THE HAZEN GOVERNMENT IN CONTEMPT AT ST. JOHN

Some Timely Observations by "Traveller"
---Why Editor Scott Pulled Out From
the Standard--Pinder and Crocket Out
for the Swag.

I was in St. John a few days ago—Tuesday of last week—and was much interested in the political chat and chatter around the hotel lobbies and on the streets. I have been in many places in New Brunswick and had many opportunities to judge of the poor opinion the people generally have of the Hazen government, but in St. John I was literally surprised at the contemptuous way it is spoken of.

There was more political talk than usual. Mr. Hazen and a few of his government colleagues were holding a session in St. John; and in consequence there were some satellites in the city. I noticed Crocket and Pinder of York, and it was freely stated that the latter was there with his hatchet in the shape of an ultimatum respecting his little railroad. There were many earnest talks in the hotel lobbies and consultations even on the street, but it was evident that Pinder was there to make or break. Since his return to York there is a story which has its source in the leakage of the country party telephone. His friends were anxious to know how he had made out and the answer was just as definite as anything of Hazen's is usually. "But," said Mr. Pinder, "if I don't get my \$10,000 guarantee per mile, I will tell that which will hang them."

It looks as if the King of the Neck-awick was out for the red fluid. He has a poor opinion of his leader anyhow, and the memory of his sickbed and the promise broken when he was unable to move will never be forgotten.

A BOLT FROM THE BLUE

Mr. Pinder's resolution is not the only trouble facing Hazen. His friend Crocket of the Gleaner is about to fade out of St. John. He managed the Standard into a very deep hole—so deep that Editor Scott concluded to climb out before the walls fell in. His resignation and announcement that he proposed to go west was just out of the blue and consternation reigned in the ranks of the faithful. It is current talk there that Scott was the only man on the big end of the staff that the party had any confidence in. There was one exception—Mr. Hazen. He had no love for Scott and was Crocket's champion when other important directors thought it would be wise if James forsook Prince William Street. When the row was on and the staff broke up, Scott's sympathies were with the reporters and his city editor, but Hazen hated the latter, it was said so earnestly, that he could

not be civil to him for months before the end came and he sided with Crocket against Scott. That was the beginning of the end which has come in an unexpected fashion. Even since Scott has been "looking around" and his vision was keen and far, for now British Columbia will give him a view point from which he can watch the tumble of his political friends without getting ruffled in the mix up. "Tis said he wins \$4,000 the first year and \$5,000 per annum for nine years afterward. I hope it is true for it will prove what I have often heard that B. C. men never do know how to spend their money.

CROCKET NOT PLEASED

But James H. is not pleased. He hoped to make his exit before his editor and spend the summer in his Salamanca home gazing at his new treasure—a framed copy of R. G. Dun's weekly record of Bills of Sales, etc., which mentions that the big new press etc. in the Gleaner office, which was boosted to the limit, is mortgaged to Messrs. R. Hoe & Co. of New York. This must have been a sour pill for the Salamanca magnate. His ingenuity must be failing him or are the banks getting shy. His greatest gift—to draw—must be failing him. Everybody knows what an adept he is at drawing two salaries, one from the Standard and another from the Gleaner, and the public accounts give expert evidence of his success with the provincial treasury, but it is only the private bank accounts of Tory members that grumble at the raids of the versatile manager. The story that John Morrissey tells of James' drafts upon him is somewhat amusing. He honored two, but the third one I think was made after the bye-election in Northumberland and John had one or two stored up for James which took the form not of an acceptance, but of a letter which nearly set the mail bag on fire.

There must be others or else James would not have furnished copy for R. G. Dun's truth letter.

The question among the Tories in the big town is, with Scott gone and Crocket on the go, what is to become of the Standard? Scott used to mention the dredging friends of the Telegraph, but he never mentioned the dredging friend of the Standard. Mr. Mayes has refused to put up and he is on the black list now. The situation is not interesting for those who are interested in their jobs, but it is certainly entertaining for those who like to size up political events.

TRAVELLER.

THE KING AND QUEEN GIVE AUDIENCE TO GOVERNOR GENERAL

London, June 20.—The king and queen received Earl Grey in audience today.

Sir Ian Hamilton has been appointed to the Mediterranean inspector-generalship of the overseas forces. General French is now inspector-general of the home forces.

In the commons Under Secretary Seely stated in respect to Canada's commercial treaties that they are made with the full knowledge and consent of the colonial office and said the same course would be adopted in respect to the other self-governing overseas dominions.

