THE SUMMER HOLIDAYS

Today the boys and girls attending the various city schools, together, no doubt, with many hundreds more children in other parts of the province, will enter upon their summer holiday. That the prospect is a bright and longed-for one goes without saying. After nine or ten months of hard and continuous work held in check by school rules and home study they will naturally look forward to the glad holiday time, when, for a short period at least, they may enjoy their liberty.

The purpose of the holiday is to give the children necessary rest from the constant grind of school work; to give their young spirits an opportunity to expand by removing the long borne burdens; to turn them loose that their limbs may be strengthened by exercise and their lungs filled with clean health-giving air. The change is a necessary one. Without the holiday boys and girls would become cramped mentally and physically. Judiciously spent it will bring them cleaner minds and healthier bodies.

Holidays, however, is so far as the term means, cessation from school duties, are not always a health-giving institution, if they are to be spent in idleness, they would be better done away with. Want of occupation is not a rest to the mind; on the contrary, it may be more of a curse than a blessing. But fortunately, few healthy boys and girls ever want to be idle. They want to play as all young animals do, and play is an absolute necessity for their physical, mental and moral health. But continuous play with nothing else in sight, soon becomes a burden, and the burden bearer is frequently driven to other means of recreation, often questionable. Some duty interspersed with play, something to be responsible for, will relieve the monotony of play and make it more healthful and enjoyable.

Work, after all—congenial work that is—is the spice of enjoyment and every healthy boy and girl loves it and enjoys its responsibility. Relieved by healthy, properly directed recreation, at reasonable intervals, work during the holidays will afford all the variety that a boy and girl needs, and will prove the most healthful means of developing them mentally and physically.

To some of the boys and girls, today means the close of their school career, and they now have to turn and prepare to face some of the more serious responsibilities of life. For these the future will be largely as they choose to make it, and according as they have taken advantage of the preparation for the battle of life which their school days have afforded them, so will their success and failure be. It is not always the hardest worker that meets with the most success, reckoned from the world's standpoint, and the satisfaction which is to be obtained from the fact that virtue is supposed to be its own reward, may not be very tangible; but, at the same time, the man or woman who makes the most of the opportunities which present themselves, whether the result be great or small, has the satisfaction of knowing that he or she has done the best they could, which is all that can be expected of them.

IGNORING THE FACTS

The Halifax Chronicle thinks that somebody should send Mr. Borden a marked copy of the Canadian immigration returns. He will find them much more interesting and inspiring than the reports of United States officials who are trying to belittle the tremendous migration of American farmers into Canada. He will also find that during the past ten years, under the enterprising immigration policy of the Laurier Government,

over one and a half million people came into Canada, and that of this number more than half a million nearly 600,000 came from the British Isles. This is the kind of "exodus" came from the United States, while that has been going on since the Liberals infused life and energy into the management of the country's business. So long as the party with which Mr. Borden is now associated was in power, we had no immigration worthy of the name. The people went out of the country faster than they could be brought in, and the exodus to the United States was on everybody's lips. Now people are pouring in by hundreds of thousands every year, bringing millions of capital, and spreading over the land so rapidly that the railway companies cannot keep pace with settlement in the West. Mr. Borden's "severe criticism" of the immigration policy of the Government is not very impressive when confronted with the striking fact that as a result of the efforts of the Government more than a million and a half of immigrants entered the Dominion during the past decade. This is one notable factor which is making Canada the Twentieth Century country. Mr. Borden should be big enough to admit the truth.

VALLEY SURVEY PARTY WENT ON STRIKE

(Woodstock Sentinel)

Evidently the carrying on of the Valley Road Survey is not all pleasure for the members of the government party. Last week a strike occurred. A certain amount per month with board had been promised these youthful path finders with the luxuries of camp board in addition. It is not known if they ate more than was anticipated or if the cook wanted more than the average mortal does. Anyway when the checks came at the end of the first month the boys found themselves to be from ten to fifteen dollars shy of the amount promised. We suppose it must have been the eating capacity which regulated the difference as the matter of competency for work never was a consideration in this selection of men.

Our local government got busy, or was made busy, the telephone was kept hot and eventually it was discovered that if the boys would go back to work the amount would be made up to them. In the meantime the supporters of the weak and weary and troubled Mr. Flemming are saying there was no strike—it was the rain which brought the boys out of camp. It was reign alright—the same kind of reign which will eventually turn the whole party out of camp.

RECEPTION SERVICE

At St. Paul's Presbyterian Church last night sixty-five persons were received into the church.

SHOULD STOP IT.

Sidewalk bicycling is becoming altogether too common for the good of the community and the police should get busy and put a stop to it.

SCOTCH MUSIC

Four splendid pictures at the "Gem" tonight. Don't fail to hear the Smith Brothers sing their Scotch songs. This feature alone is worth the price of admission.

A STAR WESTERN FEATURE AT THE BIJOU

The Branding of the Thief is said to be the finest western picture ever shown in the city and it is certainly classy. "The Girl Spy" is also a thrilling subject. Big matinees today from 2 to 5 p. m.

AROUND THE MARKET.

The market this morning was the largest in several weeks and the demand for country produce was fairly brisk. Spring lamb sold at \$1 per quarter and was rather scarce at that figure. A few cultivated strawberries sold at 25 cents a box. Veal brought 6 and 8 cents, butter, 20 cents, eggs 20 cents, and potatoes 75 cents.

A NARROW GAUGER.

Mr. John Burke, of Hanwell, has secured from the Local Government the job of rebuilding the bridge over the Gornish Stream, at that place. He is now working on the job, and some of his neighbors are complaining because he is building a narrow gauge bridge. They say he is giving it a width of fourteen feet and this is insufficient to permit of two teams passing abreast.

PERSONAL.

Mrs. J. S. Gregg and children left for their home at Grand Lake this morning.

Woodstock Sentinel: Mrs. Raciane and child, Montreal and Miss Weddall Fredericton are the guests of Rev. R. W. and Mrs. Weddall. Dr. Fisher of Marysville and W. L. Fisher of St. John were in town Monday attending the funeral of the late Mrs. L. P. Fisher.

CITY SCHOOLS CLOSED

(Continued from page one)

same was the case with some attention to recitations and singing. In the other departments taught by Misses Fox and Wiley, owing to the absence of the regular teachers, Misses Harvey and Golding, attention was confined to the regular work. The certificates won by the most proficient pupils were presented by Dr. VanWart.

YORK STREET SCHOOL.

At the York Street School there were numerous visitors. In the higher grades of the departments of Miss Sterling and Miss Alexander the regular school work was done. In the others taught by Misses McCann, Smith, Everett and Strong, the customary closing programmes were carried out. Black board drawings by the pupils were numerous. Miss Purdie was in charge of Miss Smith's department, the latter being in Europe. Mr. C. A. Sampson presented the certificates.

REGENT STREET SCHOOL.

At the Regent Street School, the certificates were presented by Mrs. Lynch. In all the departments of the school the rooms had been decorated by the pupils. In the department of Principal Hughes the session was devoted to the regular work of the year. In the department of Miss Haggerty and Miss McKenna, the ordinary school work was varied by music and recitations. The same was true in the Brunswick Street school, taught by Miss Gillan. Mrs. Lynch presented the certificates in this school as well as in the other.

CHARLOTTE STREET SCHOOL

At the Charlotte Street School Mrs. W. G. Clark made the presentation of certificates. In all the departments exhibitions of school work were given. In the higher grades taught by Miss S. L. Thompson and Miss Burpee such exhibitions took up the greater part of the time. In the departments of Misses Pinder, E. J. Thompson and McAdam there were very interesting programmes.
