LAUNDRY TIPS

It is not generally known that a spoonful of ox-gall in one gallon of water will set the colors of almost any goods that are soaked in it before washing; also that a teaspoonful of lye in a pail of water will improve the color of any black goods. Vinegar in the rinsing water will brighten pink or green calico, and soda will do the same for purple or blue calico.

A GOOD WAY TO WASH FLANNELS
First of all cut up some of the best yellow soap, and put into a bucket with about two quarts of water, and let it boil. Then have ready some hot water, and pour the boiled soap into it, with a few drops of ammonia. Then take the flannels or woollen goods and work them well about on the water, afterwards rinsing them well in luke-warm water, and shake them before putting them to dry.

WASHING LACE COLLARS

I have lately tried the following method of washing lace, crochet, and tatted collars, and find that it not only makes them look well, but saves much of the wear in other washing. Cover a glass bottle with linen, then tack the lace or collar smoothly upon it, rub it with soap and move it about well under warm, soft water till it looks clean. Boil for half an hour, let all dry together, and the lace will be quite ready for use.

Mr. Arthur Chute is suffering with a very painful felon on his finger.

About thirty friends of Mr. and Mrs. R. Chute gathered on Friday evening and gave them a surprise party. Each lady brought well filled baskets and all enjoyed themselves immensely. Mrs. Chute received many useful and pretty presents.

BLOOMFIELD RIDGE.

Aug. 13.—The farmers of this place are having good weather to finish haying after the late rains.

This has been a good year for the canoe man. There has been over twenty different parties here this season fly fishing, and upwards of a thousand dollars paid out to canoe men and cooks.

There is more salmon at Burnt Hill and other pools up river than there has been for twenty years. Thanks to the Dominion Government for the way in which they have the fish protected here the head of the Burnt Hill will soon be back to what it used to be when it was called the best fly fishing stream in the province. Parties who come next season for the fishing will be able to come by train to Half Moon Cove, or they can step right out of the train into a boat.

Another thing we have to thank the Laurier government for is the new railroad; still there are men here who are so blind to their own interest as to vote Tory.

The writer recently met a party of seven American tourists with ten Canadian guides at Burnt Hill and a better crowd of gentlemen it has never been my fortune to meet. Donald McKay had charge of the crowd and he is the right man for the business. Wilfrid Norrad was chief cook of the party, and it goes without saying that the fare was of the best. Wil-

The trustees of this school have made a great improvement in the looks of the school house grounds. They repainted the school house, built some out buildings, cleared up the grounds, put up a wire fence and new gates, and altogether improved the looks of the house and yard wonderfully. Alex. Norrad, school secretary, deserves credit for the way in which he has helped the trustees out in their work, buying material for the work and doing business generally for them, without a thought of recompence.

Some 194 persons killed and 2,945 injured—such is the automobile record in Germany for the past year. These were not all passengers, of course. Nevertheless it is worthy of remark that only 105 passengers were killed on the German railroads in 1908, the last year of which returns are available and probably there were 10,000 people using the railroads to one using an automobile. There is obviously no comparison respecting safety of travel between railroads and automobiles either in Germany or this country.

Give your servants GOLD DUST to clean with, treat them rightly and you will have few occasions to insert a "help wanted" ad

They say a good workman is known by his tools. You cannot expect your maid to keep everything ship-shape unless you give her every modern help. To keep house without GOLD DUST is to do work by hard, old-fashioned methods. For cleaning everything and anything about the house—from cellar to attic—GOLD DUST is worth its weight in gold. It cuts grease and dirt like magic, does away with scouring and scrubbing, and saves time and tempers.

Your servant can do more and better work and keep sweet with the aid of GOLD DUST in all household cleaning.
