## LUMBERMEN ENTER PROTEST

(Continued from page one)

"Whereas, apart from the fact that the interests of the smaller operators demand that a more equitable distribution of the lumber lands should be made when the present leases expire, it is not in the interests of the province that a virtual monopoly of these lands should be created as will be the case if the present leases are extended in perpetuity,

"The memorialists therefore desire respectfully to draw the attention of the executive government to the following points and to ask for such points the executive's favorable consideration;

### WHAT THEY ASK

"That no future license should cover a greater area than 100 square miles, and that no person or firm or combination of persons or firms should be allowed to hold limits exceeding that total area.

"That at the expiration of the present leases all the limits included in them should revert to the government and that a survey of all the lumber lands in the province should be made prior to such expiration which shall show not only their exact locality but the precise nature and estimated value of the lumber standing thereon.

"That fifty per cent of such limits should be reserved for the holders of the present licenses, twenty-five per cent for mill owners and other licensees whose holdings at present do not exceed fifty miles, and the remaining twenty-five per cent be put up for sale in the open market to the free competition of persons who at present hold no limits.

"That only by these means can the smaller operators who have invested their capital to the extent of \$338,000 in mills on the Miramichi be saved losing the benefit of the same.

"And your memorialists will ever pray, etc.

"Signed in behalf of the lumber operators of the North Shore.

"THOS. W. FLETT."

### WANT FAIR PLAY

Fair play for the small operator was the main argument of Messrs. Flett, Maloney, Young, Murdock, and Rev. Father Murdock. None of the speakers made any special plea against the large operators but contended against the areas given to them as being too large. There should be a more equal division. These small operators employed more men and had but \$50,000 less capital invested than the big fellows.

Rev. Father Murdock, while disclaiming against being asked to contribute to the argument, pleaded earnestly for evenhanded justice to the small operator. The waste, he said, was enormous. There were millions of feet of lumber left in the woods every year, left there as fuel for destructive fires. Thos. W. Flett made a forcible presentation of the case and said the small operator would be squeezed out if the large holdings were not divided as asked for in the memorial. Surely there was some middle course that would give justice to all.

In his reply, Premier Flemming complimented the delegation upon the presentation of their case. He did not expect to be able to work out any plan that would be satisfactory to everybody, but the government wanted to do justice as well as they were able. They might not be able to grant perpetual leases and they might not meet the views of the smaller operators but they wished to do justice to the great industry and to those engaged in it. The claims of the delegation had been presented moderately and clearly and would receive every consideration.

## Was I Afraid

COLD WOULD DEVELOP INTO

• **Bronchitis.**

Bronchitis begins with a tightness across the chest, difficulty of breathing, and a wheezing sound comes from the lungs. There is also a raising of phlegm from the lungs, especially in the morning. This is at first white, but later becomes of a greenish or yellowish color, and is occasionally streaked with blood.

On the first sign of a cold or cough take Dr. Wood's Norway Pine Syrup and prevent it turning to bronchitis, for once bronchitis gets installed into the system it is only a short step to Consumption.

Mrs. F. Saunders, Toronto, Ont., writes:—"It is with great success I have used Dr. Wood's Norway Pine Syrup. My little girl had an awful cold which seemed to go to her throat and chest, and while she was sleeping one could distinctly hear her wheezing. I was afraid it would develop into Bronchitis, so as soon as my husband came home I sent him right away to get a bottle of Dr. Wood's Norway Pine Syrup. As soon as she awakened up I gave her a dose and continued its use until she became quite better. We only used half a bottle. I will never be without it as I consider it invaluable."

Be sure you get "Dr. Wood's" when you ask for it. The price is 25 and 50 cents per bottle. Put up in a yellow wrapper, and three pine trees the trade mark.

Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

## PROVINCE TO CONSTRUCT

(Continued from page three.)

absolute safety of the town property at that place. The opposition to the bill in Committee came from residents of Edmundston who were not at all familiar with conditions.

Hon. Mr. Flemming asked when the town election would be held, as provision was made in an amendment providing that the question should be submitted to the electors through a plebiscite to be taken at the town election.

Mr. Dugal said that the town election would take place on April 15th.

Hon. Mr. Flemming said that the amendment as it stood at present provided that if the plebiscite was favorable the Council could bring the bill in force whole or in part.

Mr. Duval moved to report progress on the bill, which was adopted by the Committee.

The bill to enable the City of St. John to close certain ways to vehicular traffic was acted to, while progress was reported on the bill to fix the valuation for assessment upon the Edward Partington Pulp and Paper Company, Limited.

The House went into Committee with Mr. Dickson (Albert) in the chair and agreed to the bill to authorize a grant to the Carter Monument Fund.

Hon. Mr. Flemming said that the bill which provided for a contribution of \$3,000 from the Province of New Brunswick would put this province in line with the others of the Dominion in this project which was of a national character. The other provinces were all contributing. The Western Provinces were giving \$50,000 each; Ontario and Quebec gave \$10,000 each and the Federal Government was also contributing generously. He believed that it was proper and right for New Brunswick to do its share towards the erection of a memorial to such a man as Sir George Etienne Cartier, who had taken such a prominent part in the moulding of public opinion in the Dominion at the most critical time in Canada's history. Sir George Etienne Cartier above every other man, was the most responsible for the bringing about of Confederation in the Dominion.

Mr. Stewart (Northumberland) said that Sir George Cartier was a man of whom not only the French people but all Canadians should feel proud, not only in the Province of Quebec, but throughout the whole of the Dominion. It had been very difficult to get Quebec to come out of its isolation at the time of Confederation and join with the other provinces, as the people of Quebec feared that by the union they would lose some of the rights which they had secured by legislation and treaties. It took a man with the breadth of view and the power of impressing his views upon the people to accomplish in the Province of Quebec what he had done. He was sure that the people of New Brunswick, and particularly the French Acadian people, would be very much pleased to learn that this Province would contribute to the memorial, and they will look upon it as the proper thing for New Brunswick to do.

The House went into Committee with Mr. Tilley in the chair and agreed to the bills to incorporate the New Brunswick Coal, Iron & Clay Co., Ltd.; and relating to Mount Allison University with amendments. Hon. Mr. Flemming announced that a delegation representing the Lumbermen's Protective Association or small operators so called would be heard by the Government in the Assembly Chamber at 7:30 o'clock this evening and that as many Hon. members of the House were invited to attend and hear this side of the question discussed.

The House adjourned at 6 o'clock.

## BOSTON SCHOOL 200 YEARS OLD

Boston, Mass., March 11.—The Eliot grammar school of Boston today held exercises in celebration of the rounding out of the second century of its existence. The school was founded on March 11, 1712, when the sturdy fathers of colonial Boston voted to establish a school at the north end of the town to accommodate the growing population in that section. One year later the little edifice was completed and its doors thrown open to the first scholars. The school is the oldest elementary school in the city and the second oldest free school of any kind.

The original building lasted through the period of the Revolution and was not torn down until 1792. The second building lasted until 1837 and the third persisted until 1860, when the present edifice was erected. All have occupied the same site, which is within a stone's throw of Christ's Church where Paul Revere's lanterns were hung.

Many famous men received their elementary education at the old Eliot school, among them Edward Everett, the famous statesman and orator, and Rev. Samuel S. Smith, author of "America." The past quarter of a century has seen great changes in the section of the city where the school is located, and today ninety per cent of the pupils are the children of Italian and Jewish immigrants.
