MYSTERIOUS MURDER IN NEW YORK SUBWAY

Well Dressed Young Man Returning From Theatre Shot and Killed—His Assailant Placed Under Arrest—No Motive Found For the Crime.

New York, Sept. 30.—An express train in the subway was the scene of a mysterious murder at 1 o'clock this morning. A well dressed young man apparently returning from the theatre was the victim. There was nothing on his person to identify him. His assailant, according to the police, was Charles Wright of Elizabeth, N. J., who was arrested. According to bystanders the two men stood near each other in a crowded car. They did not appear to be acquainted but suddenly it was noticed that they were having a violent quarrel about something. Then came a pistol shot and the young man fell to the floor, mortally wounded. There was a panic in the crowded car. Women in gay theatre attire, made for the doors. Several men grabbed Wright, who struggled with him. By that time the train had begun to slow down at the Fourteenth Street station. A subway watchman took charge of Wright as the doors swung open. He denied all knowledge of the crime.

In company with the correspondents of the Reuter Telegram Companies, the New York World, and the New York Sun, Mr. Wile engaged in his duties, was watching the police and rioters from a motor car when the newspaper party was set upon by the police and painfully injured. Seemingly without provocation the police charged with sabres and the newspaper men were saved from further injury only by a flight to the nearest first aid station. Berlin, Sept. 30.—R. Zymour, the British charge in the affairs has received a protest from the three other newspaper men who are British sub-

LIEUTENANT SEDDON
FROM THE DAILY SKETCH

A most unusual type of aeroplane has made its appearance at Wolverhampton, England, and is illustrated above. It consists of a tandem biplane, and has been designed by Lieutenant J. W. Seddon and Mr. A. G. Hackett. Apart from the tandem biplane principle, which has not yet been given any real practical trial, the Seddon machine is also unique in its system of construction, the bracing of the main planes being effected by an arrangement of crossed hoops instead of by the usual system of struts and ties. The two engines, which drive beehive propellers, being supplied by the New Engine Company. The estimated weight of the machine is about one ton, and its supporting surface about 1,000 square feet. Beyond the Seddon machine a monoplane is seen.

CHINA ON VERGE OF UPEHAVAL

An Outbreak Similar to Boxer Uprising is Looked For

Lives of Foreigners Said to be in Jeopardy—International Conditions Being Closely Watched.

Washington, D. C., Sept. 30.—China is declared to be on the verge of another upheaval, similar to the Boxer uprising and the lives of foreigners are in jeopardy. Advice received here recently from government officials in China, express the belief that an outbreak at any time would not surprise them. The state department has instructed officials to maintain a close watch on the internal condition.

All through the summer months there have been mutterings of discontent in some of the Chinese provinces, due to the rice famine, dynastic difficulties and dissatisfaction over acts of the Pekin government as to foreign investments in China.

Good harvests mitigated to some extent the gravity of the situation, but there is still a general feeling of unrest, according to personal letters received here from men on duty in that quarter.

Advices from those charged with keeping in touch with the conditions indicate that the only thing lacking to parallel today's situation with that preceding the Boxer troubles, is the matter of organization and that it only needs a leader to effect that end.

DEMOCRATS IN QUANDRY

Have Not Yet Been Able to Agree on Candidates

Tammany Hall Appears to Dominate the Situation—Direct Primaries Plank Endorsed.

Rochester, N.Y., Sept. 30.—The delegates to the Democratic State Convention today faced a situation without a parallel in the history of the party. In the second and supposedly the concluding session of the convention set for one o'clock this afternoon, the leaders started the day without even the semblance of a slate and with no less than fifteen names under consideration for first place on the ticket. The conference that met in the rooms of leader Charles F. Murphy of Tammany last night discussed the relative merits of these fifteen candidates for nearly three hours and finally adjourned at half past two this morning without being able to agree. The only definite result of this meeting, which was attended by thirteen of the most prominent Democrats, was the endorsement of the direct primaries plank, which will be one of the three prominent features of the platform. This plank will read as follows:

"We favor a state wide direct primary to insure to the people the right to select political committees and nominate public officers." Further than this, the most ardent champions of direct nomination would not go and the men who framed the plank declared that it would win more votes for the party this fall than anything else in the platform.

The programme for the convention today was the selection of permanent officers, the presentation of committees reports, the adoption of a platform and finally the nomination of a ticket.

Herbert R. Ricell of Buffalo will be named for permanent chairman and his speech will supplement that of Alton B. Parker, the temporary chairman yesterday, defining the issues.

DIX FOR GOVERNOR.

Rochester N.Y., Sept. 30.—John A. Dix, for governor, if he will take the nomination: Alton B. Parker or D. Cady Herick if Dix will not. Mr. Dix was allowed to consider the matter for a few hours with the understanding that he should give his decision when the conference was resumed today.
