

A WEAK, ACHING BACK Caused Her Much Misery. Kept Her From Sleeping Nights.

Weak back is caused by weak kidneys, and on the first approach or evidence of kidney trouble Doan's Kidney Pills should be used, and serious trouble avoided.

Doan's Kidney Pills go right to the seat of the trouble, cure the weak aching back, and prevent any further complications arising.

Mrs. W. R. Hodge, Fielding, Sask., writes:—"A few lines highly recommending Doan's Kidney Pills. For this last year I have been troubled very much with nasty sick headaches, and a weak aching back which caused me much misery, for I could not work and had no ambition for anything. My kidneys were very badly out of order, and kept me from sleeping at nights. I tried many kinds of pills and medicines, but it seemed almost in vain. I began to give up in despair of ever being well and strong again, when a kind neighbor advised me to try Doan's Kidney Pills, which I did, and am thankful for the relief I obtained from them, for now I am never troubled with a sore back or sick headaches. I will always say Doan's Kidney Pills for mine and can highly recommend them to any sufferer."

Price, 50 cents per box, 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

When ordering direct, specify "Doan's."

CHATEAUGUAY M. P. FOR 22 YEARS, IS DEAD

Montreal, May 31.—Mr. James Pollock Brown, M. P., of Chateaugay, died yesterday afternoon after an illness of two months. He was born at Beau River, April 4th, 1841, his parents being natives of Renfrewshire Scotland. He received his education at the elementary school, and at the New Haven Business College, New Haven, Conn. In 1869 he married Miss Margaret Stewart. In 1891 he was elected a member of the House of Commons in the Liberal interest for Chateaugay, and had continuously represented that constituency since.

Mr. Brown was a representative of that valorous Scotch race, who established in the midst of the French Canadians, have known so well how to gain the good will of their neighbors, and at the same time, to be-

DR. FREIDMANN DEFENDS HIS TREATMENT

Providence, R. I., May 31—"The truth will prevail always," said Dr. Friedrich Frans Friedmann in discussing the passage by the Board of Health of New York of a resolution barring the Friedmann Institute in that city from using live bacilli in the treatment of patients.

"Up to this morning," said Dr. Friedmann, "the Friedmann vaccine has been used in the treatment of not only 350 new born children from tubercular parents, but also on between 3,000 and 4,000 tubercular patients of all ages and stages, and suffering from all forms of tuberculosis, and is not one single case has any harm come to a person so treated. Of course, the Friedmann remedy is only a remedy against tuberculosis and not a remedy against death."

Dr. Friedmann at the State Sanatorium called the attention of the doctors present to the fact, that in the vaccine employed to prevent smallpox a "harmless living material is used," and that a harmless living material is used in his vaccine. He told the doctors, too, that specialists and scientific men know that a harmless living material is needed for the best results and cures.

Dr. Friedmann declined to discuss the deaths in Montreal, when told that The Herald was today reporting the second death within a few days of patients in that city, who had received injections of his "turtle" serum.

come highly successful farmers. "As a farmer, manufacturer, and merchant, he lived his entire life in the country. He was regarded by numerous French-Canadian electors of Chateaugay as one of themselves.

Pecan nut meats, chopped and laid between slices of buttered brown bread, make delicious sandwiches.

Wood's Phosphatine,
The Great English Remedy.

Price 21 per box, six for \$1. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. New pamphlet mailed free. **The Wood Medicine Co., Toronto, Ont.** (formerly Windsor)

CONSTIPATION Can Be Cured

You cannot expect to be well if you allow your bowels to become clogged. What is necessary is to have a free motion of them every day, and to keep them in this condition all the time if you wish to be strong and healthy. If you don't keep them open the system will become clogged up with poisonous matter and produce constipation, headache, dyspepsia, bad blood, etc.

Keep the bowels in good condition by using Burdock Blood Bitters; the remedy that has built up an unrivalled reputation, during the past thirty-six years, as a cure for all troubles arising from a constipated condition of the bowels.

Mrs. Thomas Calder, East Lower Fort Garry, writes:—"I am writing you to let you know what Burdock Blood Bitters has done for me. I suffered very much from constipation and none of the medicines I took agreed with me. Now I am glad to say that there is nothing like B.B.B. Since taking it I have not been troubled."

Burdock Blood Bitters is manufactured by The T. Milburn Co., Limited, Toronto, Ont.

TAP LINE CASES BEFORE THE COURT

Washington, D.C., June 3.—The so-called tap line case, which has attracted country-wide attention, came up for argument before the Commerce Court here today. The question at issue is whether fifty-seven tap lines located in various states are common carriers and entitled to participate in joint rates. The suit was begun in 1910 and after a large amount of evidence had been introduced the Interstate Commerce Commission ruled that among more than one hundred tap lines which were parties to the proceeding there were fifty-seven which should be classified merely as "plant facilities" and not as public service roads. An appeal from this decision was taken to the Commerce Court. It is expected that eventually the case will reach the Supreme Court of the United States for final decision.

CANADA'S INDUSTRIAL OUT- LOOK VIEWED AS EXCELLENT

New York, May 31.—Canadian bankers in New York do not share the doubtful views expressed in certain quarters on the business outlook in Canada. They are inclined to scout alarmist talk that the country is on the verge of a pronounced trade recession as a sequel to the rapid expansion of the last half dozen years. Commercial transactions, small and large, they affirm, are conducted on conservative lines, thanks, for one thing, to vigilance of the bank with their network of branches which keeps them in close touch with economic developments.

