

THE WEATHER
Maritime - Moderate to fresh westerly winds, fine and warm today and on Saturday.

The Daily Mail

JOB PRINTING.
The Mail Office is well equipped for all kinds of job printing. We have on hand a large stock of envelopes, bill heads, letter heads, etc. Order now.

DEVELOPMENT OF IRON MINES

Preparations Now Being Made For Shipment of the Ore

RECTOR OF NEWCASTLE RESIGNS HIS CHARGE

Miller Extract Company Resuming Operations on Big Scale

Newcastle, N. B., Aug. 12.—(Special)—Messrs. John J. Drummond and Engineer W. F. C. Parsons, were here yesterday in connection with the terminals which are rapidly nearing completion. Messrs. Drummond and Parsons inspected the work yesterday and it is understood additional help will be put on to complete local terminals in the very near future. Meanwhile preparations are being made for the first shipment of ore.

Ore sockets arrived this week over the I. C. R. and were taken to the branch railway from Bathurst Mines. The industry is source of wide interest on the north shore and big development is anticipated within the next few days.

Rev. Mr. Nichol has resigned the rectorship of St. Andrew's Anglican Church and has gone to Mulgrave, N. S., where he has accepted a call. His wife and family accompanied him. There was no service in the church on Sunday. It is stated that the relations between the reverend gentleman and his congregation were none too friendly. His farewell sermon was quite sensational. No selection of a successor has as yet been made.

A resumption was made this week of operations at the large Miller Tannery Extract Co.'s mill at Millerton, which was down for some weeks pending development in the liquidation of the concern. The large factory is being worked to its former capacity and a great amount of standing bark at the mill will be exhausted. The mill is being operated under the direction of the liquidators Messrs. Davidson and Beveridge, under an order issued out of the supreme court at St. John.

An approximate estimate places the bark at Millerton at 6,000 cords, while at other points are about 2,000 cords gotten out by the company. That loss sustained through the departure of Rev. T. Maguire from Newcastle will be a great one was unmistakably demonstrated on Wednesday evening, when the members of the Children of Mary assembled at the convent for the purpose of giving expression to their gratification to the reverend gentleman for his indefatigable endeavors. Rev. Father Maguire, who will leave Newcastle on Tuesday to take an important pastorate at St. Margaret's, was suitably remembered. The presentation of an address and thirty dollars in gold marked the gift. All the members of the society were in attendance, when Miss Mary Craig read the address—the presentation being made by Mrs. Hugh Morris.

After an absence of fifty years Mrs. McKay of Stillwater, Minn., has arrived in Newcastle on a visit. She is accompanied by Mr. McKay and they registered at Hotel Miramichi. Mrs. McKay was formerly Miss Sauntry, and was very well known here. Friends will be glad to learn that her brother has attained great success and is now one of Stillwater's millionaires.

Rev. Father Bourque, who has been assistant at Campbellton, will succeed Rev. Father Maguire at St. Mary's Church. He is expected here shortly. The new assistant is very well known.

EASTERN LEAGUE PITCHER DOWN WITH TYPHOID

Baltimore, Md., Aug. 12.—Pitcher Corey of the Toronto Eastern League baseball club, was taken to a local hospital today suffering with typhoid fever.

THE MT. MCKINLEY EXPEDITION

Attempt to Ascend the Mountain Did Not Meet Success

PARTY DID NOT HAVE SUFFICIENT PROVISIONS

Some of Dr. Cook's Statements Appear to be Borne Out by the Evidence

Seattle Washington Aug. 12.—C. E. Rusk, F. H. Roje, A. L. Cool and Joseph Ribley all of the New York Herald and Portland Oregonian party which attempted the ascension of Mount McKinley, returned to Seattle last night on the steamer Rest.

Their mission failed, Mr. Rusk said because the party was insufficiently provisioned. Mr. Rusk asserted that Mount McKinley could be ascended. He said he would try to organize a party for the attempt next spring. The Rusk party ascended to a height of 7,500 feet and on July 12 met the Parker and Brown party well equipped for the ascent and in good spirits. Mr. Rusk says he believes they will reach the top.

