The Famous Rayo The Lamp with Diffused Light should always be used where several

people sit, because it does not strain the eyes of those sitting far from it.

The Rayo Lamp is constructed to give the maximum diffused white light. Every detail that increases its light-giving value has been included.

The Rayo is a low-priced lamp. You may pay \$5, \$10 or even \$20 for other lamps and get a more expensive container—but you cannot get a better light than the Rayo gives.

This season's Rayo has a new and strength-ened burner. A strong, durable shade-holder keeps the shade on firm and true. Easy to keep polished, as it is made of solid brass, finished in nickel.
