MEXICANS ARE ANGRY

Violent Demonstration Against Americans at Mexico City

Quiet Restored After Mob Had Been Charged by Police, and Three Disturbers Killed.

Mexico City, Nov. 10.—Mexico City today resembles an armed camp following nearly 48 hours of demonstrations against the Americans and the government.

In the course of the rioting an American flag was torn down, trampled upon and torn to pieces. Citizens were assaulted or insulted in the streets, windows of a dozen American business places were shattered and an attempt was made to destroy the plant of El Imparcial the leading Mexican daily and the exponent of Mexican politics. Quiet was restored only after squads of mounted police with drawn sabres had repeatedly charged the mob, killing three of the disturbers roughly handling scores of others and arresting more than 200. Today companies of mounted police are stationed in every block, and hundreds of gendarmes are patrolling the streets. The demonstrations were confined to the business portions of the city no disturbances having been reported in the residence quarter.

Of several reported fatalities, one occurred in front of the offices of El Imparcial and two dying a charge of police near the Alameda a public park near the centre of the city. The only explanation of the attack on El Imparcial was the political malcontents, fired by the students activities over the burning of a Mexican in Texas seized an opportunity to wreck vengeance on a government organ. An American is reported to have been captured by the rioters who tore off his clothes and beat him.

CONFIRMED AT WASHINGTON

Washington, Nov. 10.—Official despatches giving details of the anti-American demonstration in Mexico City yesterday reached the state department today from United States Ambassador Wilson, and Arnold Franklyn, the American Consul General. Mr. Wilson confirmed the press reports that he has protested to the Mexican Department of Foreign Relations against the insult offered Americans and that the riot grew out of the lynching of a Mexican, Antonio Rodriguez, at Rock Springs, Texas, on November 3rd. Mr. Franklyn's despatch said that the riotous students who paraded the streets cried "Death to Americans," and threatened the Consulate. He also told how these students had pulled an American flag from a business house and had trampled it under foot. The department is awaiting further advice from Ambassador Wilson before taking any action in the matter.

A DECIDED REACTION IN THE STOCK MARKET

New York, N. Y., Nov. 10.—Wall Street, Noon.—Stocks were pushed for sale in continuation of the speculative profit taking which begun yesterday. Traders sold short and offered prices down on discovering the yielding tendency. U. S. Steel was freely liquidated on expectations of a poor showing of unfilled orders from the monthly statement. Reading and U. P. were notably weak. These three stocks declined 1 1/2 to 1 1/4 and guided the general list. Losses of a point were numerous. Lake Erie and Western fell 2 1/2, Long Island 2 1/2, Pittsburg Coal Pfd. 3/4, Ills. Central, National Lead, American Ice, Westinghouse Elec. and Tenn. Copper 2, Int'l. Har. 1 1/4, Np. 1 1/4 and St. Paul 1 1/4. Slight rallies resulted when the activity of the selling diminished. Bonds were irregular.

COOK NEVER REACHED TOP OF MT. MCKINLEY

New York, Nov. 10.—Prof. Gerschell C. Parker of Columbia University, who recently returned from his exploration of Mount McKinley, today made public a series of photographs taken near the Alaskan Mountain which he claims is indisputable that Dr. Frederick A. Cook, the Brooklyn traveller, never reached the top of the highest peak in America. Prof. Parker states that he found the mountain peak which Dr. Cook photographed and called Mount McKinley, the top of the continent and in support of his statement showed a photograph of a mountain peak taken by his expedition last summer and pointed out that a comparison of the two photographs shows in detail identical outlines of rock formation, proving that they are pictures of the same mountain.

"The mountain which I photographed," said Prof. Parker, "was twenty miles away from Mount McKinley and fifteen thousand feet below its summit. This is the same peak that Cook photographed and called the 'Top of the continent.'"

UNITED STATES ELECTIONS

Opinions of the British Press on the Great Democratic Victory

Downward Revision of the Tariff Will be Demanded by Leaders of Victorious Party.

London, Nov. 10.—England has been an interested observer of the American elections, particularly Mr. Roosevelt's part in them. The papers for weeks have carried long despatches of the progress of the contest. The London morning newspapers print lengthy editorials on the subject. The Standard thinks it an exaggeration to describe the elections as a crushing blow to Rooseveltism or an overwhelming disaster to the Republican party. Roosevelt, says the paper, may pop up again while the party under President Taft might haul itself together for a great effort in the presidential election.

Mr. Roosevelt's fault says the Standard, lays in the belief that the party organization must be remodelled and that he was the only person to carry out the task.

The Daily Graphic says:—"Insurgency clearly has gripped the country. The old party system is perilously near the melting pot if it is not actually in it."

The Chronicle sees in the result revolt against protection.

The Morning Post says:—"It cannot be said that the Democrats owe their victory to any positive merits of their own. Their success must be attributed to the unpopularity incurred by the Republicans and still more to divisions which weakened the once powerful party."