Money is tight in Canada, in keeping with conditions the world over and borrowers are paying 6 percent. No one, however, who can prove legitimate need of capital, is turned away. Naturally, in the present market, lenders are discouraging any extension of commitments, and are scrutinizing narrowly all applications. Requests for loans on inflated real estate are given little consideration.

It is not deemed likely that this denial to weaken speculators will induce any widespread and drastic liquidation in real estate, and cause collapse of its value. Undoubtedly the rate of its appreciation has received a check, and in many sections prices have suffered actual declines. But the tremendous influx of immigrants, with thrifty and settled ways of living, is helping to sustain values. Besides, those in possession of a good deal of the newly-opened land and people of means, threatened with no financial embarrassment which would force them to dispose of holdings before a turn for the better sets in in real estate.

Stress is laid by those who indulge in gloomy forebodings on the huge trade balance which Canada is rolling up against herself. In the past four years imports have annually exceeded exports a quarter of a billion. But point is made that due weight is not given to the important fact that 400,000 people, far from being in needy circumstances, are yearly added to the population.

It is conservatively estimated that each brings \$500 in cash on the average. On this basis the country receives every year from this source \$200,000,000. It is maintained, therefore, that she cannot be accumulating as vast a foreign indebtedness on balance as would appear simply from commodity imports and exports.

Of course, her capital borrowings from Europe and the United States remain. In this, as when our country was in its early development, Canada is building up a debt for future generations, perhaps, to pay off. It is figured that we owe Europe in this way something like \$7,500,000,000. In and of itself this is not a sign of bankruptcy or of poverty.

MANITOBA BAPTISTS IN CONVENTION

NORWEGIAN SHIP ASHORE AT YARMOUTH

Halifax, May 20.—A telegram received by C. H. Harvey, agent of the Marine and Fisheries Department, from the light-keeper at Cape Horse-shoe, Yarmouth, reports the going ashore of the Norwegian ship Freira during a storm which has raged along

the coast this week. The Freira, which was lumber laden, bound for Brazil, struck on Sunday Point, a mile from the Hen and Chickens buoy, and is all smashed up.

PERSONAL

Montreal Herald: Mr. and Mrs. A. McN. Shaw, of New Sherbrooke, will leave the city next week for their summer cottage at Grand Bay, New Brunswick and will not return until September.

THE PRICE OF HOMAGE

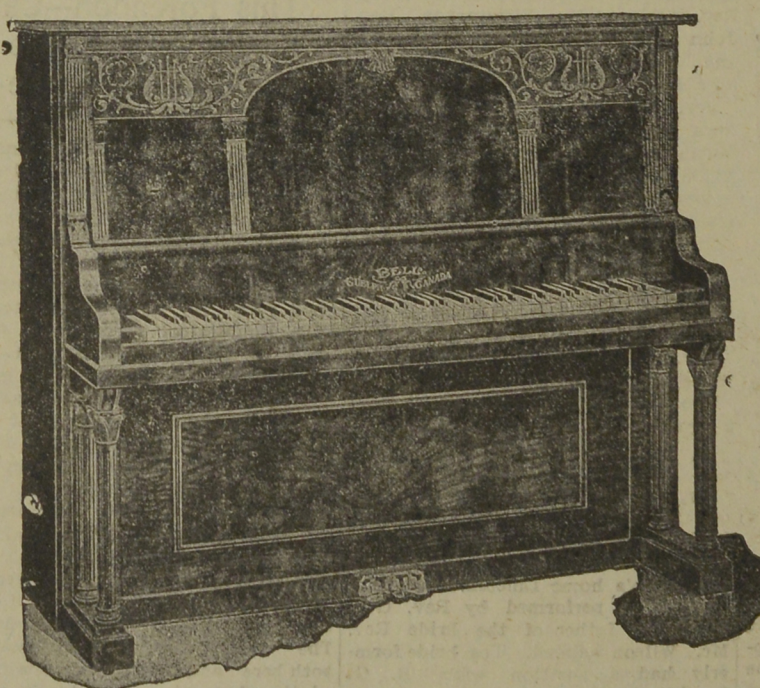

ONCE when King Edward VII. paid a visit to Sheffield, all the fires in factories and plants were allowed to die out! Not a wheel in Sheffield turned for twenty-four hours. The primary object of this was to lift the pall of smoke that hovers over that wonderful steel-producing city, and to ensure, as far as man was able, a bright day and a blue sky for an auspicious occasion. It was Sheffield's expression of respect.

BUT the action was unique—it was unprecedented—it was unthought of that those hundreds of mighty furnaces, raging night and day, and those seething boilers, with quivering valves, should ever be allowed to cool. This extinguishing of fires cost Sheffield hundreds of thousands of dollars—the price of the effort to get back again to high-power efficiency.

SOME business men in Canada pay an unwitting homage, not to a king, but to a superstition—the superstition that hot weather justifies letting the fires of business energy go out. They stop Advertising in the Summer months. By paying homage to tradition, custom, superstition, they have allowed Summer to become their "dull" season. You know how dull it can be when you don't advertise. Do you know how brisk it can be made by Advertising? Do you realize how much momentum you now lose in the Summer that must be regained in the Fall?

DON'T LET YOUR ADVERTISING FIRES DIE OUT THIS SUMMER.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 603, Janssen Building, Toronto. Enquiry involves no obligation on your part—so write, if interested.
