STOCK MARKET

(By direct private wire to J. C. Mackintosh & Co., 550 Queen Street, Fredericton, N.B.)

New York, Feb. 7.—White stocks were supplied on the rally the buying appeared to be more confident than on any day for considerable time past. Dullness as was witnessed on Thursday does not continue long as a rule and it often precedes a substantial advance. Union Pacific was comparatively strong, while Southern Pacific was relatively weak. There was the sort of selling in Southern Pacific that suggested the formation of useful short interest. A continuance of buying movements in Southern Pacific as for some time past carried price of those bonds up to 98 a gain of 1/2 and a new high point.

PARLIAMENT

(Continued from page 1)

the ministers," he added, "we want explanations and more light."

Mr. MacDonald pointed out that the whole policy had been a procession of blunders. The measure itself had not yet been regularly introduced into parliament by the premier, who now sat silent. Two weeks ago the young minister of finance had announced that he "was going to tell us how to save the empire." It was a bit amusing from this tyro, this legislator who has only been in parliament for a year and a half. He was rather hardy in beginning with such a large order and he, too, now sits silent.

Mr. MacDonald passed on to Messrs. Nantel and Coderre, also sitting silent. By the Borden policy Canada was making a confession that she had no men, no artisans, no capacity for a naval scheme like Australia.

"What will future Canadians think of this miserable confession of incapacity?" he asked.

TWO POLICIES CONTRASTED.

Continuing at night, Mr. MacDonald denied the difference that divided the House.

"The Borden policy is a policy of contribution," he declared. "The Laurier policy is a policy of construction."

The eloquent Pictou man exposed the discordant elements in the government.

"How," he asked, "does the imperialistic minister of militia like sitting between the man who declared against sending Canadians to South Africa, the man who recently referred to him as Sam the Tetrarch?"

There were occasions in imperial politics, Mr. MacDonald went on, when men in responsible positions had changed their minds after a reasonable time.

"But," he continued, "I venture to say that no man occupying such a position in any country ever made so complete a reversal of front in so short a time as the present premier of Canada."

The Pictou man was reminded of Lord Roseberry's declaration that "Toryism under pressure of conditions has shown itself to be exceedingly admirable. With Mr. Borden the pressure had come from the Nationalists and from Monsieur Henri Bourassa.

THE WAR

noon.
FOREIGNERS MUST STAY IN
ADRIANOPLE.

Sofia Feb. 6.—The ministers of the powers in Sofia today communicated to Premier Guechoff the request of the consuls at Adrianople for permission for foreigners to leave the town or for the establishment of a neutral zone for their protection.

Premier Guechoff declined to accede to the request. He said, in explanation, that there was no precedent for foreigners leaving a besieged place under similar circumstances, and there were weighty reasons why Bulgarian headquarters could not

grant such permission. Nor could a neutral zone be established as no guarantee could be given that shells would not accidentally fall within the zone and consequently new difficulties would be created for the troops engaged in the operations.

TURKISH TROOPS RETIRE.

London, Feb. 7.—The main body of the Turkish troops has retired behind the main line of defence at Gallinoli, according to a despatch to The Daily Telegraph.

A Constantinople despatch says that the Bulgarians attacked the Rula forts but were compelled to retire to their old positions. The Turkish cruiser Messudieh with two torpedo boats, has sailed for the Black Sea, apparently to cover the landing near Midia of troops from Trebizond.