"We took the route followed by Dr. Cook on the east side of the mountain to Ruth Glacier. On the route we saw abandoned camps and much of the scenery pictured in Doctor Cook's books. That far Dr. Cook's statements were authentic, further I would not say but I do not believe he ascended the mountain to the top.

"I should not care to express an opinion as to whether Thomas Lloyd and the Fairbanks party succeeded in reaching the top, as our route was on the other side of the mountain."

C.M.B.A. CONVENTION RECEIVES PAPAL BLESSING

Ottawa, Ont., Aug. 12.—(Special)—The C. M. B. A. convention at Ottawa, has received a cable conveying the papal blessing on the meeting. It has been decided to exclude from membership all who gain a livelihood from the sale of liquor. The use of signs and passwords was approved, of subject to sanction of Bishop Dowling of Hamilton Grand Spiritual Adviser. Delegates increased the mileage allowances to five cents and fixed attendance fee at \$9.

BANDSTAND LIGHTS BROKEN

When the members of the Fredericton Brass Band assembled at the West End bandstand last night to play a concert it was found that all the incandescent bulbs had been broken. The bandmen were compelled to borrow a number of bulbs at the pumping station in order to obtain light. It is thought that small boy broke the bulbs.

IN A HOPEFUL MOOD.

Mr. L. T. Joudrey, a prominent merchant of Campbellton, was among the visitors to the city yesterday. Mr. Joudrey, who carries on a jewellery business, was burned out in the Campbellton fire, but managed to save one of his houses. He says the people of Campbellton are hopeful that the Dominion and Local Governments will come to their assistance, and that the work of rebuilding will soon begin in earnest. "We are not discouraged," said Mr. Joudrey, "by the great disaster which has overtaken us. We are going to rebuild our town and it is the general determination to make it a better and bigger Campbellton."

Mrs. Biggs—"My husband seems to be lost in thought half the time. Mrs. Diggs—"I suppose his ideas are so far apart that he can't help getting lost on the way from the one to the other."

In the United States the value of the poultry crop exceeds that of pork, coal, iron or lumber.

THE PREMIER'S TOUR OF THE WEST

THE RECEPTION AT SASKATOON, SASK. (Courtesy of Grip, Limited, Toronto)

Red Deer, Alberta, Aug. 11.—Sir Wilfrid Laurier's speech here today drew an enormous audience. The rain came down in torrents on the crowd which gathered in the grove to hear the Premier. He began to speak in a hurricane, while the thunder punctuated his remarks, but before he had finished the downpour compelled the speaker, the chairman and audience to hurry to shelter. They found it, a few of them, in a miniature moving picture theatre, and the Premier finished his speech.

"You do nothing by halves in this country," was his reference to the elements. "Characteristic of the west, the supply is greater than the demand."

Government by people was the Canadian aim. "Do not let us err in this," added Sir Wilfrid.

"There is prevailing fallacy that the people comprise those who earn their living by manual labor. The people are not one class, but all classes."

Sir Wilfrid said he had spent the previous night studying an address presented to him urging free trade. "I regret one sentiment in them," said he. "There is an unfortunate tendency to create invidious difference between the manufacturers and farmers as classes. Our fiscal policy, in a word, is this, no protection for certain classes at the expense of others. We do not tax for protection, but for revenue purposes. It is not our policy to have a continuous tinkering with the tariff. It creates a state of

uncertainty and stifles enterprise. We held tariff revisions in 1897 and 1907, and we will have another in due time, which I hope and expect will witness a further reduction in the tariff."

Discussing a reciprocal treaty with the United States, Sir Wilfrid repeated a readiness to negotiate on fair lines. The United States proposition, as originally presented, he did not deem fair to Canada. Our experience with our good but keen neighbors, he said, has taught us the ethics of David Harum: "Do unto the other fellow what he would do unto you, and do it first."

