

"In the Case of MY Little Girl—"

In choosing and using a soap for your "Little Fairy" you will find no soap so mild, so neutral, so agreeable to tender skins as FAIRY SOAP.

Being made from products that you could eat, FAIRY SOAP agrees with even the tender skin of a babe.

FAIRY SOAP

is white—pure—floating. It comes in a handy oval cake. We could charge you five times the price asked for FAIRY SOAP and we could add nothing to its quality.

In higher-priced soaps you are paying for high-priced perfume and fancy wrappers—not better soap.

BANK CLERK

GETS FOUR YEARS

New York, March 19—William B. Trefry a young Nova Scotia bank clerk who startled the capitals of Europe by lavish expenditure of money, was sentenced to Sing Sing prison for a term of not less than four years. He pleaded guilty to two indictments for forgeries by which he defrauded the local branch of the Royal Bank of Canada out of \$7000.

Trefry was employed in a branch of the Bank of Nova Scotia and more recently in Vancouver. Last January he obtained the \$7000 from the branch here by means of a forged credit transfer, ostensibly signed by the manager of the branch in Vancouver. With the aid of a young woman whom he met in New York, he spent all the money in Europe in about a month, and returned to New York where he was arrested.

LIVELY INCIDENT IN
HOUSE OF COMMONS

This incident of the prolonged uproar in the House of Commons on Saturday night may be taken as typical:

"I wish to ask a question," said Dr. Clark, calmly and very deliberately.

"Sit down, sit down," cried the Conservatives.

Dr. Clark, remained steadfastly on his feet, and the Speaker was again called into requisition.

"I wish," shouted Dr. Clark, edging in a word at a time in the riot that was now raging, "to address to your Honor—a question."

"Order, order, order," the Speaker was shouting.

"Sit down, sit down," roared the Conservative benches.

Dr. Clark continued attempting to address the Speaker, who was now aflame with excitement, and "named" him repeatedly.

"Dr. Clark," he finally shouted. "I name you as acting in absolute and flagrant violation of the rules of this House."

"I wish to rise," persisted Dr. Clark, with the same calmness and deliberation, but in a continuously rising voice, "to know under what rule."

"Under what rule," continued Dr. Clark as calmly as before, "is your Honor (uproar) in the Chair," (uproar). "I trust (uproar) you have heard my respectful question (uproar), and will give me a respectful answer. I care not for these," he declared with a contemptuous wave of his hand towards the interrupters.

"Sit down, sit down," the government benches were roaring.

"I sit down," continued Dr. Clark, "but," indicating his opponent, "not in respect to your orders."

REBUILT OLYMPIC
READY FOR SERVICE

Belfast, March 24—The 45,000-ton Olympic, which still has the distinction of being the largest steamship afloat, left today for Southampton to get ready to sail for New York a week from Wednesday. For nearly four months the giant vessel has been in drydock at Harland and Wolfe's shipyard, undergoing alterations designed to make her the "safest" ship in the world. At an expense of more than \$1,500,000 the vessel has been fitted with an inner hull to make her, as far as engineering skill can, unsinkable. The original double bottom of the ship has been extended upward, to a point well above the water line, thus furnishing an interior skin of solid steel and forming a hull within a hull, so that the Olympic is now described as "two ships in one." In the opinion of the engineering experts the Olympic could now pass safely through such an accident as befell her sister ship, the ill-fated Titanic, since the effect of running on a sunken reef or submerged iceberg would be merely to rip the outer hull.
