote by putting a duty on wheat," Mr. Greene said, "while at the same time offering the consumer flour duty free, but putting a duty on cattle and leaving meats of all kinds fresh and cured, absolutely free."

CANADA CAN LIFT DUTY

"True it is that flour is not free from countries that impose a duty upon American flour, but the Canadian duty was simply imposed in retaliation for ours and how long after the enactment of this Bill will it take Canada, where duty can be lifted by Executive order, to get its flour on the free list?" asked Mr. Greene. "When this is done the American miller can only pay the Canadian price for wheat and the farmers duty will exist in theory only and not in fact."

"With reference to cattle the farmers' situation will be even worse," added Mr. Greene. "There is no possible way in which this duty on cattle can be of any benefit to the farmer, for in any event the finished product of his pastures must be offered for sale in a market free of duty. The price of his cattle and hogs when fattened and sold will be determined by the price of meats to be sent in free. This Bill will expose the farmer to the competition of the cheap lands and cheap labor of Canada, and handicaps him by the addition of a duty."

Representative Anderson, of Minnesota, a Republican member of the Ways and Means Committee, predicted that Canada would immediately take off the duty on flour in order to take advantage of the free flour provisions of the Underwood Tariff Bill.

CANADA BIGGEST COMPETITOR
"In the production of wheat and the manufacture of flour," Mr. Anderson said, "Canada is our nearest and biggest competitor. She will at once take advantage of the reciprocal

corporation by mailing a copy of this order to each of said stockholders at his post-office address, as the same appears upon the books of the said corporation, within fifteen days of the date hereof; and that notice of said application be given to the policyholders of the said corporation by publishing a copy of this order in one or more newspapers printed and published in the capital of each and every State of the United States in which the corporation does business, and in a newspaper printed and published in the cities of Edmonton, Alberta; Victoria, British Columbia; Winnipeg, Manitoba; Fredericton, New Brunswick; Halifax, Nova Scotia; Toronto, Ontario; Quebec, Quebec; and Regina, Saskatchewan, in the Dominion of Canada, once a week for at least four weeks, the first publication to be made within fifteen days from the date hereof. In case no newspaper is published in the capital of said States of the United States, then said publication may be made in a newspaper having a general circulation within said States.

E. R. WALKER.

law relative to flour in order to gain access to the tremendous market which our ninety millions of people afford. It is a well known trade fact in the mill industry that in the establishment of a new mill the prime necessity is a market for the by-products of flour, shorts, bran etc.

"The pending Bill," Mr. Anderson argued, "furnished the Canadian miller with that primary market in the United States. With a free market for his by-product, the Canadian miller will start out with an advantage of ten cents a bushel on the wheat in the flour. Since it takes from four and a half bushels to five, and sometimes five and a half bushels of wheat to make a barrel of flour, this would mean an advantage of from 45 to 55 cents per barrel to the Canadian."

In arguing the same principle with different specific examples. Representative Lafferty, of Oregon, took a list of meats and provisions running from lard to buckwheat;

"The Canadian farmers can and will compete with our farmers," Mr. Lafferty said: "but Canada places a heavy duty on beef, mutton, meats and provisions of all sorts, and upon rice and buckwheat, which will prevent our farmers from participating in the Canadian trade. Canada levies a duty of three cents a pound on fresh meats from the United States, whereas fresh meats from Canada are to come into the States free."

"Canada," Mr. Lafferty went on, "levies a duty of three cents a pound on wool, whereas Canadian wool will come into the United States free under the pending Bill. Canada charges a duty of one and a half cents a pound on swine imported from the United States, whereas the Canadians may send swine here free of duty. Canada charges a duty of one and a half cents a pound on lard, three and a half cents a pound on milk products, twenty cents per bushel on potatoes, ten cents per bushel on rye, fifty cents per bushel on rye-flour, twenty-five cents per barrel on cornmeal and twenty per cent. ad valorem on tallow, whereas all of the products will come into the United States free of duty from Canada."

Under the Canadian law cattle and sheep on the hoof going into the Dominion from the United States must

THE MOUNT ALLISON FORWARD MOVEMENT

A feature of the Mount Allison campaign which appeals very strongly to subscribers, is the method of payment. The subscription cards provide that all contributions shall be made payable, unless otherwise desired, semi-annually over a period of three years. The next installment comes due on January 1, 1914. By this method it is made possible for persons of moderate means to give a comparatively small amount every six months, yet at the same time, contributing a fairly large when distributed over the entire term of payment. In St. John and other districts, where the campaign has already begun, this feature has been commented upon very favorably. Dr. Borden and Mr. Cassidy express great satisfaction with the manner in which the movement has so far progressed and they feel that, although St. John has done remarkably well, even greater success will attend the efforts of the workers in other districts. In Moncton, the leaders of the movement have their committees well organized and anticipate no difficulty in reaching the goal set.

BIRTHDAY CONGRATULATION

Duke of Cornwall Governor-General of Canada, 63 years old today. Ermate Norvelli, noted Italian actor, 62 years old today.

Rt. Rev. Thomas O'Gorman, R. C. bishop of Sioux Falls 70 years old today.

James Ford Rhodes, well known author and historian, 65 years old today.

David J. Lewis representative in Congress of the Sixth District of Maryland, 44 years old today.

George F. Shaumessy, representative in Congress of the First district of Rhode Island, 45 years old today

1901—Pan American Exposition opened at Buffalo.

pay a duty of twenty-five per cent., whereas under the pending Democratic Bill Canadian cattle and sheep on the hoof may come into this country on paying a duty of only ten per cent. Butter going into Canada from this country must pay a duty of four cents a pound, while Canadian butter may come into this country under the pending Bill for only three cents a pound.