In an eloquent peroration the Premier pleaded for a united Canada and the welding of all diverse interests to the common welfare of the common country.

C. P. R. MARKET LEADER TODAY; SOLD AT 193 ON WALL STREET

New York, Aug. 12.—Wall Street—Opening prices of stocks showed some sharp advances in spite of a very light volume of dealings. Canadian Pacific rose 1 1/2, Union Pacific and Reading 1 and St. Paul, Atchison, Chesapeake and Ohio, Brooklyn transit, Utah Copper and American Beet Sugar large fractions. American Smelting and a few other stocks started a fraction lower than last night.

New York, Aug. 12.—Wall Street—Noon.—Cessation of pressure against American Smelting relieved the general list but trading became very dull. Union Pacific and Southern Pacific were bought on the good annual reports. The weakening of American Smelting was the cause of fears that the intended curtailment of copper production would impair its earnings. Bonds were steady.

KNIGHTS TEMPLARS PREPARE TO RETURN

Chicago, Aug. 12.—The invading Knights Templars of the thirty-first triennial grand encampment today began the journey back to their homes. No set programme had been arranged for today and most of the visitors passed the day visiting Chicago parks and show places. The Earl of Euston, representing the Great Priory of England and Wales, is preparing for his return.

Mayor Gaynor says two-thirds of the arrests in New York are due to police stupidity.

FLOODS IN JAPAN DO LOT OF DAMAGE

Tokio, Aug. 12.—The devastation wrought throughout many districts by the recent floods is appalling. Whole villages and towns have been washed away and many lives have been lost. In the lower sections of Tokio alone, thirty thousand houses are submerged. Communication by railroad throughout the flooded area has been interrupted. There is much suffering and in many places the inhabitants are destitute and threatened with starvation. The monetary loss amounts to millions of dollars.

SAD DROWNING ACCIDENT

Toronto Bay Getting Quite a Bad Name For This Kind of Thing

FERRY BOAT RAN DOWN SMALL YACHT

Most of the Occupants were Rescued by Other Small Boats Near

Toronto, Aug. 12.—(Special)—One and perhaps three lives were added to already woefully long list of drownings in Toronto Bay this year, when the yacht *Director*, owned by R. Runney of 1050 Queen street west, with 12 persons was run down about 150 feet from the wharf at Central Island shortly after 7 o'clock last night by the Toronto Ferry boat *Mayflower*. The yacht had put into the slip at Centre Island, had just left for a sail on the Bay when the accident happened. The occupants of the yacht saw the approach of the ferry which was entering the slip on her regular trip and attempted to clear, but the tiller for some reason or other refused to answer and before the small boat could get out of the way it was rammed by the ferry and the 12 occupants were thrown into the water. The screams of the women and the shouts of the men attracted the attention of the persons sailing about in the lagoon in the gasoline launches and other craft and these promptly came to the rescue of the people struggling in the water.

PROVINCIAL RIFLE ASSOCIATION—SOME SCORES MADE TODAY

Sussex, N. B., Aug. 12.—(Special)—Shooting for the McAvity cup and extra series "B" went on under very favorable conditions this morning. A light, tricky wind played across the range, but the light was good and big scores were made. Two St. John men came in high in the extra series "B" at eight hundred yards, which finished this morning. P. D. Donnelly and Sgt. Jas. Sullivan, C. O. C. Both made possibilities together with seven other provincial men, S. J. Burlock, Pte. L. P. Clarke 74th, Lt. A. B. Maggs, 74th Regt., Jas. B. Powers, Lt. S. W. Smith, 67th, P. R. Semple and Frank Tompkins, Capt. R. O. Smith, R. O. of St. John and W. R. Campbell, Moncton, R. A., came in with a score of 24. Lt. L. O. Bentley, 93rd, Sgt. D. D. Freeze, 74th, McIntosh, Rev. J. J. Pinkerton, Mount Pra, appears in a lower score of 21. Lower than these again is J. L. White and then comes Wm. Pulman, Pte. W. A. Crandemire and Major J. S. Frost, 63rd Regt., all with 24 points, but with bulls eyes near the first instead of near the last. Sgt. I. F. Archibald, 3rd, R. C. A., and Lt. R. I. Freeze, 8th Hussars, also made 24. Those with 23 are F. H. Price, of Grand Falls; Pte. H. Crandemire, 67th Regt.; Sgt. R. Tracey, 67th Regt.; Sgt. L. Campbell, 74th Regt., A. Langstroth, City Club and Major O. W. Wetmore, 74th Regt. All others are out of the prize lists.

