LIFE A NIGHTMARE

Helpless and Broken Down, Dr. Williams' Pink Pills Came to the Rescue

There are many who think anaemia is a trouble confined to growing girls and women, but this is not the case. Thousands of men are anaemic, and attribute their growing weakness to mental or physical overwork, or worry, and who do not appear to realize that they are swiftly passing into that condition known as general debility, and that their trouble is due entirely to the fact that their blood is watery and impure. If the trouble is not taken in time, they pass from one stage to another until the breakdown is complete, and often until a cure is beyond hope. To men in all walks of life there is no medicine so valuable as Dr. Williams' Pink Pills. If you feel faded, weak or worn out these Pills will make that rich, red blood that puts vim and energy into every portion of the body. Making good blood is the mission of Dr. Williams' Pink Pills and good blood is the one secret of good health and vigorous life. An excellent case in point is that of Mr. R. W. Ellis, of Balcarres, Sask., who says: "Just four years ago I was in England making preparations to fulfill the long cherished ambition of coming to Canada. My health at that time was normal, though I was never very strong. Three weeks before the time of my departure I was overcome with a feeling of general weakness and faintness which rendered me so inert and lifeless that my days were shrouded in gloom. Consultation with a doctor brought me no consolation. Debility was my trouble and I was on the point of a breakdown. 'Canada in your condition means death,' said the doctor. 'You must have a complete rest.' A rest, however, was out of the question, a fortnight's holiday I had and then back to earn my daily bread. The next years were a series of misery and despair, body and brain undermined with a complaint the doctor could only call debility, but apparently could not cure. Snatching holidays when I could I struggled on until the opening of 1909, when completely prostrated I was compelled to go to my parents and become a burden to them. My life was simply an existence and friends said, behind my back, 'consumption.' 'In April, 1909, I began taking Dr. Williams' Pink Pills. Three months later, on July 1st, I sailed from Liverpool on the Tunisian for Montreal, full of new life, energy and hope. In this great country I am making good and owe it all to Dr. Williams' Pink Pills. In three months they changed me from a nervous wreck to a healthy man. When doctors failed they succeeded, and I honestly believe they saved my life.' You can procure this great health-giving medicine from any dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

HOWE'S GREAT

LONDON SHOWS

Traits of Circus People Little Known to the General Public.

"Circus women seldom marry other than circus men. They are most devoted wives and mothers, who take life seriously and soberly. Many of them are devout church women and real Christians.

"Their home life in winter is pleasant and agreeable. Some of them, but not many, work in the theatres in the winter time. It is a most curious fact that very few of them care to live in the large cities, but make their homes on farms or in small towns. There they pass the time away in the usual social functions and household affairs, many of them preparing their wardrobe for the coming season on the road. Few of them ever become dependent upon their families or the public authorities. They, of all women in the world, most truly appreciate and enjoy the comforts and blessings of a home after being compelled to be away for six months in strange towns and among strangers every day, and in the narrow confines of a sleeping berth on a circus car every night.

"It is a hard life, but by no means an unhappy one. The rigorous labor and good food and abundant sleep bring health and attendant good spirits and pleasant disposition. Charity in its truest sense abides among them. The slightest call for aid from them always elicits a ready and hearty response. The women with a show like this are surrounded by their male relatives and men, each one of whom considers himself the protector of their welfare and their honor. Circus women are a credit to their calling and an honor to their sex."

Don't forget the date of Howe's Great London Shows exhibiting here is Wednesday, July 27th.

MAIL'S MARKET REPORTS

Montreal, July 21.—The local butter market is firm today with wholesalers selling to the jobbing trade at 23c. for Townships; 22½ c. for other sections, and under finest at 22½ to 23c. per lb.

The strength of the market is due to the heavy demand for local consumption, and from outside points. In addition three or four cars are booked for shipment to the West this week.

One of the most important features of the market is the good enquiry from England. During the past ten days the English buyer has been "nibbling" at the market, and it is just a matter of shading prices a little to bring on a good export trade. However, it is doubtful if prices will recede much further, as the country markets continue to hold firm. Should they weaken any the export business will come along, but they advance again the class of trade will likely fall off again.

EGG MARKET FIRM

HOUSEWORK MADE EASY BY WILLIE'S ROLLER-SKATE SWEEPERS

DEAR TOMMY: Our upstairs girl left the other day, and Mamma had to do the sweeping, so I got a couple of those baby carpet-sweepers and fixed them up like roller skates. I got along all right, but Papa tried to do a fancy stunt and broke them!

Yours, etc., WILLIE.
