KING EDWARD'S HEALTH

(Continued from page one)

London, May 5.—The kingdom was thrown into consternation tonight by the sudden and totally unexpected announcement that King Edward was suffering from bronchitis in a form which caused some anxiety to his physicians, two of whom are sleeping in Buckingham Palace tonight in order to be on hand in case of need. The first intimation that anything was amiss was the failure of the king to meet the queen, who returned from the continent this evening. It has been the king's invariable rule to be present on the queen's arrival from any out of town journey and his absence this evening was made the subject of general comment immediately it was noted.

The queen hurried to the palace and soon afterwards the public learned by an official announcement that the king had been ill for two days. The fact that his illness had been thus concealed from public knowledge increased the alarm, when once it became generally known.

A SECOND ATTACK

The king suffered from a similar attack at Biarritz owing to the inclement weather and cold winds, but it was supposed that he had completely recovered, especially as he attended the opera at Covent Garden within three hours of his arrival in London from Biarritz last Wednesday.

His Majesty spent the week-end at Sandringham with the object of combating the threatened attack and returned apparently better, but the sudden changes in the weather this week were very trying to His Majesty and finally compelled him to keep indoors. He still attended to state business, however, and it was only today that his physicians were able to induce the king with great reluctance to keep to his bedroom and take a complete rest.

CONDITION CAUSES ANXIETY

The bulletin issued at 7.30 o'clock this evening showed that the eminent specialist, Sir Richard Douglas Powell, had been called in. He with the king's physicians, Sir Francis Lakin and Sir Jas. Reid, signed the bulletin, which read:

"The king is suffering from an attack of bronchitis and has been confined to his rooms for two days. His Majesty's condition causes some anxiety."

THIS MORNING'S REPORT

London, May 6.—King Edward spent a comparatively good night. It was announced this morning that his condition is much the same as last evening.

An official bulletin issued by the physicians at 11.03 o'clock this morning is as follows:

"The King has passed a comparatively quiet night, but his symptoms have not improved, and His Majesty's condition gives rise to grave anxiety." Doctors Mawson and Thompson, physicians to King Edward were summoned to Buckingham Palace this morning, and after a consultation with the three physicians who were in attendance throughout the night, the above bulletin was issued.

MARYSVILLE.

The many friends of Mr. Geo. Hanson will be sorry to hear that he is very ill with pneumonia.

Mrs. Alex. Stephenson and children are spending the week with her mother, Mrs. Chas. Benham, in Fredericton.

A CERTAINTY.

"What is that?"
"We'll have to quit talking about the wisdom of the plain people."

"A wise man never burns his bridges."

LOCALS

STILL IN JAIL.

Stephen Muisie, the Indian who was put in jail for debt, is still in the toils, although his wife has made every effort to have him liberated.

SMASHED HIS CARRIAGE

A professional man belonging to the city met with a serious mishap this morning. He was driving over the bog which does duty as a highway road between St. Marys and Gt. St. John, when one of the wheels of his carriage dropped into a hole, with disastrous results. The box of the vehicle was smashed, but, the driver escaped uninjured.

HEADWATERS SURVEY.

Mr. D. R. Smith, who will be graduated by the U. N. B. next month, is to be instrument man on the survey of the headwaters of the St. John, which Mr. F. G. Goodspeed is to be chief, Mr. James E. Palmer of this city, and Mr. Henry A. Lynch, of St. John, both freshmen at the U. N. B., will also be in the party.

THE SMELT RUN

Local anglers complain that the run of smelt this season is not quite up to that of former years, and the fish do not bite a hook with their usual avidity. A party composed of Commodore S. Kerner, Rear Commodore Walker, Capt. W. A. Lindsay and Boatswain A. Lindsay, made a trip to Sewell's wharf yesterday in the gasoline launch Bukowina, and upon their return home reported a smelt catch of seven dozen. They claim to be the "high-livers" of the season.

THE LUMBER DRIVES.

Reports from the St. John headwaters are to the effect that the river has fallen considerably since the early part of the week. The recent rains have checked it somewhat, but it looks as if the worst of the spring freshet was over. The conditions at present are favorable for driving, but the logs cut on the upper St. John are a long way from the boom limits yet, and considerable hard work will have to be done before they reach safe water. The Nashwaak drives are coming along well, and are expected to be out by Saturday night.

DEATH OF JEROME D. JONAH.

Besides his parents, three brothers and two sisters survive. The brothers are George H., of this city, E. Bruce of Regina, and Gordon E., also in the West. The sisters are Mrs. Robert Hazerman of Bear Island, and Miss Mabel Jonah, who is now at home. The bereaved family has the sympathy of the entire community. The deceased was graduated from the High School in June last, and entered the U. N. B. in the autumn. He was compelled to abandon his studies by illness after being at the University one month. The funeral will be on Sunday at 3 p. m. Rev. J. H. MacDonald will conduct the service.