Prizes will be presented after the Pugsley match this afternoon. Sgt. Archibald, of St. John wins the Grand Aggregate with 389, Sgt. Sullivan was second with 382. Archibald also won the McAvity Cup today with a score of 66.

ST. JOHN POLICE

St. John, Aug. 12.—In the Police Court today Detective Killen had a document said to be a confession by the Italian, Rosa, that he shot his fellow countryman, Siracusa. But he was not allowed to read it at this stage of the trial.

GAYNOR STILL DOING WELL

Very Strong Hopes are Entertained for His Complete Recovery

NO IMMEDIATE OPERATION NEEDED

Further Examination Shows That Bullet is Intact And Did Not Split

New York, Aug. 12.—Expressions of encouragement on the part of all the watchers by Mayor Gaynor's bedside ushered in the fourth day of his fight for recovery from the effects of the assassin's bullet, which laid him low last Tuesday. At 7.10 o'clock the following bulletin was issued: "Mayor Gaynor passed a very good night. He slept seven hours. He is comfortable this morning and in excellent general condition. His temperature is 100, pulse rate 70, respiration, 16.

(Signed) WILLIAM J. ARLITZ, M.D. CHARLES N. DOWD, M.D.

The physicians were not willing to supplement the bulletin with even informal statements as to the patients condition, evidently assuming that the reassuring tenor of the official announcement would be all that was necessary to allay any fears that had found expression late yesterday and late last night. It was commented, that the temperature, pulse and respiration given indicated a practically normal condition for the patient and the news brought from the mayor's chamber by his day attendants was of a decidedly cheerful nature.

The mayor's secretary, Robert Adamson, coming down shortly after 8 o'clock said the mayor had breakfasted about 7.45 o'clock and had his usual good appetite. The mayor's color was better than it has been at any time since he was stricken and except for the bandages about his head there was little in his appearance to indicate that in his throat was lodged a bullet which, however favorable all indications may be, still remains an ever present menace. The best method of dealing with has seemingly not yet been determined by the surgeons.

There was no attempt today to leave a vague impression regarding radiograph examination made in the search for the bullet. Secretary Adamson commented on the interest the mayor displayed yesterday in the mechanism of the X ray apparatus, which comment in itself indicated clearly enough that a second set of radiographs had been taken. These showed the presence of the bullet in the vault of the pharynx or in other words in the wall of the throat just behind the palate.

This much was shown in the late bulletin last night, which, however, left a doubt as to whether the bullet was still intact, and not as had been at first reported, split in two sections. It was generally conceded today, though, that the physicians were now in agreement that there had been no splitting of the bullet and thought the apparent fragment shown by the first X ray, to be separated from the main portion of the bullet, was probably a fragment of bone.

There was every indication today that no immediate operation was necessary. It was announced this morning that no further consultation of the physicians would be held until 8.30 p. m.

ALASKAN SETTLEMENT WIPED OUT BY TIDAL WAVE

Tacoma, Wn., Aug. 12.—(Special).—Cable dispatch from Seward, Alaska, says that delayed reports from the Westward star that the little settlement of Oklo Bay, on Alaska Peninsula, was wiped off the map in the latter part of June. Land and buildings were carried to sea by a tidal wave which visited that vicinity.

The Lord Mayor of London has started a fund for a memorial to King Edward.
