

SHOLM

of Southern Alberta"

was Born Plucky."

It is confidently expected that three Railways will be operating in and out of Claresholm within Three Years.

THE FUTURE CLARESHOLM

COLD Hard Facts are stubborn, unsurmountable and sphinx-like. The establishment of the proof of a fact makes it a reality, regardless of the seemingly apparent conditions. The Claresholm of to-day evidences without question, **OPPORTUNITY**---The Claresholm of the future will subsequently prove the **REALIZATION**.

Claresholm's future as a grain centre is assured; every year the yield has more than doubled. Seventy per cent. of the grain grown in this district is handled at Claresholm.

Yields of Wheat in Southern Alberta, Year 1909

District	Total Yield in Bush.
Claresholm	1,938,837
Lethbridge	917,637
Cardston	885,064
Nanton	374,267
McLeod	293,098
High River	263,397
Pincher Creek	261,716
Medicine Hat	228,788
Okotoks	118,839
	5,281,643

These figures are guaranteed and published by the
Provincial Department of Agriculture.

Record Yields in the Claresholm Dist.

FALL WHEAT

	Bush. per Acre
E. Oncowall	66.25
J. Earlby	65.00
O. J. Amundson	60.00
A. Stevenson	41.77
A. Johnson	38.00
J. Montgomery	35.00

OATS

O. J. Amundson	125.00
Travis Bagley	105.00
John Thime	84.44
E. O. Galde	83.72
Carl Galde	82.50
G. Williamson	81.50

The Canadian Pacific Railway is unable to handle the grain with satisfaction to the Elevator Officials and farmers and their complaints have been heard with favor by the officials of the new railroads, viz---Canadian Northern Railway and the Grand Trunk Pacific.

Besides the mammoth yields of grain, the coal industry of the district, which heretofore has practically been left undeveloped, will be in operation, supplying fuel for its railways and local industries. To the west of the town, 10 miles distant, Ranching has been successfully carried on by old, experienced companies for 20 years. The city of Calgary will have a population of from 75,000 to 100,000, Lethbridge will have at least 35,000, and Claresholm's growth during this period with the many advantageous steps of development will be 10,000 or 15,000, to say the least. Property values, business and industrial franchises will be at a premium. The increase in growth will proportionately affect the conditions which merited such. Claresholm offers its unquestionable possibilities to you to share in the development of its resources and natural advantages as embodied in the opportunity of the year.

POPULATION 1915 - - 15,000
