## AUTHORITIES ON THE TRAIL OF LOS ANGELES DYNAMITERS

**Important Information Already in Their Possession--Eleven Bodies Have Been Taken From the Ruins of the Times Building, but Only Five Identified.**

Los Angeles, Calif., Oct. 4.—The eleventh body and part of a backbone have been recovered from the ruins of The Times building. Several bodies are known to be pinned beneath the mass of twisted steel girders but it will be impossible to remove them until the steel has been removed. The bodies are close together and it is believed that they fell down the elevator shaft.

It is impossible to identify six of the bodies removed. The police are at present on a twelve instead of an eight hour shift. The extra four hours are spent at police headquarters as members of a reserve force, which numbers one-third of the membership of the department. The non-union men employed at the Llewellyn Iron Works, were thrown into a panic yesterday by the discovery of what was supposed to be an infernal machine in a brick warehouse near the plant, but which turned out to be a sort of grim joke. Someone had arranged a small electric buzzer with a clock and two dry cell batteries attached, in a tin box and secreted it in the warehouse.

The continued buzzing finally attracted attention and the apparatus was rushed to the police station, but the officers found that it was not dangerous. It is supposed someone was trying to scare the workmen.

### TRACKING THE SUSPECTS.

San Francisco, Oct. 4.—That important progress in the search for the perpetrators of the Los Angeles Times disaster may be made today is indicated by a statement given out

here by Earl Rogers, the Los Angeles attorney, who is in charge of the investigation of the explosion. Mr. Rogers said:

"We have important information in our possession."

He expressed the hope that the investigation would develop sufficiently today to justify a disclosure of the findings made. Determined efforts are being made to trace the launch Peerless, in which the dynamite purchased at Giant, Calif., by the trio of suspects now being sought was taken away. A mysterious craft answering in every particular the description given of the launch Peerless, has disappeared from Richardson's Bay, Sausalito. Frank Leman, a fisherman, says the launch came into a cove at Sausalito on the night of September 20. He said he could see three men about it at night, but no trace of its occupants was to be observed by day.

When Peaman returned from his fishing on the morning of September 23, the boat was gone.

From the time the white launch was last seen at Sausalito by Leaman it was not observed again until nine o'clock yesterday morning, when Wm. Gorman saw what is believed to have been the same boat anchored off North Sausalito. At noon the craft had disappeared.

Letters forming the name "Peerless," which was the name of the craft that called at Giant, Calif., were purchased from a local firm on the evening of September 23 by two men who tallied with the description of two of the trio of suspects who bought dynamite at Giant.

## QUEBEC RAILWAY WAS ACTIVE ON MONTREAL STOCK EXCHANGE

New York, Oct. 4.—Wall Street—The opening movement of prices of stocks was uncertain and irregular and with in a very narrow range. N. P. fell  $\frac{1}{2}$ , and Minna, St. Paul and Soo, advanced  $\frac{1}{2}$ . These were the most conspicuous changes. The dealings were small.

New York, Oct. 4.—Wall Street Noon—The stock market was influenced by technical considerations. Professional operators sold stocks on the ground that recreation was due on account of the extent of the duration of the preceding advance. The supply proved discouraging to the efforts to bid up prices. Such an effort was made in the second hour but prices yielded to a lower level than before. Bonds were irregular.

## NEGRO WHO ASSAULTED GIRL BURNED AT THE STAKE BY MOB

Montgomery, Ala., Oct. 4. — Six hours after he had assaulted Mrs. Hiram Stuckey, a prominent young woman of Covington County, Rush Withers, a negro "trusty" at the Henderson Convict Camp, was taken from the warden last night while en route to prison at Andalusia, tied to a stable by a mob of 400 men and burned.

The lynching was conducted quietly and the mob which formed from adjoining towns dispersed to their homes, leaving no trace of their fury, save the ashes of the negro. The crime for which the negro was lynched was committed early yesterday afternoon when he went to the farm of Mr. Stuckey for the purpose of getting drinking water for fellow

convicts who were employed at a camp nearby. Entering the house, it is declared, the negro assaulted Mrs. Stuckey, who was alone, after which he clubbed her into insensibility in an effort to stifle her cries. Today it is reported she is in a precarious condition.

Before lapsing into insensibility, Mrs. Stuckey informed her rescuers of the assault, naming the "trusty," whom she knew, as the perpetrator of the deed.

The negro was caught and hurried to the stockade at Sanford, six miles from Andalusia.

Upon hearing rumors of a mob, Warden Long attempted to spirit the convict to the prison at Andalusia, but was intercepted on the outskirts of the village.

## AVIATION RACE NEXT SATURDAY

**Route Between Chicago and New York to be Blazed**

**Indian "Smudges" and Captive Balloons Will Designate the Seventy-Eight Stations.**

Chicago, Oct. 4.—Plans for blazing the route of the aviators in the Chicago-New York race, which is scheduled to start next Saturday, have been completed. Indian "Smudges," giving out thick black smoke by day and a dull red glow at night, sheets spread over the roofs and captive balloons are among the signals which will designate the 78 stations on the route. Generally speaking the aviators will follow the route of the Lake Shore and Michigan Southern to Buffalo, and then New York the remainder of the way. In approaching towns signals will show the aviators where to turn off the path of the railroad to fly around to a good landing place.

A path-finding automobile will leave Chicago today to establish a relay service of motor cars all the way to New York. A fast car will be engaged at each important town on the route to be in readiness for a telephone call to carry rations, supplies or medical aid to the aviators.

Bailey, of London, England, who had an attack of appendicitis while hunting at Guide Braithwaite's camps on the Little South-west Miramichi, returned to the city at noon today under the care of Dr. C. P. Holden, who joined him in camp a fortnight ago. He was immediately removed to the Victoria Hospital, where he is reported to be resting comfortably. It is scarcely likely that he will undergo an operation here. Before he was taken sick, Mr. Bailey shot a moose and a deer, the moose having an antler spread of sixty inches. Dr. Holden also had the good luck to shoot a moose. Mr. Bailey made the fifty mile trip out of the woods on a sled drawn by a span of horses. He was accompanied by Dr. Holden and Guides Arch Munn, Henry Moon and "Zink" Edwards.

Reinforcements have been sent against the outlaws but the absence of roads in the mountain fastnesses hampers the operations.

The depredations of the Zelim have been on such an extended scale that the authorities were compelled to detail three companies of infantry and a company of cossacks to run down the maudraders. The expedition tracked the bandit to the border of Tiflis province and surrounded its camp which was pitched in an almost inaccessible gorge. It was decided that the Bishop Kingdon Memorial should take the form of an endowment to Christchurch Cathedral of Fredericton.