In the House of Lords Lord Lucas that the overseas dominions would be asked at the next imperial conference whether they approved of the idea of an inspection of their forces by the commander-in-chief of the Mediterranean forces. Earl Crewe emphasized there was no question of this country sending an officer, however eminent, to inspect the self-governing overseas dominion forces except at the request of the respective governments. The impression was formed at the last colonial conference that there was a real desire as far as possible to obtain uniformity of equipment in the character of the forces through the different parts of the empire, and the colonies would welcome such an inspection as is suggested. It would not necessarily be a periodical inspection.

In the Hartlepool by-election today the vote was: Furness, Liberal, 6,159; Gritten, Unionist, 5,993.

New York, June 20.—Eleven persons were prostrated by the heat in Manhattan and Brooklyn today, although the thermometer by official reading, was only 83 degrees. None of the victims will die.

WORK ON THE N. T. R. BEING PUSHED ALONG WITH GREAT VIGOR

Toronto Construction Company Have
Rails Laid to West Brook Summit—
Great Doings at Napadogan.

The Toronto Construction Company have a big crew of men on their section of the Transcontinental Railway, and are vigorously pushing along the work. The steel has been laid as far north as West Brook Summit, which is about fifteen miles from Plaster Rock.

The concrete piers and abutments for two bridges across the Southwest Miramichi and one across the North branch, have been completed and temporary trestles have been constructed to enable trains to cross. It is expected that the steel superstructures will be installed early in the fall.

At Napadogan, which is to be a divisional point, there is great activity at the present time. A crew of 350 men are at work putting in the sidings, and making ready to instal water works. The water will be piped to the yard from a huge reservoir, and will be stored in a tank having a capacity of fifty-four thousand gallons.

A portion of Napadogan Lake has been taken for the yard, and has been filled in with stone and earth. Napadogan promises to become quite an important burg in the near future, and there is likely to be a brisk demand for building lots. It is not in the parish of Stanley, as is generally supposed, but in part of the parish of Douglas. The assessors for Douglas learned up this point last year by visiting the place and making an assessment.

All of the culverts and small bridges between McGivney and Half Moon Cove have been completed. The culverts are of concrete and the work is said to be of a very high standard.

The big fill over the outlet of the Miramichi Lake has been completed, and makes a fine appearance. It is one of the heaviest on the New Brunswick division, containing upwards of 50,000 cubic yards of earth and stone.

The Toronto Construction Company expect to complete their contract early in the year 1911.

GREATER MONCTON CLUB IS TALKING OF "MERCHANTS' WEEK"

Moncton, June 20.—The Greater Moncton Club is booming "Merchant's Week," which, if definitely decided upon at a special meeting to be held on Friday night to consider the matter, will probably be held about the middle of August. The question was discussed at the club meeting tonight, and the attractions talked of were two days horse racing, two days athletic sports, trades and labor parade.

ndies as a whole would come into the reciprocal scheme.

In so far as the Commissioners have given expression to their opinion, both in Canada and in the West Indies, it is believed that their report will probably recommend the preferential tariff agreement between Canada and the West Indies and the subsidizing of an improved steamship service. The basis of the arrangement which has been suggested is a reduction in duties on a specified list of articles of about twenty per cent. on the part of the West Indies, and on the part of Canada, a continuance of the present reference on sugar and the suspension of the twenty per cent. license so far as the importation of sugar for the Canadian refineries from other than British countries is concerned. It is stated that the Government at Ottawa is willing that this license should be suspended, holding it in abeyance, to be reimposed if circumstances appear to make it necessary for the protection of the refiners.

On the point of steamship communication, the testimony appears to be unanimous that a service with steamers capable of at least twelve-knot speed, with ample carrying capacity and properly ventilated accommodation for the fruit trade, is clearly to be desired, if not absolutely necessary for the development of trade between Canada and the Colonies.

As far as West Indian sentiment has been manifested, it is probable that all the Colonies, with the single exception of Jamaica, will be favorable to the prospective recommendation of the Commission. That Colony seems to think that its commercial interests with the United States would be jeopardized if it entered into a preferential arrangement with Canada. This fear, we believe, is groundless. The recent tariff negotiations between Canada and the United States established that the latter country would not regard preferential arrangements between Canada and another portion of the Empire as occasion for the adoption of retaliatory measures.

VIRTUE HAS an inexhaustible patience to keep on waiting for that promised reward without ever getting it.