The Daily News says:—"Mr. Roosevelt took upon himself to reform American politics without any reference to any other person of influence, a kind of assumption from which the American form of democracy fights shy."

The Express says:—"Roosevelt encompassed his own failure."

The Times says:—"Hard as it is the blow to Roosevelt and Taft, we are far from believing that either the ex-President is down and out or the word 'failure' must be written of Taft's administration. Mr. Roosevelt may learn moderation from his defeat; in any case he is too valuable an asset to be dispensed with by his country and too powerful a personality to permit of such treatment. We cannot but note with satisfaction the tide which swept into office men like Wilson and Harmon. Such men must prove a gain to the country's public life."

The London Market was greatly pleased with the result of the election

LOWER THE TARIFF.

Bowling Green, Mo., Nov. 10.—Downward revision of the tariff at once is the pledge made for the new Democratic House of Representatives by Champ Clark, Congressman from the ninth district, who is a candidate for the speakership.

"The landslide is in line with my prediction of months ago," said Congressman Clark at his home. "The people are tired of the present administration and are provoked to just the extent that the returns indicate, with the tariff deception."

The first and greatest proposition the Democrats should stand for is a reduction in the tariff to a revenue basis. I would reduce it scientifically and gradually and put into it a sliding scale much like there was in the tariff bill in 1833.

"There is no question but that the Democrats would be on their good behaviour in the next Congress and the future will depend largely on this."

Denver, Colo., Nov. 10.—Thirty-six hours after the election in Colorado returns were still incomplete, owing to the enormous number of scratched ballots, but figures so far compiled point to the election of practically the entire Democratic state ticket, and the three Democratic candidates for re-election to congress.

The election of Governor Shaffroth (Dem), is conceded by the Republicans.

EXPRESS STRIKE VERY SERIOUS

All the Coal Drivers in New York Have Decided to Quit Work

Unlicensed Drivers Have Been Put Out of Business—Some Talk of Arbitration.

New York, Nov. 10.—Possibilities of a clash today between State and Federal authorities over express strike complications intensified interest in all developments of the warfare between men and companies. A hint of state arbitration was the only peace note sounded. The seizure under Mayor Gaynor's authority of express company wagons driven by unlicensed drivers offered an opening which it was believed the companies would speedily take advantage of, bringing matters to a head. It was intimated that the process of injunction would be invoked by them to prevent further seizures.

Besides nearly 10,000 and helpers of the express companies and delivery concerns between 2,000 and 3,000 taxi-cab chauffeurs are on strike.

Express business is virtually at a standstill. The threat of a general strike of teamsters with the men now out is still imminent but there seems to be a disposition to await today's developments and possibly those of tomorrow being taking more drastic measures toward effecting a general tie-up.

The first move to tie up an established passenger transportation line since the strike started occurred this forenoon when 62 chauffeurs on the Fifth Avenue motor busses went out on strike. Simultaneously there was an important accession to the strikers ranks when 250 drivers of one of the big coal companies struck. This was looked upon as possibly intimidating a general walkout of coal drivers in sympathy with the drivers, which had been threatened.

New York, Nov. 10.—Later the whole business force of the Fifth Avenue Company, conductors and chauffeurs to the number of 200 had gone on strike.

John Dawson and Michael Cashal, representing the coal drivers union were authority for the assertion that by night all the coal drivers of the greater city numbering probably 1,500 will have gone out. Secretary Charles W. Forster of the International Brotherhood of Teamsters announced today that twelve hundred union chauffeurs had returned to work. All of the smaller companies employing fifty men or less have signed the union agreement, with the exception of one that leaves two companies whose men are still on strike.

MAJOR GENERAL FRENCH DEFENDS BRITISH ARMY

London, Nov. 9.—At the Mansion House banquet tonight Sir J. French, after a rousing defence of the British army against the recent criticism of Colonel Gedke, during which he declared he would confidently and gladly rely on them to meet forces more numerous than themselves, referred to a more pleasant and congenial topic, namely how much the army appreciated the presence of the Q. O. R. at the army manoeuvres. He said he was only echoing the heartfelt wish of every soldier in expressing the earnest hope that such interchanges of troops might become more frequent.

Regarding his visit of inspection to Canada, he said words failed him to express how highly he esteemed the splendid energy and high imperial spirit apparent everywhere in the Canadian forces.

A. M. Grenfell, interviewed, said that Canada needed two things, state aided immigration and cheaper cable rates.

Regarding reciprocity he doubted if the United States would succeed in achieving anything important. English capital gave Canada too valuable an asset to be bartered away by any government. He thought no statesman as wise as Laurier and Fielding are likely to jeopardize the future of their country for the political convenience of President Taft.

Miss Minnie Vandine is in the city, having returned from a two months' trip to Philadelphia and Boston.
